

MADE IN CANADA

Bread is the cheapest food known. Home bread baking reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body.

The Western Guardian

—IT PAYS to buy in this Province.

—W. K. McGOUGAN, Globe Fox Exchange, is Guardian agent in Summerside.

—THE MORNING DAILY Guardian can be obtained at Laferty's Tonsor's Parlor, Summerside.

—POTATOES.—Several loads of potatoes have been hauled to Cape Egmont and Maxville from there to be shipped across, farmers getting 75c per bushel at the shore.—M.

—CHEESE FACTORY.—It is understood that the cheese factory of Abram's Village has paid an excellent return to patrons for their milk this year. Price per hundred lbs. being in the vicinity of one dollar and half. A fuller statement will appear later.—M.

—SHIPPING.—The schooner Minnie J. Dicks, Capt. Dicks master, is now in port from Sydney, C. B., discharging a cargo of coal for Messrs. Joseph Reid & Co. The schooner, Ralph, Wray, master, has finished discharging a cargo of lumber for Messrs. R. T. Holman Ltd., who are now loading her with produce and hard coal for the return trip to Bouctouche.—H

—ACCIDENT.—A very painful accident happened to Mrs. Barnard, Summerside, on Sunday afternoon. While walking on the kitchen floor she accidentally stumbled and fell, fracturing a bone in her right leg. Mrs. Barnard lives on First St., with her son, Mr. Jesse Barnard, of the P. E. I. Ry., and although she is ninety-one years of age has been quite active and has been enjoying her usual health. The bone has been set and the lady is now resting as well as can be expected.—H

—MIRACULOUS ESCAPE AT KENSINGTON.—Last Saturday evening as No. 3 train was pulling out for Summerside, a man from district adjacent to Kensington, made a rush to board one of the cars. In the attempt he missed catching the grab rail, and was thrown sprawling on the station platform. Had he not been lucky enough to fall outward, a story as sad as the one of the fatal accident in October would have to be chronicled. The practice of boarding moving trains is entirely too prevalent, and steps should be taken to prohibit it. It is a stupid and criminal affair to attempt to get on a moving train, and those attempting it should be severely dealt with. It is so prevalent that the wonder is there are not more fatalities. On Monday night another man remained in the train at Kensington till it was well started on its way to Summerside, then rushed out and jumped off, falling heavily. As trains pull into Kensington station from Charlottetown it is a common sight to see a number of people crossing the track at Bowness Crossing, a short distance ahead of an incoming train. It is certain in the engineer's heart must be "up" in his mouth at times.—K

—TWO CENTS per word each insertion for advertising in this column. Cash must accompany order. Minimum charge twenty-five cents.

—FOXES AT LARGE.—A pair of black foxes belonging to the Acadia Black Fox Co. have recently made their escape from the ranch and though many efforts have been made to catch them, at latest reports they were still at large.—M.

—TRANSFERRED.—Mr. Samuel K. Todd, of the staff of the Canadian Bank of Commerce at Montague, has been transferred to one of the branches of the same bank at Montreal. He crossed by the Northumberland on Monday morning for his new place of labor.—H

—ACQUISITIONS TO KENSINGTON.—Two retired farmers, Messrs. John Doughart, of Kensington, (Malpeque Road), and William Toombs, of Long River, have purchased residences and moved into Kensington. Mr. Toombs still retains "Happy George," the popular race horse.—K

—ASSUMPTION SOCIETY.—The regular meeting of the Assumption Society of Egmont Bay was held in the C. M. B. A. Hall on Sunday afternoon. In the absence of President and Vice-President the chair was occupied by Mr. J. H. Leblanc, Organizer of the Society who has been touring the Island during the past few months. Mr. Leblanc addressed his hearers in eloquent words. He was glad to say that his campaign during the week had been very successful. He had secured about twelve new members with the promise of several more. As President Mr. Leblanc then conducted the meeting in an able manner, the officers for the coming year being nominated. After a few good remarks in the interest of the Association meeting adjourned. Dr. Delaney was present to examine candidates intending to enter the Society.—M.

—LECTURE.—Mr. M. H. Coughlan, B.S.A. District Representative for King's County, delivered a lecture on Co-operation under the auspices of the Pupils Progress Club of Summerside School, on Friday evening, the 10th inst. He showed how the produce in older times sold direct to the consumer. But when capital began to be used in large quantities in manufacturing, the employees of the factories, the consumer, the farmer and producer drifted apart. Hence arose the conditions, have been the chief controlling factor in the prices of farm products ever since. Co-operation was tried, to organize agriculturists and to bring producer and consumer nearer together. He briefly traced the history of co-operation in all the European nations, laying particular stress on what it did for Denmark. From here he led his hearers to Western America and showed the benefit co-operation had been to the fruit and grain growers of the Great West. Coming nearer home, he gave a detailed account of the growth and success of the United Fruit Growers of Annapolis Valley. He then made special references when the farmers of P. E. Island had benefited by it, and quoted figures to show them what they were losing this fall by not being united. Agents from produce firms in New York are paying dealers 75 to 85 cents per bus. for potatoes, which were bought at from 60 to 65 cents per bus. The estimated potato crop of P. E. Island is 6,200,000 bus. of which 3,100,000 bus. will be sold, losing 15 cents per bus. The farmers of P. E. Island stand to lose the sum of \$65,000. He closed by showing the urgent need of co-operation at the present time, stating for reasons.—1. The certainty of dear money after the war. 2. The installation of better shipping facilities, the farmer's chance to load cars and ship them direct to the large markets. 3. The inevitable slump when quality alone will count. After a few complimentary remarks by Rev. Father, McGuigan, and Inspector Adams, the meeting closed by tendering a hearty vote of thanks to the speaker, which was moved and seconded by members of Pupils Progress Club of School.

—AUTO QUESTION AT KENSINGTON.—Nervous tension is high over the auto question at Kensington. A big majority of the citizens have signed a petition asking that autos be allowed to run according to the automobile act, i.e., three days a week. A meeting was called by the anti-auto association last week in the Temperance Hall at Kensington. The small hall was crowded with "anti" myrmidons from Bedouque, Wilmet and Long River, to the exclusion of most of the people of Kensington. A report was sent to the press of Summerside, viz., the Summerside Pioneer, stating that the people of Kensington and vicinity were practically unanimous against the use of motor vehicles, which is a misrepresentation, because, as a matter of fact, there was very few Kensington people in the audience (speaking comparatively). The discussion was biased, the speakers in favor of autos being interrupted, and curtailed on time, such absurd epithets as "Travelling Hells," "Juggernauts," and "Road Hogs" were applied to autos and their owners. One speaker even acquiesced to the statement that there were no gentlemen among auto-owners and drivers. Some speakers seemed to be obsessed with the notion that all farmers were opposed to autos, which is a big mistake. Some of the more rabid spirits among the "anti's" have been factless and arbitrary to the extent of making threats of "boycotting" certain tradesmen and merchants, who have the courage of their convictions, and say that the owners of autos have a right to traverse the highways of P. E. I. in their machines. Vile threats were made against the secretary of the Kensington Dairying Association, by some over-zealous partisans of the Anti-auto cult. Such absurd and arbitrary threats are the height of folly. The merchants and tradesmen will keep on solemnly "doing business" at the old stand,—commanding greater respect from the public for having the courage to do what they think is right, and a few disgruntled anti-autos, for personal aggrandizement will not find it an easy matter to oust from his position one who works zealously and well for the material welfare of the patrons of Kensington Cheese factory.—K

—Cures Catarrh, Bronchitis By Swift, Certain Method
Thousands of drug funds have been started on their downward course through Catarrh snuffs containing some habit forming drug. If you suffer from a cold, sneezing or catarrh—don't use a snuff—use a sensible treatment like Catarrhoxone. It heals and soothes, brings relief at once, cures thoroughly. In Bronchitis or throat trouble no doctor can do better than prescribe Catarrhoxone. Try it—see what wonders it works—what power it possesses. Different from the old way—You inhale Catarrhoxone. Get the dollar outfit which includes inhaler and is guaranteed. Smaller size 50c, sample size 25c at all dealers.

Waterproofing Boots.
Put one pound tallow and half pound resin in a pot on the fire. When melted and mixed warm the boots (they should be dry and clean) and apply the hot stuff with a painter's brush, until leather will take up any more. If it is desired that the boots should take a polish, melt an ounce of wax with a teaspoon lamp black, and some day after the boots have been treated with tallow and resin, rub over them this wax in turpentine, but not before the fire. The exterior will then have a coat of wax alone and will shine like a mirror. (Tallow or any other grease becomes rancid and rots the stitching as well as the leather, but the resin gives it an antiseptic quality which preserves the whole.—Mabel Page, New Hampshire.

GOSSARD

Corsets and Brassieres

THE NEW LACED FRONT STYLES

When you are thinking about selecting Corsets come to our store and see the New Gossard Corsets. We have them to fit tall and short heavy figures. We also have a special line of Misses' and Junior Corsets in all sizes. They all lace in front.

The Doctor has an extensive outfit at his ranch in Southport. He has an Empire engine and meat grinder with which he grinds about 150 pounds of meat each day. The Doctor is highly educated, being a graduate of Columbia and Heidelberg, and is an all-around good fellow to "boot."—K

STEVENSON'S LETTERS

Collectors of memorabilia of Robert Louis Stevenson have had of late a number of opportunities to purchase rare material of interest to admirers of the great romantic. The following excerpt from the New York Tribune, contains news of another such opportunity, this time of particular value, to be offered at the galleries of the Anderson Auction company in New York.

A collection of nearly 300 autograph letters and drawings of Robert Louis Stevenson will be placed on exhibition at the Anderson galleries on Monday, February 7th, preliminary to their public sale on the afternoons of Wednesday and Thursday, February 16th and 17th.

These letters are consigned by Mrs. Salisbury Field, Stevenson's step-daughter, who inherited them from her mother, whose death occurred in California two years ago. When the first part of Stevenson's collection was offered for sale in November, 1914, Mrs. Katherine D. Osbourne claimed the ownership of 122 of the early letters by Stevenson, and these were withdrawn from the sale pending a judicial determination of the question. These letters have now been restored by the courts to Mrs. Field as the lawful owner, and will from the first lawful owner, and will be sold.

The sale will be of the highest interest to Stevenson collectors for the reason that the letters are those written by Stevenson when a boy, and later in his life to his father and mother, and are of the most intimate personal character, abounding in the most delightful literary criticism.

The first item in the catalogue is a baby letter, consisting of meaningless scrawls, with the signature "Smoutie," undoubtedly written with the assistance of his mother's hand which she records in his mother's hand which she entitles "Remarks for about one quarter of an hour by Mr. Smoutie," which was Stevenson's nickname in boyhood. The next item is a letter written by the boy's nurse, when he was six years of age, which he signed "Robert Lewis B. Stevenson" and this is believed to be the earliest known signature.

Following these come many letters and notes to his parents, and some curious pen and ink drawings. Part I. of the Stevenson collection, sold at the Anderson galleries in November, 1914, brought \$47,367; Part II. sold in January, 1915, brought \$19,127.95; a total of \$66,494.75.

Notable Fur Coat Values

"Why should a woman buy a fur coat now?" said the advertising man to the fur buyer.

"Because these coats I have here were bought when prices were away below present values; because we had choice then of the best skins in the market, because if I were buying to-day—the price would be 20 to 30 per cent higher."

"There's a bunch of good reasons" said the advertising man.

"More than that" said the fur man "I do not believe there is in P. E. I. as fine a range of fur coats as this one—I'd just like to have a chance to show how good this line is".

So there you are madam, Will you give us the chance to-day.

Muskkrat Coats \$50, \$69, \$80, \$95, \$110.

BE CAREFUL

In your choice of an ointment. An inferior ointment is worse than none at all, because it irritates and inflames, and sometimes even poisons the place it is intended to soothe and heal. In using Zam-Buk you take no risk, as its soothing, healing properties have been proved by thousands of users, and its purity is vouched for by the famous English Chemist, Mr. W. Lascelles Scott, who says:

"I have made an exhaustive analytical examination of Zam-Buk, and find it exclusively of vegetable origin, with none of the impure and irritating mineral drugs and animal fats found in ordinary ointments. The germ-destroying powers of Zam-Buk exceed those of carbolic acid, yet it does not inflame even the most sensitive skin. I have no hesitation in certifying the purity of Zam-Buk, and its value for skin diseases and injuries."

Zam-Buk is best for eczema, ulcers, running sores, old wounds, abscesses, blood-poisoning, boils, pimples, piles, cuts, burns, scalds and all skin injuries. 50c. box, 3 for \$1.25, all druggists or Zam-Buk Co., Toronto. Send 1c. stamp for postage on free trial box.
