"The street car bell don't work, and the passengers had been punching him with their umbrellas."

A TERRIBLE COUGH.

Mrs. Thos. Carter, North Port, Ont., says: I caught a severe cold which settled on my throat and lungs and my friends thought it would send me to my grave, when other remedies failed, Dr. Wood's Norway Pine Syrup completely cured me.
The man who sits down and waits for fortune to come along and smile on him is apt to have a need of a soft cushion.
Misard's Liniment Cures Distemper.

Fools are made out of all kinds of cloth but the lining is always the same—cheap.

If a child eats ravenously, grinds the teeth at night and picks its nose, you may almost be certain it has worms and should administer without delay Dr. Law's Pleasant Worm Syrup, this remedy contains its own cathartic.

A rich man is an honest man, no thanks to him, for he would be a double knave to cheat mankind when he had no need of it.

One LAXA-LIVER PILL every night for thirty days makes a complete cure of biliousness and constipation. That is—just 25 cents to be cured.

A DRUGGIST'S OPINION.

Mr. W. J. Stinson, Austin, Maine, writes: Our customers speak so highly of Milburn's Sterling Headache Powders that it is a pleasure to recommend them to others. They never disappoint but always cure. Price 10c. and 25c.

A well bred man is always sociable and complacent.

HAGYARD'S YELLOW OIL cures sprains, bruises, sore wounds, cuts, frostbites, chilblains, stings of insects, burns, scalds, contusions, etc. Price 25c.

The talent of success is nothing more than doing what you can do well.
Hagyard's Yellow Oil can be applied externally for rheumatism, stiff joints, chapped hands, chilblains, sprains etc. It can be taken internally for croup, quinsy, bronchitis pains in the stomach, kidney complaint, etc. Price 25c.

A brave man knows no malice but forgets in peace the injuries of war, and gives his direct foe a friend's embrace.
DR. LOW'S WORM SYRUP is a safe and reliable worm expeller. Acts equally well on children or adults. Be sure you get Low's.

An obstinate man does not hold opinions—they hold him.

Misard's Liniment Cures Cigars, in Cows
When a man is considered to be very clever, his wife thinks that his greatest exhibition of cleverness was in picking her up to marry him.

SUFFERED 15 YEARS.

Mrs. Wm. Ireland, 170 Queen St. East, Toronto, wife of the well known shoemaker suffered from indigestion and constipation for over 15 years. Nothing did her any good until she tried Laxa-Liver Pills, which cured her.

FORTUNES WASTED

In Attempts to Cure Dyspepsia and Other Stomach Troubles.

If Dodd's Dyspepsia Tablets Were Used These Diseases Would Vanish From Canada, at One-Hundredth Part of the Costly.

"Give me the money that is paid to doctors every year for their vain effort to cure Indigestion, Dyspepsia, Biliousness, Wind on the Stomach, Foul Breath, Catarrh of the Stomach and other stomach troubles and I'll clothe every ill-clad person feed every hungry one build houses for the homeless and build a church or a school-house at every cross-road in the Dominion." So spoke a physician a few days ago.
He did not over estimate the enormous waste of money in this direction. Hundreds of thousands of dollars are thrown away yearly on this purpose. If all who suffer from these diseases would quit doctoring and use Dodd's Dyspepsia Tablets hundreds and thousands of dollars would be saved and these stomach diseases would be unknown in Canada. For Dodd's Dyspepsia Tablets cure these complaints as certainly as the sun melts the snow.
If you don't believe it—test them! They'll convince you by curing you.
The doctor who restricts himself to the treatment when the physician who treats all diseases fails. Just so with Dodd's Dyspepsia Tablets were made to cure these diseases only. They are not curables.
But Dodd's Dyspepsia Tablets do cure all stomach troubles. They have never failed yet. They will not fail to cure you.

THE SCOTTISH CANADIAN MINING COMPANY
of London, Canada.

Are You Satisfied With 3 per cent?

If not you must do as others have done—
get out of the old rut and shew your faith in something outside a charter'd Bank!
Nature has filled British Columbia so full of Mineral that it runs over in many places, and all that is necessary to get it out is—
money!

There are properties now working where only sufficient money was needed to "grubstake" the men who they first started, and which are now turning out ore in fabulous quantities. These, though, are exceptions. As a rule, the precious metals have to be sought for earnestly, and much time and labor expended in the getting of them.
Very few men are rich enough to run a mine alone—co-operation is necessary. Union is strength! A number of men get together and form a company to acquire and operate a certain property. Those who get in earliest get the lowest price stock and the most risk. As the price advances the risk lessens (or should!) until at length the mine pays dividends. For instance Le Roi (Rossland) were some few years ago offered here at the most at 5 and 10 cents per share, and they were hard to sell at that. Now they are quoted at £8:10:0 (\$42.50) each in England, and the last dividend was \$1.25 per share. At the same time the person buying low took all the risk of the property paying, or of losing his or her money. In this instance \$50.00 worth of stock is now worth \$42,500.00 and the last dividend amounts \$1,250 on 1,000 shares.
A little over a year ago a property was offered some men in London, Ontario, who carefully investigated its merits and, when satisfied, took it up, formed a company and started in to develop it.
The company is the "Scottish-Canadian Mining and Development Co., of British Columbia, Limited," and the property "The Rob Roy Mines."
The first shot was exploded Aug. 1st, 1899, and to-day the company have 380 feet of rock tunnel driven, have built cabins, trails, mine works, etc., have surveyed the property preparatory to Crown Granting, and have shipping ore, as the Upper Level is now producing. All this is less than one year from time of starting.

There is no reason at all why Scottish-Canadian Shares should not prove just as profitable, as those before mentioned, as the "Rob Roy Mines" have magnificent surface showing, which have been proved, at a depth, by the tunnels. In addition the management is a careful and conservative one, getting a dollar's worth of work for every dollar spent, and watching outlay very closely.
The company is free of debt, and only has to sell enough stock to carry on the work till shipments can be made to the Smelter.
Purchasers of stock to-day get in low, with the added advantage that there is hardly any risk in the shares now, development having shewn that "Rob Roy" contains ore in apparently inexhaustible quantities.
The directors are well-known men, mostly from London and vicinity, and altogether, these shares offer a most promising field for profitable investment.
The shares are fifteen cents each, \$15.00 for 100 shares (not less than 100 sold), \$150.00 for 1,000 shares. The par value is \$1.00 each, so that the investment of \$150.00 buys \$1,000.00 worth of stock, and there can be no more calls or assessments on the shares.
If you buy a hundred or a thousand shares of stock you can never be called upon to pay a cent more than the fifteen cents per share, in any way, shape or form.
Many a man has a few hundred dollars to invest in something likely to bring better returns than he can get in the bank, and these shares are offered as being just what he needs.

Full particulars with reports, assays, etc., cheerfully given on application to
