**ITALIAN FLIERS APPRECIATIVE**—A telegram expressing appreciation of the action of Superintendent MacKinnon of the Island division of the C. N. R. in supplying the services of an interpreter to Capt. Rovis and his companions of the Italian seaplane which landed recently at Victoria has been received by Mr. MacKinnon. The telegram, which was forwarded by Captain Campanelli from Shediac, reads as follows: "In the name of General Balbo and his staff I wish to extend to you my sincere appreciation for your kind co-operation on behalf of this memorable flight."

**SHOWER**—A very enjoyable time was held Tuesday evening at the home of Mr. and Mrs. James Monaghan, Hazelbrook, when about seventy-five young people gathered for a shower and dance in honour of Miss Margaret Cameron of this city whose marriage takes place the latter part of this month. Dancing and sing-song were indulged in till ten thirty, splendid music being furnished by Messrs. Alfred McKearney, Martin Power and the Coady brothers, and Miss Bessie McQuaid. The numerous and costly gifts were read by the joint hostesses, Mrs. W. J. Monaghan and Miss Mary Monaghan, after which the future bride and groom in a few words thanked all present for the remembrances. Lunch was then served in buffet style by Mrs. James Monaghan assisted by several of the young ladies; and then dancing was continued till the wee sma' hours of the morning.

**TEN SUB-CAMPS**

The great camp at Godollo is divided into ten sub-camps, representing the Ten Scout Laws, and known by the names of birds and animals.

**THE NATIONS THOROUGHLY MIXED**

Each sub-camp comprises as many national groups as possible, including a British Empire unit.

**THE CAMP BANK**

A specially erected branch of the Hungarian General Credit bank is taking care of the currency problem, the money of all nations being changed into Hungarian on generous terms.

**SCOUT LINGUIST GUIDES**

Three hundred Hungarian Boy Scouts who have taken special courses in 13 languages will act as guides to foreign Scouts visiting Budapest during the World Scout Jamboree.

**NATION**

The Hungarian government, which is doing everything possible to make the Jamboree a success, has granted the camp the unique honour of extra-territorial rights. In all administrative details the camp is thus self-contained.—a Scout nation within a nation, its laws the Scout Laws.

**THE JAMBOREE CAMP A SCOUT**

A special Scout commissioner has been appointed to supervise Scouting among the tribes of professional criminals in India.

**SCOUTS MAKE PARK FISH POND**

Boy Scouts of Rodney, Ont., made a lily pond in the local Horticultural Society park and stocked it with fish.

**SCOUTS DEMONSTRATE GOLD WASHING**

A demonstration of placer gold washing, with "real colour" or real gold dust shown, was a unique feature of a North Vancouver Scout Garden Party.

**A CANADIAN JAPANESE SCOUT TROOP**

A special cable from Baden-Powell congratulated Scoutmaster Yoshida of the 2nd Chematnus, B. C. Scouts, upon the third anniversary of the only Japanese Scout Troop in the Empire.

**FREE UNIFORMS FOR AFGHAN SCOUTS**

As part of its plan to encourage Scouting, recently started in that country, the Government of Afghanistan is supplying each new Afghan Boy Scout with two uniforms and camping kit.

**CAKE AND BREAD MAKERS COMPETE**

A cake and bread making competition for both professionals and amateurs, followed by an auction of the entries, was the main event of the Hanna, Alta., Herald and the Robin Hood Mills for financing the summer camp of the local Scouts.

**A RIVER FERRY SUNRISE SERVICE**

A sunrise Rovers' own service on a ferry boat in the middle of the Red River at St. Norbert, was the climax of the second annual all-night hike of Winnipeg Rovers. The service was conducted by Rover Mate the Rev. F. S. Reed, opening just as the sun showed over the horizon.

**BOY SCOUTS WILL GUARD FAMOUS TRAIN**

During the return trip from Vancouver to Montreal of the famous British train the Royal Scot, following its visit to Pacific coast cities at the termination of the Chicago fair, it will be guarded at all stopping points by Canadian Boy Scouts, to prevent vandalism by souvenir hunters.

**REAL HELP TO FARMERS**

That grading takes the guesswork out of buying is fully borne out by the monthly 3,000,000 pounds sale of branded beef in the Dominion. "Steadily increasing sales of officially graded beef will have a very important bearing upon the prosperity of the farming community, from which the cities draw much of their trade," says the Dominion Live Stock Branch. "If, in our eagerness to save, we are buying low quality beef we are penalizing those enterprising men who are putting brains and effort into their live stock operations. We are also penalizing ourselves by practising false economy, and retarding rather than assisting the return of more prosperous conditions. The man who sells his cattle thin at 2c. or 3c. per pound has no margin of profit, and is therefore not a potential employer of labour, or purchaser of goods the city merchants have to sell. On the other hand, if we help to increase the demand for good beef by demanding officially graded beef we make it easier for the man who has well-bred, well-fed cattle to dispose of them at a price which will give him a small margin of profit on his operations. He is the only class of farmer who has remained solvent and is able to pay for the goods he purchases."

**KILLS PORK PARASITES**

The June News Letter of the Dairy and Cold Storage Branch of the Dominion Department of Agriculture states that for many years it has been known that the freezing and subsequent cold storage of pork destroyed any trichinella larvae contained therein, but no one had studied the influence of the rate of freezing and the ultimate temperature reached on the viability of the parasite. In 1916, B. H. Ransom, of the U. S. Department of Agriculture,

studied the destruction of this parasite by ordinary slow-freezing and refrigeration at the usual cold storage temperatures. His results indicated that ten days' refrigeration at 5 degrees F was sufficient to kill the larvae. However, he recommended a 100 per cent factor of safety—viz., ten days' additional storage at 0 degree F., or twenty days in all, so that there could be no question that all the trichinella organisms would be killed by the cold.
