Hess Gives Version Of Flight To Scotland

Rudolf Hess tells, in the following report his version of why he flew to Scotland in 1941. His story is the first direct communication from the former No. 3 Nazi to the press since he was imprisoned by the British Government in 1941. The Fuehrer disagreed, saying: "You know that already in our talks during our imprisonment at Landsberg in 1924, and ever since then I have declared again and again that the basis of my policy upon setting power must be an understanding with England. Even today I have not given up hope that this understanding can be achieved when a certain period of

If You Get Up Nights Help Your Kidneys

Do you feel that you are suffering from backache, rheumatism, or other ailments? If so, your kidneys may be the cause. They are the filters of your body and when they become weak, they allow poisons to build up in your system. This leads to all kinds of ailments.
