Active Session On New York Stock Market

(By Frank MacMillen)
(Associated Press Financial Writer)
(A.P. By Guardian's Special Wire)

NEW YORK, Nov. 1—Stocks hit the line hard today breaking through profit taking resistance of recent sessions for gains of 1 to 4 points in many of the leaders.

Many active shares, especially among the industrials, were at new highs, not alone for 1935, but since the 1929 bull market days. Alcohols, motors, farm equipments, communications shares and a variety of specialties were conspicuous on the up-side, but at least fractional improvement was the rule along a broad front.

A few soft spots cropped out, notably Auburn off nearly 5 points at 37 1-2, on the increased deficit shown for the third quarter, and Allied Chemical and Paramount First preferred, down around two points each. Taking the list as a whole, however aldvances outnumbered declines by some 3 to 1. The Associated Press average of 60 stocks made a new high since Sept. 12, 1931, up .5 of a point at 53.1. The 30 industrials at 72.9, and the 15 utilities at 41.7 were both at new tops for a year or more.

The bond market supported the upward move in equities with a somewhat slower but general advance. U. S. government obligations improved around 2-32 to 8-32 of a point. Low priced rail loans got the bulk of attention, but industrials and utilities were well taken.

In the stock exchange turnover expanded moderately over the previous session as prices advanced. Volume came to 2,042,630 shares. Statisticians noted that with today's trading the number of shares transferred thus far in 1935 nearly exceeded the total for the same period of last year.

Case was one of the widest gainers, up more than 4 points at 105 1-4, while others up 1 to around 3 included Schenley at 54 7-8, Interboro at 22 7-8, General Motors at 54 1-2, Chrysler at 86 1-4, Cerro de Pasco at 61 1-4, American Telephone at 145, Goodyear at 20 3-4.

Price changes in the Canadian list were of fractional scope. The distillery issues scored further gains, and improvement was recorded in Canadian industrial Alcohol "A" and "B", Distillers-Seagrams and Hiram Walker. Elsewhere gains were shown in Dome Mines, International Nickel, McIntyre-Porcupine, Hollinger and Dominion Stores. Canadian Pacific and Ford of Canada were lower.

Ability To See Comfortably

The object of a modern eye service is to enable patients to see comfortably. That means seeing without strain on the eyes. And also the avoidance of many bodily results of eye strain. That thought deserves the consideration of all who are not certain of the condition of their eyes.
