A STROKE OF LUCK.

(Saturday Evening Post).

A rich old farmer who had moved into a Michigan village has a ne'er-do-well son who would not work, but insisted on loafing around the village and living on his father, meanwhile waiting for the happy moment when the father might die.

One morning the news came from the rich old farmer's house that he had had a stroke of apoplexy and was dying. The good women of the village rushed over to see if they could do anything. They found the son sitting on the porch, in a rocking chair, rocking slowly and rubbing his hands.

"John," one lady said, "is this terrible news true? How is your father?"

"Well," replied John, continuing the rocking" all I can say is that I expect to be a rich man in a few minutes.

"So," said the judge, "you say that you never went to Chicago from Huntersville. Now this is a very important point in the case and I give you one more chance to explain, for you and Snyder were seen on the same train. Now you must be precise."

"No, sir, I never went to Chicago."

"Didn't Snyder go?"

"Yes sir."

"And you were with him. Now out with it."

"Yes sir," answered the witness after a pause. "You see I told the truth, because it was this way: We sat opposite each other. He faced the engine. I didn't go to Chicago, I just backed away from Huntersville."

PREACHERS FOUGHT A FATAL DUEL

LOUISVILLE, Ky., June 21—An indictment was returned on Thursday but not made public until yesterday, charging Rev. Isaac Perry with the murder of Rev. Robert Vanover. The two ministers, both well known mountain preachers, had been holding revival meetings in Whitely county, and quarrelled over some charges which had been laid against Vanover. The trouble reached its height during a service in the Rock Creek Baptist church a week ago, and Vanover and Perry, armed with knives, fought a duel in the building while the people in a panic, fled. Vanover's throat was cut from ear to ear and he died in a short time. Perry and his brother Blaine are in jail at Williamsburg

A FOREIGN TOUCH.

(Philadelphia Star).

There is a large settlement of well-to do Chicago cottagers at Williams Bay, on Lake Geneva. They are not extremely rich people, but very prosperous and substantial ones, and they have a lot of fine summer homes.

Near by is a great summer estate belonging to one of the richest men of Chicago. One Sunday, as the Williams Bay cottagers were coming out of church, the lady of the big estate drove through, having with her some scrub of English nobility she was entertaining at her place.

As they passed the Williams Bay, folks, walking to their homes, she surveyed them critically through her lorgnette and said to the Englishman: "As you will observe, we have a very good looking set of peasantry hereabouts."

GEORGE V. OF ENGLAND AT THE EDEN MUSEE.

At the Eden Musee of New York City, there is a famous wax group containing wax representations of all the kings and queens of the world. As soon as a change takes place in real life, a similar change is made in this group. The new figure of King Georve V. of England, has just been added to this group. The kings and queens are arranged in this group, as if holding a reception in a large hall. As any king or queen becomes more prominent, this ruler is given a more prominent position. King George is a central figure in this group, and the countenances of the other kings and queens have been brightened up to receive the new King of England. The figure is perfect in detail, having been made from cable descriptions and measurements. The large group showing Roosevelt hunting lions in South Afriea, is attracting much attention. It shows the great statesman in hunting costume similar to that worn by rough-riders. A lion has suddenly surprised the guides, who run away, but Roosevelt's bullet saves the day. New moving pictures are shown hourly afternoon and evening in the Winter Garden. The pictures of King Edward's funeral are the most elaborate pictures ever taken and extremely interesting to visitors. Other pictures show Roosevelt being entertained by Kings, scenes in far-away countries, comic and mysterious pictures. The afternoon and evening concerts have choice programs which make the Musee a musical centre.

Had Given Up All Hope of Living.

Heart Trouble Cured by Milburn's Heart and Nerve Pills.

Mrs. Andrew Savoy, Grattan's, N.B., writes:—"In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world can believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law.

"One day a friend came to see me, and calling me by name said, 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better, but on the fourth day my husband said, 'I believe those pills are doing you good.' I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, I will get you another box right away.' I took two boxes and three dozen out of the third one, and I was perfectly well and have not been sick since then.

"I will never be without them in my home for God knows if it had not been for Milburn's Heart and Nerve Pills, I would not have been alive now."

Price, 50 cents per box, 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SPLIT-LOG DRAG DLES GOOD WORK.

The split-log drag is a device which during the past few years, has grown rapidly in popular favor as an immed.ate maker of good roads in the United States and at a ridiculously low expenses.

Over 10,000 farmers in Missouri are keeping in excellent repair with the split-log drag the ordinary county dirt roads leading from their front gate to their neighbor's front gate, toward town. Fifteen thousand are working on the roads of Illinois.

The Department of Highways of the State of Illinois has officially adopted this system of maintaining its roads throughout the entire state. The State of Ohio has taken up this method of road making, and foremost among automobile clubs of the nation to become enthusiastic advocates of this method of getting good roads now, to-day, cheap, stand several clubs in Pennsylvania. Among them are the Lancaster, Harrisburg, Pittsburg and Williamsport Good Roads Association.

The split-log drag is made from an ordinary log, eight or ten inches in diameter and from seven to nine feet long. The log is split in half and the halves are spiked thirty inches apart, the split sides to the front. A team of horses is hitched to the drag by means of a chain, and the latter is dragged along the road at an agle of 45 degrees, moving the dirt to the middle of the road.

This dragging process is done after each rain. The farmer stands on the drag, and the moist earth, as it is moved to the centre of the road, fills the ruts, smooths out the uneven places and causes all inequalities to disaapear. About one hour is required for the farmer to drag a mile of road after each rain.

The effect of the sun and wind baking the roadway each time it is dragged results in a smooth, hard surface, that withstands the heaviest traffic, that sheds water and brings joy to the heart of the farmer and motorist alike.

WORLD'S DEBT TO CANADA

A Wonderful Achievement

Discovery of "Fruit-a-tives" has meant health for all

Canada's fame does not rest solely on her furs and wheat fields. Her rise in the esteem of the world is not due to her Cobalt mines. It is the work of her great men that has made her great. A graduate of McGill University has won lasting renown for his original researches in the realms of Physics.

Everyone knows that fruit is wholesome, when eaten judiciously. Physicians generally recognize the fact that fruit juices have a beneficial effect on the various organs of the body.

It remained for a Canadian physician to discover a process whereby the medicinal action of fruit could be so increased as to make the intensified juices a wonderful cure.

"Fruit-a-tives" is this combination of fruit juices and tonics. Since its introduction to the public, "Fruit-a-tives" has met with a success accorded to no other medicine in the world. The reason is plain. "Fruit-a-tives" is the one remedy that is actually made of fruit, and is the only remedy that naturally cures Constipation, Biliousness, Indigestion, Headaches, Rheumatism, Neuralgia, Backache, Kidney and Skin Troubles. At all dealers at 50c. a box, 6 for $2.50, or trial size, 25c., or from Fruit-a-tives Limited, Ottawa.
