FITTED LACE TREATMENTS MARK SMART SUMMER UNDIES

By Marie Belmont

The use of fitted lace treatments marks a number of the more expensive Summer undergarments. Often this smart use of lace also fills a very practical need, for in this way one garment is made to substitute for two. As an example the combination above has a fitted brassiere top, which does away with any need for a separate brassiere. The material is cream batiste, and the lace is cream tulle. Another effective use of lace is seen in separate panties, with a shaped lace yoke about the hips.
