## Belgians Alarmed By Fog Appearance Evacuate District

LEIGE, Belgium, Dec. 18.—The  
population of the Liege district today  
became highly alarmed at the  
appearance of a dense fog, fearing a  
recurrence of the recent mysterious  
epidemic which killed more than  
three persons.

Many families of Engis, Jemeppe,  
Auge and Seralux prepared to  
move from the valley to the neighboring  
heights, and those suffering  
from asthma or other respiratory affec-  
tions hurried especially to evacuate  
the lower places.

When disaster first overwhelmed  
the valley, killing both human beings  
and livestock, it was feared that  
buried stores of German war gas  
had been disturbed or that noxious  
fumes from industrial plants had  
permeated the thick mist and paral-  
yzed the respiratory organs of the  
victims.

Official statements in general  
blamed the heavy fog itself and  
weakened condition of the victims,  
but in many sources it was felt that  
this principally was to allay fear and  
the general opinion was that industrial  
fumes had done the damage.

Spurred by the reappearance of  
danger, the Government today rushed  
the appointment of a special  
commission which had been decided  
upon at Monday's Cabinet meeting.

This body will include physicians,  
chemists, engineers, hygienists and  
meteorologists, and will centralize all  
observations of the past, present and  
future, thus enabling the Govern-  
ment to make definite conclusions  
and suggest appropriate legislation  
for protecting persons who live in  
great industrial areas.

One reason for today's fear is the  
fact that many persons have not re-  
covered from the previous attack. At  
Engis alone nearly 100 persons still  
are under medical attention.

### FIVE HUNDRED COMMUNISTS ARE KILLED

### Chinese Govt. Aviators Bomb "Reds" In Northern Hunan Province.

(Special to the Guardian)  
SHANGHAI, Dec. 18.—Nationalist  
Government military aviators in the  
twenty-four hour period ending at  
11 o'clock tonight killed 500 Com-  
munists in northern Hunan Province  
by dropping bombs. The bombing  
took place in the area in which the  
"Reds" recently slew hundreds in  
capturing three cities. Despite the  
attack the "Reds" continued their  
depression. "Red" cannoners along  
the Yangtze River continued to  
menace shipping.

### Is Officially Canadian High Commissioner

(Canadian Press)  
OTTAWA, Ont., Dec. 18.—Hon. G.  
Howard Ferguson is officially Cana-  
dian High Commissioner in London.  
In the historic chamber of the Privy  
Council where Cabinets have pre-  
sented in discussion of national af-  
fairs as far back as the days of Sir  
John A. MacDonald, and surrounded  
by Hon. R. B. Bennett, Prime Min-  
ister and members of his Cabinet,  
Mr. Ferguson took his oath of office  
shortly after noon today. Two oaths  
were administered, those of office  
and of allegiance similar to those  
taken by new Cabinet Ministers.

### Australian Loan Fully Subscribed

(Special to the Guardian)  
CANBERRA, Australia Dec. 18.—  
The subscription lists for the Com-  
monwealth's \$140,000,000 loan closed  
this afternoon and the amount was  
fully subscribed; thus the Labor  
Government, although faced with  
many other troubles, was able to  
thankfully shelve the question of the  
Government's obligations due this  
month, amounting to approximately  
the same figure.

### Deadly Fumes Take Two Lives

MONCTON, Dec. 18.—The deadly  
fumes of carbon monoxide gas took  
a toll of two lives, a father and son,  
here last evening in one of the most  
distracting tragedies ever recorded  
within the city. The victims are Alyre  
Cormier, 37 years of age, a well  
known contracting painter who re-  
sides at 128 Westmorland Street, and  
his eldest son, Willie, aged 13 years.

### Both Orphanages Handsomely Remembered In Will Of Late Henry Spears, Prince County.

Mr. Henry Spears who passed a-  
way last Sunday in the Prince  
County Hospital has left in his will  
\$10,000 to the Protestant Orphanage  
and \$10,000 to the Catholic Orphan-  
age which are both situated in  
Charlottetown.

A life interest in the residence of  
his estate goes to Mrs. Mandy Lut-  
trell of Roseville, P. E. I. On Mrs.  
Luttrell's death the balance of his  
estate is to be divided equally be-  
tween the two orphanages. His jew-  
elry is left to Mrs. Luttrell.

Two years ago he took a trip to  
England to try and find his brother  
and sister but could not locate them.  
Mr. Spears, always a friend of chil-  
dren and having no relatives to leave  
the money he had accumulated, very  
generously left it to the orphanages  
of Prince Edward Island.—S.

The late Henry Spears was a na-  
tive of England but left there when  
only thirteen years of age. In his  
wandering life on the sea he came  
to Prince Edward Island when about  
nineteen years old. There he found  
a friend in Mrs. Luttrell. For many  
years he lived in the United States  
but came again to the home of his  
adoption about seventeen years ago.

### ST. JOSEPH'S CHRISTMAS CANTATA

### Pupils of St. Joseph's Convent Give Splen- did Musical Recital Last Evening.

Christmas carols, sung by child  
voices, in manner and tone, which  
evidenced assiduous practice and  
careful and painstaking training,  
delighted the large audience of  
parents and friends of the pupils  
of St. Joseph's Convent, who pre-  
sented their Christmas Cantata in  
the new hall of the Convent last  
evening. The attendance showed  
the great interest which is being  
taken by the parents in the cul-  
tural and educational work of the  
children attending the convent.

The pupils, whether singing  
singly or in groups, proved equal  
to every occasion, each number  
being rendered beautifully, and with  
exceptional clarity.

Both children and teachers were  
highly commended for their work  
by the clergymen present.

### Einstein May Live In The United States

S. S. BELGENDLAND, Dec. 18.—  
When the Jewish telegraph agency's  
correspondent showed Professor Al-  
bert Einstein a copy of a Berlin re-  
port saying he might not return to  
Germany but would settle in another  
country after his present visit to the  
United States if the Fascists should  
take over the German Government,  
the professor did not deny it but  
authorized the following statement:  
"One should not speak publicly  
about conditions which he hopes will  
not come to pass. Still less should  
one under such circumstances make  
any decisions in advance or even  
make public such decisions."

### Will Receive Christmas Bonus

(Special to the Guardian)  
NEW YORK, Dec. 18.—Employees  
of seven banks and trust companies  
will receive customary Christmas bon-  
uses estimated at \$350,000. Extra  
cheques ranging from 5 per cent to  
23 per cent of a year's salary will be  
drawn by the Chase National Bank,  
Chatham Phenix National Bank  
and Trust Co., Title Guarantee and  
Trust Co., County Trust Co.; Com-  
mercial Trust Co. of New Jersey  
and the Bankers Trust Co.

### FILL THE EMPTY STOCKINGS!

Thousands Of Children  
Fear That Santa Will  
Pass By  
JOY FOR 50 Cts.  
Won't You Help to Bring  
a Ray of Sunshine Into  
Dull Lives?

Once upon a time you believed in  
Santa Claus . . .

How eagerly you woke up on  
Christmas morning and stretched  
out your hands towards your stock-  
ing hanging on the rail of the bed.  
Was it filled? Had he really called?  
"What a thrill it was—a thrill of  
exquisite joy—when, at the dim light,  
you felt big, lumpy packages inside  
your stocking; listened to the deli-  
cious crackling of paper.

Yes, Santa Claus had called—he  
had not forgotten you. Good old  
Santa! Hooryay for dear old Santa!  
And now supposing he hadn't called.  
Supposing that, when you felt  
for your stocking, you found it  
limp and empty. And even when you  
got up there were no presents, no  
jolly Christmas games to play, noth-  
ing except the stark, ordinary things  
of every day . . .  
"Wouldn't you have been inexpress-  
sibly sad? Wouldn't you have cried  
a little and wondered what you had  
gone to be so neglected?"

### Waiting For Their Gifts

There are hundreds of boys and  
girls who will be in this pitiable  
plight this Christmas—unless we help  
them. If you have the time take  
the various clergy or the Salvation Army  
officers will take you to their homes  
—introduce you to the children them-  
selves.

The Santa Pals are giving their  
Gift Sacks—each sack containing  
toys, sweets and games. (Some tiny  
toys will think when they receive  
one, that it is Santa's own sack left  
behind by mistake.)

Will you please provide at least  
one Gift Sack—the sum of \$5 guar-  
antees four children a happy Christ-  
mas.

Toys, fruit, candy or money is ur-  
gently wanted if the Fund is to be a  
success. Please send your donation  
today to Santa Pals Empty Stocking  
Fund care of the Guardian.

Rev. George Millar, late of Dou-  
glstown, N. B., and formerly of Al-  
berton, who never forgets the little  
ones Santa Claus may overlook,  
writes:  
"While my little boy was with us  
he had peculiar Christmas pleasure  
in being a Santa Pal to some of  
your needy children. In memory of  
my boy Douglas Haig Millar, I am  
sending a pair of shoes and skates  
for some one they may fit—prefer-  
ably a boy of 13 which would be his  
age if living. Wishing your boys and  
girls a generous supply to their  
needs."

### AT SUMMERSIDE

Any children who want to let  
Santa know what they want this  
Christmas can leave their names and  
request at the Red Cross Room in  
the Town Hall, Summerside, anytime  
after one p. m. Anyone wishing to  
help Santa in his work can call at  
the Red Cross Room and leave their  
donations.

## Trade Agreement Between Canada And Australia

To Be Made Public Today, Con-  
tains Much More Favorable  
Automobile And Lumber  
Schedules For Canada Than  
In Existing Treaty.

(Special to the Guardian)

OTTAWA, Dec. 18.—The proposed  
Australian-Canadian trade agree-  
ment to be made public tomorrow,  
contains much more favorable auto-  
mobile and lumber schedules for Canada  
than in the existing treaty. Lumber  
schedules are especially favorable to  
Canada in competition with the  
United States in the Australian  
market.

Canada already has a preference on  
newsprint and this preference is ex-  
tended to wood pulp, kraft paper and  
fruit wrapping paper. No  
change is made in the agricultural  
implement schedules.

Under the new agreement Canada  
imposes a duty of eight cents per  
pound on Australian butter. If, how-  
ever, the combined Australian price  
and the Canadian duty of eight  
cents per pound is below 32 cents,  
the duty increases to stabilize the  
minimum import price at 32 cents.  
There are other changes and all  
with the object of replacing foreign  
products in the Australian and Cana-  
dian markets with Dominion pro-  
ducts. The agreement must be rat-  
ified by Parliaments of both countries  
before coming into effect.

LONDON, Dec. 18.—Prince George,  
youngest son of the British ruler,  
bought a subway ticket and went to  
a fashionable west end dance last
