IDEAL FOX

Continued from page 11

Ideal type of breeding animal must ever be associated in your mind with high standard fur quality. The faculty of wise judgment in selection is cultivated only by experience and practice. Certain basic principles can be outlined to serve as a guide or standard for breeding both for fur quality and Show purposes.

In reaching a decision as to the worth or fur quality of the ideal Fox we may look at the subject from two viewpoints, first—the anatomical and general physical points,

engaged in the business of Fur Farming.

When And Where To Market Pelts Very Important

The most important subject which confronts the rancher is when and where to market pelts. The established raw fur merchant is the one who should be patronized as he has business connections which the average trapper or fur-farmer cannot reach. The dealer who obtains reasonable profits from fox pelts is sure to push the product. In this way demand is enlarged and at the same time much favorable publicity brought which has a tendency to broaden the market for the rancher. Silver Fox fur is regarded as one of the rarest and most beautiful of all long-haired furs, as that the marketing is quite different to selling more standard furs, such as muskrat, fitch, skunk, etc.

The fur trade in different sections of the various countries has different standards of quality, values and

Continued from page 14

SILVER FOXES

We wish to announce that we are open this season to buy large quantities of all grades of Silver, Cross and Red Fox Furs. Our connections this fall will enable us to handle large quantities of pelts.

Before disposing of your furs, we would be pleased to have you show us your collection. No lot too large, no lot too small.

We are arranging to buy furs at the different leading points and we shall announce buying dates later through the press.

Anyone wishing to get in touch with us before November 10 may do so by phone or letter at — Postage office.

LIGHT and WATER

Are two essential things on a

Farm or Fox Ranch

The Westinghouse Light Plant shown can be relied upon to furnish Cheap and Efficient

Electric Light, and the Myers Deep Well Pump, Electric or Engine drive will give you water in abundance at lowest cost. We can supply an Electric Pump to work from Lighting Plant if required. Also Steam Boilers, Water Tanks, Engine and Farm Machinery Repairs, Cylinder Grinding, Plumbing and Heating.
