CYCLONE AND RAIN HITS REGINA HARD

Terrifying Break In This Area of Drought - City In Darkness.

(Special to the Guardian)
REGINA, May 15.—Suddenly, savagely a raging cyclone and rain hit western Regina tonight, a terrifying break in this area of drought. Power lines were snapped. The city is in darkness. High tension wires impaled lives, and autos were smashed by falling power poles. Choking dust under a burning sun thermometer registering 90 degrees and over has been the fate of prairie Canada during these last few days of the merry month of May. Slowly, but inevitably the wave of wild weather has been moving eastward. It apparently has arrived at Port Arthur where the temperature yesterday was 84.

INDICTED FOR MURDER

(Canadian Press)
NEWBURYPORT, Mass., May 15.—Russell B. Noble, Haverhill high school student, was indicted today for the murder of Mrs. Clara E. Ellis, wealthy Haverhill widow, in Essex County. The Grand Jury returned three indictments against the youth, one charging murder, another charging assault and murder and a third with breaking and entering.

Will Not Seed Unless Wheat Goes to \$1.00 Bu.

(Special to the Guardian)
LIBERAL, Kansas, May 15.—Wheat growers in fourteen south-west Kansas counties and two in Oklahoma were represented today in a movement for dollar bushel wheat. Impetus to the drive which started two weeks ago at Minneola, Kansas, was imparted here last night at a meeting of 500 farmers who agreed not to seed their land next fall unless they receive \$1 a bushel for this year's crop before planting time. G. E. Rooney, leader in the movement at the meeting represented a total area of 200,000.

ARCHITECT CHOSEN FOR NEW HOSPITAL

Mr. James T. Govan, Toronto, Requested To Come to City To Confer With Committee.

At a meeting yesterday afternoon of the Building Committee for the proposed Prince Edward Island Hospital, James Govan, Toronto, registered architect, Member of the Royal Architectural Institute of Canada, Member of the Town Planning Institute, was chosen as architect to draw plans and specifications for the new hospital. Mr. Govan has a standing of more than twenty years as an architect in Ontario. In selecting Mr. Govan the Building Committee feels that it has carried out in full the promises made to the subscribers to the fund during the campaign last fall. Mr. Govan has been wired to come to Charlottetown immediately to consult with the committee. As soon as the plans are completed the work of construction will begin. Mr. Govan has been asked to deliver lectures to the annual meetings of the American Hospital Association, the Ontario Branch of American Societies of Heating and Ventilation Engineers, the Engineering Society of Manitoba University, the Engineering Society of the University of Toronto, the Architectural Association of the University of Toronto, the Extension Department of Toronto, the Halifax and St. John branch of the Engineering Institute of Canada. He has written special papers on heating and ventilation on

In Line With Prince's Policy

(Special to the Guardian)
TORONTO, Ont., May 15.—In line with the policy suggested by the Prince of Wales to British manufacturers to build inside the tariff walls of protectionist countries, York township is to have an enormous new spinning plant just outside the limits of the city of Toronto, which will employ 600 to 600 hands. The first move in this direction was made yesterday, when in the presence of a number of prominent men the first sod was turned in connection with the construction of a big plant by patrons and Baldwin manufacturers of world known yarns with head office located at Halifax, Yorkshire, England.

*Sale of cake at Moore & McLeod's starts at 2.30 today.

BEAVERBROOK'S SECOND ATTACK ON THE L. OF N.

Contented India Can Never Be Achieved By What Is Called Strong Government.

(British United Press)
LONDON, May 15.—Lord Beaverbrook returned to his attack on the League of Nations today in spite of the heavy denunciation of him which followed his first attack. His Daily Express declares that the road to Geneva is the road to war and that the road from Geneva is the road to peace. He accuses the League of being under the domination of France and a "mere branch of the French Foreign Office," and says that the three great achievements of the League have been to curb and reduce the influence of Britain to

(Continued on page 7)

INDIA WILL NOT BE RULED WITH IRON HAND

(Canadian Press)
LONDON, May 15.—Lord Irwin, former Viceroy of India, said in an address today that the British Government no longer could rule India with a strong hand. Speaking to guests at a luncheon tendered him and Lady Irwin by the British India Union, he said: The National purpose of keeping a prosperous, willing and contented India can never be achieved by what is called strong government. Those who favor what is called the policy of a strong hand are exponents of an imperial philosophy, which appears to be out of date and out of harmony with present day facts. Lord Irwin said he believed if Mahatma Gandhi came to London for the second round table conference he will strain every nerve to secure an agreement determining a favorable status for Indians within the Empire.

Franco-Italian Negotiations Still Deadlocked

(British United Press)
PARIS, May 15.—Another "final effort" to prevent complete collapse of Franco-Italian negotiations for a naval limitations accord was made today when the Government submitted a new memorandum to Rome and London. The memorandum, prepared in great secrecy by Minister of Navy, Charles Dumont, was a 12-page document. It was sent through the Quai D'Orsay to the Capitals of Britain and Italy, where naval experts have started study of it.

It was believed in France that consideration of the new memorandum by Britain and Italy would require perhaps a week and might prevent discussion of the proposals by the Foreign Ministers of the three countries who are now at Geneva. Arthur Henderson, Aristide Briand and Dino Grandi were scheduled to discuss the naval deadlock at Geneva. The new memorandum provides a basis for new negotiations, it was said reliably, although the actual proposals were not believed to be new. It gives an objective expose of the difficulties which caused the present deadlock in negotiations for final drafting of the accord at London. Furthermore, the memorandum explains a means whereby it may be possible to settle the question of replacement of 65,000 tons of

Distant Mayors Make Visit

LORD MAYOR OF LIVERPOOL VISITS NEW YORK
Happy in his exoneration from charges of misfeasance, Mayor Jimmie Walker of New York is "sitting on top of the world once more" and here is seen welcoming to his hallwick Edwin Thompson, lord mayor of Liverpool, England, resplendent in his traditional robes of office.

Business Men Of Industrial Centre Pass Resolution

Action Taken At Close of Address by Burnaby—Firms Get Results.

WINDSOR, Ont., May 15.—"We cannot be expected to bear up our end in building a nation unless we can sell our products," declared R. W. E. Burnaby, Trade Commissioner for the Maritime Provinces, addressing the weekly luncheon of the Border Chamber of Commerce today.

MR. ALEXANDER CAMPBELL, OF GRAHAM'S ROAD DIES AT PORTLAND, OREGON
(Special to the Guardian)
SUMMERSIDE, May 15.—Mr. Thane A. Campbell, Attorney-General, received word this evening of the death today in Portland, Oregon, of his father, Mr. Alexander Campbell. No further particulars were received. The late Mr. Campbell was born in Graham's Road, P. E. I., son of the late James Campbell, who came to the Island from Scotland. In his younger days Mr. Campbell was a well known teacher and educationalist. He came to Summerside over fifty years ago and engaged in business with Mr. Allan McKinnon. He was head of the P. E. Island Agricultural Insurance Company. Mr. Campbell was 81 years of age. He was one of Summerside's outstanding citizens taking a keen interest in the life of the community. He was noted for his integrity and sound business ability. For many years he was agent for the Steamship Lines of Canada; Magistrate of the Peace; also a leader in the cause of temperance. An Elder in the United Church, he took a great interest in church work. There are left to mourn besides his widow, formerly Miss Muttart of Cape Traverse, two sons, Thane A., Attorney-General, Summerside, and J. O. Clair of Charlottetown, also a brother, William, of Graham's Road, to whom the Guardian extends its sincere sympathy.

Expression of an honest belief in the principle of inter-provincial trade, with the largest possible development of such trade to the mutual benefit of every province; endorsement of the idea of a good-will tour of Central Canada business men to the Maritimes at as early a date as possible and expression of heartfelt good-will and the highest regard for the sister Eastern provinces were embodied in a resolution passed a meeting of the Border Cities Chamber of Commerce today.

Ruth Nichols Is Honored

(Canadian Press)
NEW YORK, N. Y., May 15.—Ruth Nichols, who is planning a solo flight to Paris, received official recognition today from the National Aeronautic Association as holder of the world's speed record for women. Flying at Detroit, April 13, in the monoplane in which she will attempt to fly across the Atlantic, she attained a speed of 210 miles an hour. The previous record, 181 miles an hour, was held by Amelia Earhart. She is being honored by the Aeronautic Association, as demanded by France, without a breakdown of the entire scheme for an accord between France and Italy, with Britain participating.

PREPARING TO WELCOME NEW BISHOP

Plans For Reception And Installation of Rt. Rev. Bishop O'Sullivan Now Nearing Completion.

Plans are now almost completed for the reception and installation in St. Dunstan's Basilica on Monday evening of the Right Reverend Joseph A. O'Sullivan, recently consecrated at Hamilton, Ont., as Bishop of Charlottetown.

His Lordship, who was appointed to the episcopal office last February, will arrive in Charlottetown on Monday at 6.30 p.m., when he will be met at the railway station by the Catholic clergy and members of the local congregations.

He will proceed at once to the Bishop's Palace, and thence to St. Dunstan's Basilica, where the solemn ceremony of installation will take place.

His Grace Archbishop O'Donnell of Halifax, will officiate at the ceremony.

Among those present will be Bishop Morrison of Antigonish, Bishop LeBlanc of St. John, Bishop McNally of Hamilton, Bishop Gagnon of Sherbrooke, and other prominent members of the clergy.

Following the ceremony an address from the Catholic clergy of the Province will be read to Bishop O'Sullivan at the Palace. There will also be an address of welcome from the City Council, the Catholic laity and other bodies.

Bishop O'Sullivan will celebrate Pontifical High Mass in the Basilica at 10 o'clock Tuesday morning.

The sermon will be preached by His Grace Archbishop O'Donnell. Tuesday at 1.30 p.m. an official dinner will be tendered to the Bishop and clergy at the Canadian National Hotel by the congregation of St. Dunstan's.

House Unanimous On War Question

(Canadian Press)
OTTAWA, Ont., May 15.—The House of Commons with one accord today took another step towards abolishing war. It passed without division the resolution submitted by Premier R. B. Bennett approving of the accession of Canada to chapters one, two, three and four of the General Act framed by the League of Nations in 1928. This act provides for the pacific settlement by arbitration of international disputes not justifiable by the world court. The five reservations to the act, decided upon by nations of the British Empire, were explained by Mr. Bennett.

The very nature of democracies were opposed to the maintenance of militarism, he declared, explaining that he did not propose to discuss the desirability of international peace generally. Approval of this resolution and acceptance of arbitration as the means of settling disputes cleared the way, said Hon. Ernest Lapointe, former Minister of Justice, for the great meeting next February for the disarmament of the world. He heartily supported the resolution. Henri Bourassa, Ind., La-belle, also endorsed the resolution, although he thought some of the reservations could just as well have been dispensed with. In regard to the reservation that disputes between nations of the British Empire, which are members of the League of Nations shall be settled in a manner the British nations shall decide upon, was proper and a tribunal within the Empire should be established to hear such disputes.

Sounds Warning

POPE PIUS
His Holiness in forthcoming encyclical, gives remedies for world's economic and social evils.

EMERGENCY TARIFFS PROMISED

Stanley Baldwin, Conservative Leader Makes Statement In Address At Albert Hall.

(Canadian Press)
LONDON, May 15.—Rt. Hon. Stanley Baldwin, leader of the Conservatives, told an audience of more than 5,000 women in Albert Hall today that his party intended to adopt an emergency tariff as soon as it returned to power. In an address to delegates from many parts of the country attending the conference of the Unionist party women's organizations, he declared: The time is gone when we can leave our country open and free for the dumping of goods produced under inferior conditions from foreign countries or as a surplus of mass production from any country in the world. Such a tariff, he said, is the only measure by which our people can enjoy equal conditions of competition with the world.

To Make Survey Of School System

(Canadian Press)
ST. JOHN, N. B., May 15.—What was probably the last major act of the Baxter Government was the appointment of a commission to make a survey and investigation of the school system of New Brunswick, at a meeting of the Cabinet held here tonight. The commission, which is headed by Dr. A. S. McFarlane, of Fredericton, N. B., Chief Superintendent of Education, will consist of the Presidents of the University of New Brunswick, Mount Allison and St. Joseph, together with sixteen prominent men and women representative of various sections of the province.

Effort Made To Stop Title Bout

CLEVELAND, Ohio, May 15.—A petition to stop the Max-Schmeling-Young Stribling heavyweight championship bout here July was filed in Appellate Court here today in the name of David Fischer, an insurance agent. Contending that the title match would be a prize fight and that prize fighting is illegal in Ohio, the petition described the proposed battle as a "public nuisance" and as an event which would attract a "dangerous and violent assemblage."

SUMMARY OF THE POPES ENCYCLICAL

Pronounces Principle For Reconstruction of World's Entire Economic System.

(British United Press)
VATICAN CITY, May 15.—Pope Pius XI pronounced today a principle for reconstruction of the world's entire economic system to achieve a more equitable distribution of wealth between capital and labor.

"It is absolutely necessary to reconstruct the whole economic system by bringing it back to the requirements of social justice, so as to ensure more equitable distribution of the united profits of capital and labor," said a summary of the Pope's forthcoming encyclical on labor, the most significant church declaration on social conditions since the famous encyclical on labor, by Leo XIII. The Pope said the teachings of Communism never could be reconciled with the doctrines of the Church and that "it is not possible to be simultaneously a good Catholic and a true Socialist." Furthermore, he reaffirmed the Catholic doctrine concerning the right of property, individual and social, and denounced individualism and collectivism as "egotistic and pernicious."

N. S. Premier Addresses Tech. Graduates

(Canadian Press)
HALIFAX, N. S., May 15.—The advice of Premier G. S. Harrington of twenty-one graduates of Nova Scotia Technical College today, was to "pay less attention to theoretical economy than to actual underlying conditions" in dealing with the present day situation, and to retain their ability to play. Relaxation was necessary to maintain a high standard of living and efficiency, he said. Dr. F. H. Sexton, principal of the college, presented the degrees at today's convocation. The graduates numbered ten in electrical engineering, four in mechanical engineering, four in mining, and three in the civil engineering branch.

The Weather, Etc.

SOME GUYS SLEEP 'TIL NOON CAUSE THEY DON'T WANT TO BE IDLE ALL DAY!

Westerly winds, fair, a little higher temperature.

Temperatures
