Two prisoners lodged in the debtors' rooms on the ground floor are reported to have got drunk and quarrelsome on rum handed in to them by "pals" from the outside. The sheriff on being interviewed admitted the disturbance and the fact that one of the prisoners had to be taken by him to the cells below. Total Yield Of Potatoes Less This Year, But Value Increased Over 27 Millions

OTTAWA, Ont., Nov. 16.—The total yield of potatoes in Canada this year is estimated by the Dominion Bureau of Statistics at 44,668,000 cwt, as compared with 50,195,000 cwt last year. The acreage this year was 545,239 in comparison with 559,063 acres a year ago. The Bureau today issued a bulletin giving preliminary estimates of the area yield and value of the potato, root, and fodder crops of Canada for 1929. The bulletin estimates the value of the potato crop this year at \$67,451,000 as against \$40,874,000 in 1928. The reason for the increased value of this year's crop is that the average price of potatoes this year is estimated at \$1.51 per cwt, as against 81 cents last year. Last year's prices were exceptionally low. The five year average is given by the Bureau as \$1.26 per cwt.

Churchill Construction Party Arrives In City

During the past summer season a large amount of construction work has been going on in the harbor of Fort Churchill, Hudson Bay, a member of the construction party, who left the Island last spring, told The Guardian recently. During the last week, most of the party have returned to their homes after an absence of almost seven months. About May 1 the party composed of Messrs. Charles Batt, John Francham, Fred Batt, Harry Cantill, Gordon Musick, and Norman McDonald left Charlottetown for Fort Churchill by rail, travelling the last part of the journey on the newly constructed Hudson Bay Railroad. The work consisted largely of dredging the harbor, which is a magnificent natural port, and of erecting buildings. Captain Dan McDonald, of Finette, another member of the party, who left Halifax early last spring in charge of freighter Chesterfield, has also returned, after conducting the transportation of ballast during the summer. Although there are practically no permanent white inhabitants in Churchill at the present time, great changes are expected to take place

QUEBEC, Que., Nov. 17.—Hon. John Bracken, Premier of Manitoba yesterday returned on the Canadian Pacific Liner, Duchess of York, from a visit to Great Britain. He expressed his regret over the death of Hon. J. A. Robb, Minister of Finance, and a few remarks on Intra-empire trade, when interviewed. The idea is receiving much favorable support in England, but some difficulty is being experienced in the working out of its details." Mr. Bracken said.
