CAPITOL SUMMERSIDE

Club Discusses Encyclical On Communism

Denies Charge

At a recent meeting of St. Ann's Study Club, Hope River, the subject discussed was the encyclical on Communism. The discussion of the Encyclical of Pope Pius XI, was led by Mr. Thomas McAvinn, B. A. teacher of St. Ann's School.

Mr. McAvinn in a carefully prepared paper exposed the teachings of Communism as defined by Our Holy Father. Starting with a concise definition of Communism, the leader traced the movement from its beginning to the present day. The evils arising from the spread of such a doctrine are most detrimental to the welfare of humanity, said Mr. McAvinn. He warned his hearers that although there seems to be little trace of such teachings in our midst, yet, the threat is always hanging over us and we must acquaint ourselves with Communism to be able to detect its beginning.

The apostles of this diabolical movement have not appeared publicly in our midst, yet, we cannot be sure they are not working secretly amongst us. One has only to see in public places news publications from Moscow to be convinced that the Communists are not altogether forgotten us. Mr. McAvinn advised the young people to thoroughly acquaint themselves with the Encyclical of Our Holy Father on this subject to prepare themselves to meet the enemy of our civilization. Communism has taken a heavy toll of the youth in other countries, and we have no assurance that our community will remain immune from this evil.

The president of the Study Club, Mr. Alexis Murphy, invited the members to discuss the excellent paper they had just listened to. The members freely expressed their pleasure of hearing a subject of such vital importance explained. The time did not permit for further discussion of this subject and it was decided to continue it at the next meeting to be held at the home of Mr. John J. MacGuigan.

The president, Mr. Murphy, thanked Father Dalton, P. P. to assume the lead in the continued discussion of Mr. McAvinn's paper. Thus closed one of the most instructive meetings the club has yet held.

VELVET SKIN

Blackheads cause a great deal of distress, and require immediate attention.

They are brought about by certain glands supplying too much oil, which gets clogged in the pores and prevents the free breathing in the normal way.

This oil hardens then forms the blackhead. A diet of fresh fruit and plenty of vegetables is necessary to cleanse the blood. Tea and coffee should also be avoided as such possible and quantities of cold water taken.

After a daily warm bath and cold sponge-down, rub the whole body vigorously with a rough towel until every limb is tingling. If the blackheads are inflamed or open apply a little antiseptic powder, and you'll regain a clear complexion and soft velvety skin.

Penalties - Jardine.

Scoring - Second Period

Penalties - Profitt.

Third Period

5 - Summerside - Bernard 4:01.

6 - Summerside - Bernard - 5:00.

7 - Willett - 10:03.

8 - Summerside - Ellis (B. Willett) - 16:30.

9 - Summerside - B. Willett (Ellis) - 17:21.

Penalties - Jardine (2), Kennedy.

Referees - W. Wood, Miller, Waite.

Common Sense About Constipation

If you knew that your constipation was caused by something left out of your food, wouldn't it be just common sense to put that something back?

Your trouble may be caused by nothing more than this. For the most common kind of constipation is due to lack of "bulk" in the bowels; you need some food that passes on through the stomach without being digested.

Kellogg's All-Bran supplies this. It gives the bowel the bulky mass they need to work properly. And All-Bran also gives them the intestinal-ionic vitamin B, which helps restore their tone.

Eat All-Bran as a cereal or baked in muffins. But however you eat it, be sure you get some every day. And drink plenty of water. All-Bran is made by Kellogg in London, Ont. Sold by every grocer.

Summary

First Period

1 - Summerside G. Bernard 8:02.

2 - Summerside - Willett (Moore) 9:06.

3 - Kensington - Mills (Kennedy) 10:00.

4 - Kensington - Jardine, 14:07.

Dies Suddenly In New York

Stresses Need Fixed Standard Of Grading

(By Carl Reinke, Canadian Press Staff Writer)

HALIFAX, Feb. 7—Canada cannot expect to compete successfully in the markets of the world with her natural products until they are graded according to fixed standards. F. W. Walsh, Nova Scotia director of Marketing, told the Royal Commission today as he urged Dominion control over marketing.

Grading was essentially a central responsibility when a large proportion of products went into the export market, he contended. Ten separate governments, provincial and Dominion, could not set up effective grading.

The main marketing market for lumber from the Maritime Provinces was the lack of grading, especially when Sweden, Finland and Russia all had graded standards, he said.

Mr. Walsh said that the provinces graded their fish, although other export nations did. Packed fish were graded between the provinces, but the grades disappeared after that, he claimed.

From the audience, A. H. Whitman, member of one of the country's oldest trading firms, objected with some heat he denied any suggestion that the provinces be "rubbed off" by him.

Agriculture Minister J. A. Donald stated there was no overlapping of the task of the provincial agriculture departments, except in some minor details.

This condition had been achieved in recent years by the Nova Scotia joint committee on agriculture, composed of both provincial and federal officials, divided into sub-committees on various phases of the work.

Gasoline Tax

E. S. Campbell, registrar of vehicles, who collected the tax by the method of collecting the provincial eight-cent gasoline tax, for which they were paid, and the tax was included on the invoice to the buyer in our province, he said.

"Isn't that getting close to indirect taxation?" asked Mr. Rowell.

"That's a question I wouldn't like to answer," Mr. Campbell said, amid some amusement.

The provincial tax was mainly occupied with hearing department ministers describe the work of their departments. During the discussions, news that companies in other countries, and we have no assurance that our community will remain immune from this evil.

The president of the Study Club, Mr. Alexis Murphy, invited the members to discuss the excellent paper they had just listened to. The members freely expressed their pleasure of hearing a subject of such vital importance explained. The time did not permit for further discussion of this subject and it was decided to continue it at the next meeting to be held at the home of Mr. John J. MacGuigan.

The president, Mr. Murphy, thanked Father Dalton, P. P. to assume the lead in the continued discussion of Mr. McAvinn's paper. Thus closed one of the most instructive meetings the club has yet held.

Manitoba Wage Tax Lightened

WINNIPEG, Feb. 7 (CP)—The taxation burden on Manitoba wage earners will be lightened by proposals read in the Manitoba Legislature today when Hon. Stuart Garson, Provincial Treasurer, brought in his budget for the next fiscal year.

The budget, for 1936-37 fiscal year beginning April 30, calls for a decrease from two to one per cent in the wage tax, increase in the income tax on corporations and in the bank tax. It calls for additional expenditures under wage tax and expressed hope for increased revenues from other sources to bring receipts to \$15,120,325.66 for the year against estimated expenditures of \$15,110,417.

Despite an estimated loss of \$850,000 in the wage tax reduction, Mr. Garson's budget showed a surplus of \$51,908.

BRADALBANE RURAL SCHOOL

The following is report of half yearly exams:

Grade IX-1. Esla MacLeod; 2. Elmer Cousins.

Grade VIII-1. Mary MacLeod; 2. Edna Jones.

Grade VII-1. Caroly Delghan; 2. Edwin Abbott.

Grade VI-1. Eiland Cousins; 2. Edna Jones.

Grade II-1. Edna Jones; 2. Lorna Flood.

Grade I-1. Edna Jones; 2. Lorna Flood.

Perfect attendance for half year: Mary MacLeod.

M. E. Ford, Teacher.

Canadian Fascists Demand Inquiry

(C. P. by Guardian's Special Wire)

MONTREAL, Feb. 7—Canadian Fascists have sent to Prime Minister Mackenzie King, the Minister of Justice, and the President of the House of Commons, a letter demanding an appointment of a Royal Commission to investigate into "constantly repeated" charges of political corruption.

In a letter made public today by Adrian Arcand, head of the Quebec Fascists, the Government was asked to appoint the commission to investigate what the Fascists claim are "good grounds to believe" there is really political corruption, bribery, raptine, fraud, bribery, racketeering and scheming all political, of which the Treasury, the people and certain persons have to bear the costly consequences.

The letter, signed by Arcand and sent Saturday to Ottawa, said Liberal leaders in 1930, and conservative leaders in 1933, had claimed "electoral corruption in its most abject form is practised in this country."

Therefore, the Canadian Fascists demand of you in pressing terms the immediate institution of a Royal Inquiry.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go!

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, till it blows up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, and the world looks puny.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of catalysts but have no catalyst or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

HOUSE CHEERS

(Continued from page 1)

Prime Minister Chamberlain and Mr. Duce paved the way last summer for friendship talks in an exchange of personal messages. The outbreak of Mediterranean piracy due to the Spanish war and Italian intervention on the insurgent side, however, proved a stumbling block.

STRINGENT PROTESTS

Mr. Eden told the House of the stringent protests made by the Spanish Insurgents over the attack on British shipping.

Although he said the planes recently bombing Spanish Government cities were Italian types, he said the Spanish combatants and their outside helpers—must take full responsibility.

Official information, Mr. Eden said, failed to confirm reports Italy planned to send new troops to Spain.

The Foreign Secretary declined to give a direct answer to questions concerning the reported Italian gift to the Insurgents of the submarines that sank the British Freighter Endymion.

ROGERS BACKS

(Continued from page 1)

Mr. Bennett is on the action if he (MacKay) wants one," retorted Mr. Bennett.

To hold his position at Dalhousie University, MacKay had to forewarn parliament. Mr. Bennett stated, MacKay had never made a political speech or appeared on a political platform.

Mr. Bennett had used a brief Mr. Rogers had prepared for a Nova Scotia Commission as the basis of a charge that he had advocated the abolition of the tariff.

"My answer is I did not advocate the abolition of the tariff either in my submission to the Commission or at any other time," declared Mr. Rogers. There was nothing in the brief to justify Mr. Bennett's charge. He doubted if the Conservative leader had even read from end to end the brief from which he quoted.

Dealing with tariff principles, Mr. Rogers said it should be used in a federal state like Canada "with due regard to its effect upon the maintenance of national unity."

"Where you have a situation such as exists in Australia and Canada where secondary industries are largely concentrated in the provinces and where primary and export industries are largely concentrated in other provinces, you cannot move to extremes in tariff policy without endangering national unity and without undermining the foundations of federal public finance," he said.

Whatever might have been possible in the past, a protective tariff could not be abandoned today without disrupting Confederation, Mr. Rogers said.

"But while we retain a tariff system I submit we should keep in mind there are seven provinces in this Dominion whose income is largely supplied—in some provinces almost exclusively—by primary and export industries. We must be willing to study the unequal incidence of the tariff and be prepared to apply such compensating adjustments as may be practicable."

Indicating a healthier national outlook, Mr. Rogers said the number of Canadians receiving unemployment or agricultural aid decreased 20.3 per cent between October 1936 and October 1937. Preliminary figures for November indicated a decrease of 40 per cent.

The decrease of non-agricultural receiving assistance between October 1936 and October 1937, was 36.7 per cent. Apart from Saskatchewan the decrease in agricultural aid was 71.3 per cent but the inclusion of that province made it a net increase of 22.4 per cent.

Reflecting some of the conditions, the number of Saskatchewan farmers receiving assistance increased 95.3 per cent.

John R. MacNeil (Cons., Toronto) retorted that a statement of a Canadian department of industry which would concentrate on developing new industries. He said the British Government had a similar department and so had various other countries.

The Toronto Conservative said when he was in the United Kingdom last summer there was talk of a similar department in Canada. He said the British Government had a similar department and so had various other countries.

Chief of the Fertilizer Division of the Seed Branch reminds prospective buyers that many kinds of fertilizers are offered. A leaflet dealing with this may also be obtained from the Publicity and Extension Branch.

When choosing from the manufacturer's lists, many farmers take advantage of recommendations made by the Fertilizer Councils of Ontario, Quebec and the Maritime Provinces. These Councils are composed of Provincial Agricultural Societies. These Councils are respected of the authorities on fertilizers, so that their recommendations regarding suitable fertilizers for the different crops and soils may be accepted with confidence.

BRIGHTER DOOR KNOCKERS

If the front door has a brass knocker and letter-box, with a few pennyworth of cast varnish and paint the brass work with this after the next cleaning. It will stay bright without polishing for a very long time.
