POLITICAL FORUM

This column is open to the discussion by correspondents of questions of interest. The Guardian does not necessarily endorse the opinion of correspondents.

A TIME FOR REFLECTION

Sir—The election in British Columbia on Wednesday last was a smashing blow to the C. C. F. and eliminates that party from the claim frequently made by its leader that they would form the official opposition in the Federal Parliament. Nova Scotia and British Columbia show that they are a beaten party already.

A notable feature of the election was the lead in the nature of the victories. They reveal that the people appreciate good government and will take no chances on a push over. It is understood that the date for the B. C. election was fixed during Prime Minister St. Laurent's visit to that province and with his consent. The result will be cheering to all who are loyal to the Government on their record.

To all who are loyal to the Government on their record. They only have to gain 20 more seats than they have at present, whereas the Conservatives will have to win 70 additional seats. Think it over and vote the straight ticket—no splitting.

This is the time for political tricks of various kinds. The attempted arrest of Premier Smallwood in Newfoundland and the scandal-hunting by Mr. Drew are examples. We used to call them "hookbacks" but I am not aware that they ever accomplish much harm. "Undue influence"—Mr. Brownie is looking for notoriety as the discoverer of this new offence under the Election Act. What is the difference between undue influence and undue and impossible of fulfillment promises? And we have been almost smothered by the latter.

Let us turn from these things and give our thought to Family Allowances, Old Age Pensions, Unemployment Insurance, National Health Insurance, etc. The reduction of public debt, a prosperous Canada, the third largest trading nation in the world, this guarantee full employment and the right to all who are willing to work. I am, Sir, etc.

Motor Truckmen Urge Increased Rates On Government Contracts

An increase in rates for trucking on Provincial Government contracts has been requested by the P.E.I. Motor Truckmen's Association in a brief presented recently to the Executive Council. Assurance was received that the brief would be considered at the earliest opportunity.

On hauling gravel, the brief requests a rate of 10 cents per mile per cubic yard; \$3.00 per hour for work on an hourly basis within a working radius of five miles, and for over five miles for the above rate per cubic yard.

On Government contracts it is requested that the hiring of trucks be done by the Association through their central office, in conjunction with the contractor. This arrangement, the brief states, "should be a considerable convenience to the Department of Public Works, in reducing the amount of time the

The afternoon session was highlighted by the report of the Rev. J. J. Barras of Summerside on the spiritual and material growth of the year and the presenting of the Kevman's report by the Rev. C. A.
