SEEK TO MULTIPLY HOME IN FRANCE

Paris, Sept. 1.—Eugene Brioux, member of the Academy of France, with a view to encouraging marriage after the war for the purpose of multiplying French homes, urges today the establishment throughout France of official matrimonial bureaus under the direction of the mayors of towns and villages. He says: "Many young men are willing to marry young girls and many young girls are willing to marry poor or mutilated men, but the marriages do not occur because the men and girls do not meet. Special registers should be kept at all mayors' offices where eligible young people sign their name give their age and profession, so that anyone desiring to marry can find a life companion without difficulty."

"We agree today that the presentation of the race is the greatest and most sacred duty, it is necessary to give all help to those inclined to build new homes." Extend Legal Delays. An extension of legal delays before re-marriage for widows of soldiers is being considered in order to avoid further cases of involuntary bigamy. Some legal circles advocate an extension of the legal delays until after the war for widows mobilized soldiers. Many soldiers who have been reported as "being dead," because they had not been heard of for a long time, have since reported as returned from Germany.

GET RID OF HUMORS AND AVOID SICKNESS

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions, and are responsible for the readiness with which many people contract disease. For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. Get Hood's. No other medicine acts like it.

Strategic Movements

(Canadian Press Despatch.) PETROGRAD, Sept. 6.—(London Daily Telegraph.)—The strategy of General Brusiloff's grand offensive is based upon the principle of a suspension of the attack as soon as it began to meet a really serious resistance, and of a rapid concentration for a thrust in a fresh direction. New movements begin along the whole front so as to leave the opponent in uncertainty as to the point of real danger, and the Germans dare not stiffen their line in one sector at the expense of another. Profound secrecy is essential. Brusiloff alone knows what the plans really are.

TO ELIMINATE TURKS

NEW YORK, Sept. 7.—According to a New York agency despatch from London published here to-day, Russia is to settle the eastern question by eliminating Turkey, and Bulgaria entirely from the war, obtaining for the use of Russian troops either the Bulgarian Black Sea port of Varna or Constantinople itself, and using it as a base for the cruising of Germany and Austria.

A new strong Russian army is taking the field with special mission, says the correspondent of the morning Post at Petrograd. When the army has gained one of these ports as a base of supply, Russia will be able to strike the Turks with fifty per cent more power he says.

When the workers of the city started for their places of employment to-day, the amalgamated association of street and electric railway employees, which is conducting the strike, had been unable to tie up the subway and elevated lines, but had succeeded in crippling some of the most important surface lines. With the aid of nearly 3,000 strike breakers and under police protection, the Interborough Rapid Transit Company was running its trains on subway and "L" almost on normal schedules. The strike of the interborough employees has spread, however, to the carmen of the New York Railways Company which operates all but two of the important surface lines in the borough of Manhattan and the Bronx lines in Brooklyn in the system of the Brooklyn Rapid Transit Company, are thus far at peace.

BRITISH ARMY SATISFIED

(Canadian Press Despatch.) With the British army in France, Sept. 5.—(Via London, Sept. 7.)—The British feel that their uphill work in this latest offensive is over with the exception of the taking of Ghinchy. For over two months now their fight has been one to gain high ground over the broad commanding front. Guillemont placed in possession of the last of the old second line trenches and from the Somme to Thiépval, the Germans have now been blasted out of their old positions.

WOULD SUFFER PLAQUE TO SAVE THE BABIES

NEW YORK, Sept. 1.—Miss Theodora Booth, daughter of General Balfour Booth, is willing that New York scientists should inoculate her with infantile paralysis virus and that she should pass through every stage of the disease under their care if her sacrifice will aid in the battle against the great plague. Her unusual offer, made first in a personal letter to the editor of the Tribune, was reaffirmed yesterday at her father's home in Blue Point, Long Island. She had just returned from a sail on Great South Bay, and her bright blue eyes, her deeply tanned cheeks and sunny smile made her a glorious picture of youth and happiness.

There was nothing of boastfulness in her frank proposal to submit herself to paralysis inoculation. Her offer came after she had observed the ravages of the plague close at hand, and is founded on her belief that her athletic body, reinforced by the close care of the scientists to whom she would submit herself, would prevent any serious results that the disease otherwise might have. Anxious as she is to be inoculated with the paralysis virus, it is probable that New York scientists and physicians will hesitate a long while before availing themselves of her proposal.

"I consider Miss Booth's offer a magnificent example of enthusiasm and self-sacrifice," Dr. Abraham Zingher, who is doing the blood serum work among the infantile paralysis victims at the Willard Parker Hospital, declared. "But personally I would be the last man in this city to take advantage of her heroism. We could probably communicate the disease to her, but we are by no means certain that we could control it after it had once developed. Treatment of infantile paralysis is still at such an uncertain stage that it would be nothing less than criminal to transmit the germs to a human being for scientific purposes."

MARY PICKFORD IN OVERPOWERING AND TYPICAL CHARACTERIZATION, AS "RAGS."

In "Rags," the great story of a girl's rise from the lowest strata of life to a position of social importance, through which she finds it possible to marry the man of her choice whom before she thought too far above her, Mary Pickford, for whom the story was especially written by the noted novelist, Edith Barnard Delno finds a typically effective characterization. This original photoplay is the latest production of the Famous Players Film Co. on the Paramount program, starting the world-beloved "Little Mary" which will be seen for the first time in Charlottetown at the Prince Edward, Monday and Tuesday September 11th and 12th. There is substantial material in "Rags" on which to build one of those great photoplays in which the Famous Players have always succeeded in presenting their most popular stars. There is melodrama in some parts of the story, refined by a touch of delicacy inseparable from all Miss Pickford's impersonations. "Little Mary" herself is the crowning glory of the subject and the manner in which she illustrates her emergence from the sordid world into which her father's drunkenness places her, is worthy of the art of a Bernhardt. Her portrayal of "Rags" becomes more than the display of a winsome personality, but as the story advances to tense climaxes and grows in dramatic interest, Miss Pickford transforms herself from a charming little character of mood, and whims into an actress of true power and efficiency.

"Rags" provides Miss Pickford with a part of large emotional possibilities, in many ways reminiscent of "Tess of the Storm Country" and her more recent triumph, "The Dawn of a Tomorrow," and she acts as she did in both these glorious successes, with force and sincerity. In fact, these two subjects and "Rags" will probably be recorded as Miss Pickford's great trinity of triumphs.

Big Street Car Strike in New York

(Canadian Press Despatch.) NEW YORK, Sept. 7.—A million or more residents of New York left their homes this morning not knowing whether they would ride to work or walk. The first test of the strike declared last night by the union employees of the elevated and subway railways came with the morning rush hours on these main arteries of travel between the two ends of Manhattan Island.

If the carmen can carry out their threats to have surface as well as subway and elevated traffic, New York faces the biggest and most vital strike in its history. The geographical formation of Manhattan Island—long and narrow—the wide distribution of population of the greater city and concentration of street car traffic.

When the workers of the city started for their places of employment to-day, the amalgamated association of street and electric railway employees, which is conducting the strike, had been unable to tie up the subway and elevated lines, but had succeeded in crippling some of the most important surface lines. With the aid of nearly 3,000 strike breakers and under police protection, the Interborough Rapid Transit Company was running its trains on subway and "L" almost on normal schedules. The strike of the interborough employees has spread, however, to the carmen of the New York Railways Company which operates all but two of the important surface lines in the borough of Manhattan and the Bronx lines in Brooklyn in the system of the Brooklyn Rapid Transit Company, are thus far at peace.

SAYS TWO GERMAN CRUISERS WERE RAISED

(Canadian Press Despatch.) SAN FRANCISCO, Cal., Sept. 7.—The German Admiralty has raised the battle cruiser Luetzow and the cruiser Rostock, both sunk after the battle of Jutland, according to Mrs. E. A. Voretzich of Hamburg, wife of a German official in the Orient, who arrived here yesterday from Hamburg. Mrs. Voretzich said that she saw both vessels in the ship yard, where they were being repaired. They were seriously damaged, she said, by British guns and sank while being towed to the German naval base.

IN MEMORIAM

IN LOVING MEMORY OF JOHN McISAAC. A gloom was spread over the vicinity of Wood Islands on the eve of Friday Aug. 4th when Mr. John McIsaac of that place passed peacefully away at his home at the age of 67 years. Deceased was a man of sterling character; honest, upright, and kind, he was well liked by all acquainted with him. The funeral which took place on Sunday August 6th, and which was very largely attended went to show the very high esteem in which he was held by the community. Services, both at the house and grave by the Rev. John Gillis, of Wood Islands. Deceased leaves a sorrowing widow and three brothers to mourn the loss of a kind and loving husband and affectionate brother.

ELIZABETH DUCHEMIN.

There entered into rest at Charlottetown on Sept. 4th, after a prolonged illness, Jessie Carrier, the beloved wife of Ernest Duchemin. For many years she was a faithful and devoted member of Grace Methodist Church and choir; a consistent and unassuming Christian, and an untiring worker both in the Church and Sabbath school so long as her health permitted. With such devoted service we cannot help but associate the Master's words: "Whoever loves me will keep his commandments and give these most or thirsty and gave three drinks." Inasmuch as ye did it unto the least of these my brethren ye did it unto me." She leaves to mourn her loss and cherish her memory a sorrowing husband and two young daughters; also two sisters, Miss Lena Carrier of Charlottetown and Mrs. C. Nunn of Winslow, and five brothers, George Carter of N. Y., Charles of Winslow, and Isaac Benjamin, and James of Charlottetown. The deepest sympathy of a host of devoted friends goes out to the bereaved family and relatives in their great loss.
