LOUD SPEAKERS USED IN A LONDON STATION

LONDON, April 16.—Four loud speakers giving passengers information about the movements of trains were used for the first time at St. Pancras station, L.M.S. Rail- way, recently.

Very good results were obtained, the information being clearly heard all over the station.

The loud speakers were connect- ed to a goods van, where the trans- mitting set of seven valves was installed. An official there spoke in a quiet voice into a microphone. Many officials from other rail- ways were present. Other com- panies are to hold tests in the near future, the Southern Railway hav- ing arranged one for next week.

Mr. F. J. Holman Gives First Hand Account Of Strike Conditions

At the Rotary luncheon yester- day afternoon the speaker was Mr. F. J. Holman, who dealt with the conditions among the coal min- ers of Cape Breton.

Mr. Holman was down in that section of the country, and made personal inquiries into the situa- tion. In the course of his address he said:—

Realizing that you are fully aware of the unfortunate situation which has arisen among the coal miners in Cape Breton, as well as in other parts of Nova Scotia, I need not dwell on the details of this crisis, I said crisis, because where starvation is facing 12,000 people and their families you will all agree that the case is most serious.

Some may consider that Press reports are over-estimating the true state of conditions; others may think it is being reported more seriously than the situation actually warrants, and in this way being made a political issue. My investigations will not war- rant these conditions. I have fol- lowed the reports carefully for some weeks and on my way to Halifax a few days ago, I thought perhaps the Press reports were a little extreme. On arrival at Hal- fax, I attended a meeting in the Y. M. C. A. presided over by Mayor Murphy, the chief speaker being Mrs. MacPherson from Glace Bay, who has been a resident there for nearly thirty years and a great Sal- vation Army worker. She had a sad story to tell of conditions around the collieries, and explain- ed from the beginning the relief work then in its infancy. All pres- ent were deeply moved and a cord offering was taken. A few days later I arrived in Sydney and made enquiries generally. I found busi- ness conditions most seriously dis- capped in view of the present situation. I went to Glace Bay, mak- ing further investigation; inter- viewed the Central Relief Commit- tee, who assured me that the Press reports were only stating what was too true, and that relief duty were assuming very heavy proportions.

I found that soup kitchens were being conducted in order to pro- vide mid-day meals for many school children; also that many children were unable to go to school owing to lack of boots and clothing. During my interview the Committee stated they would be

personally I would not under- take to ensure either the corpora- tion or the miners, as I have lis- tened to both sides of the story and some censure the Corpora- tion, while fault is also found with the miners. Fixing the responsi- bility is not our duty today, gen- tlemen, relief of thousands of wo- men and children, who would be actually facing starvation, if it were not for the generous res- ponses that has been forthcoming from their fellow Canadians and friends in the United States.

For three weeks I have heard the call ringing in my ears. It still rings. I trust it will ring in the ears of every Roarian, every Oddfellow, every Knight of Colum- bus, every Knight of Pythias and of all other fraternal Societies, as well as every citizen of Prince Edward Island, until each and every one has done what he could to answer the call.

Mr. Holman then read a tele- gram received from the Relief Committee and said: After hear- ing this telegram, I think any at- tempt of mine at appeal is unneces- sary, but I wish to point out that there are about 8,000 miners and their families—nearly 30,000 people, with Glace Bay as a cen- tre or probably 4000 and their fam- ilies at Springhill and Stellarton, largely dependent on contribu- tions.

After returning from the colli- ery section I was delighted to find that a Relief Committee was organized, with men of high stand- ing and men of honor in our com- munity. I refer to Messrs. J. P. Gor- don, William Rowe, and James Carragher, the Central Committee for Prince Edward Island at Char- lottetown.

Last Saturday evening I volun- teered my services to that Com- mittee. Sunday afternoon I was requested to talk to our Sabbath School and am pleased to report that a special offering will be tak- en next Sabbath. If the other churches throughout the City see their way to do likewise, it would impress upon the younger element in our community the sad plight in which the boys and girls, moth- ers, yes and even the fathers in our sister province find themselves.

This may seem a cold impres- sion but when we consider the splen- did market we have enjoyed with Cape Breton and the mining towns throughout Nova Scotia, for our

delighted to receive shipments of Prince Edward Island potatoes and other produce, pointing out that the Railway would carry these contributions free. I also found that contributions were coming in free from all through Nova Scotia, Quebec, Ontario and good contribu- tions from Cape Breton, also Canadian Clubs in the United States.

Up to that time very little res- ponses had come from our fair Province. I am fully satisfied this was due to lack of publicity and now relief committees are active and organization work is being vig- orously carried on. I am pleased to state that we have learned there is considerable response from our Province. One merchant at Kensington having forwarded 100 bags of potatoes—a good con- tribution from one firm. At Tignish they expect to ship a carload of produce. This is also reported from Mt. Herbert and our mer- chants generally without excep- tion, have offered their services, turning their business warehouses into receiving and forwarding sta- tions.

Personally I would not under- take to ensure either the corpora- tion or the miners, as I have lis- tened to both sides of the story and some censure the Corpora- tion, while fault is also found with the miners. Fixing the responsi- bility is not our duty today, gen- tlemen, relief of thousands of wo- men and children, who would be actually facing starvation, if it were not for the generous res- ponses that has been forthcoming from their fellow Canadians and friends in the United States.

AMONG THE CHURCHES

The services at St. Peter's Cath- edral on Easter Sunday were very dignified and impressive, and the altar presented a magnificent appear- ance, vested in a frontal of Indian silver work, with two large fifteen-branch candlesticks standing on either side. The morning service began with a procession from the altar, and the music rendered was of a very high order, "Adams Missa de Sanctis" being sung. It was very creditably rendered both by the choir in general and those who took special solo parts.

A great deal of credit is due Prof. W. G. Fletcher, who trained the choir. At this service the congrega- tion was one of the largest seen in St. Peter's for many years.

At Evensong, which was fully choral, there was also a process- ion. The Canticles were sung to a special setting by Lorraine Hollo- way. At the end of the service the entire choir, with the Priest vest- ed in a white cape and attended by two servers, grouped around the altar and sang Dyke's solemn "Te Deum" as an act of praise and thanksgiving. The number of those who presented themselves at the Holy table this year was larger than last year, in spite of many cases of absence from the Island and from sickness. On Sunday next the music of Easter Day will be repeated at both services.

The lighting of St. Peter's Cath- edral has been greatly improved, much to its benefit. Entirely new fixtures have been installed with splendid results. The work has been done by the Palmer-Watson and the Blinnis electrical compan- ies.

In the absence of the pastor, Rev. W. M. Ryan, the Wednesday night meeting at the Methodist Church was conducted by the Wo- men's Missionary Society under the leadership of its president, Mrs. (Rev.) W. M. Thompson. A responsive reading was led by Mrs. B. M. George, and followed with prayer by Mrs. Andrew MacNair.

A duet, "The Crucified," was ren- dered by Mrs. John MacNair and Miss Hazel Carter. After an excel- lent address by Mrs. Thompson, Miss Lillian McKenzie sang "God Shall Wipe Away All Tears" which was followed by a reading, "Easter

Among the Early Christians," by Mrs. Houle. Followed an Easter exercise led by Mrs. (Dr.) H. D. Johnston, assisted by Mrs. Norman Lowther, Mrs. Edward Chandler, Mrs. Ted, and Miss Marion Ryan. Mrs. W. E. Fletcher sang "The Holy City." Benediction was pro- nounced by Rev. Mr. Purdy, of Truro.

The annual Easter Tea and Baz- ar of St. James' Church, which has been an annual event for the last forty years or more, was held yesterday afternoon and evening under the auspices of the Ladies' Aid Society, assisted by the Young Ladies' Guild. The tea tables were set in the basement. The refresh- ments, candy and fancy-work tables were arranged in the Sunday school hall upstairs. The halls and tables were prettily decorated. The tea, which was well patronized, was most successful from both a social and financial point of view.

The monthly meeting of the Mis- sion Band of St. James' Church was held Wednesday afternoon. Af- ter an address by Rev. Wm. Orr Mulligan, the children under the direction of their president, Mrs. W. A. Stewart, assisted by Mrs. J. R. Burnett and Mrs. H. Laphorne, rendered an excellent musical program.

The monthly meeting of the Ladies' Aid of the Central Chris- tian Church was held on Tuesday afternoon at the home of Mrs. Frank Stewart, Rochford street. This organization, of which the president is Mrs. Ballingall, is to be congratulated on having just completed the purchase of the new church organ. The Ladies' Aid Society raised the funds for its payment by their own individual ef- forts within the last two years.

The Y. P. S. C. E. of Zion church met on Monday evening, Miss Alice MacWilliams in the chair. The subject for the night was "What does the Resurrection of Jesus mean to me?" Several of the mem- bers spoke on the subject. At Easter-time the Society sent plants to the shut-ins of the congregations and also sent home-made candy to the patients of the Infirmary. The officers of the Tennis Club were ap- pointed for the coming year.

ANNUAL MEETING OF PRINCE COUNTY BASEBALL LEAGUE

Last Night in Summerside Town Hall.— Large Attendance.—Pioneers and To- rontos Amalgamated.

(Special to The Guardian)

There was a large and enthusias- tic meeting of the Prince County Baseball League in the Town Hall, Summerside last night. The follow- ing officials were elected for the en- suing year:

Hon. Pres.—Mayor Campbell; Pres.—Wilfred Gaudet; Vice Pres.—D. O. Stewart; Secretary—R. T. Dods. A committee was appointed to draw up a schedule of games before May 24th. The

of the early start is to get games started and the League finished early in the season so that a good number of exhibition games with outside teams.

There should be great baseball in Summerside this year. The Pioneers and the Torontos have amal- gamated and will have a strong team known as the Pioneers-Torontos and with the Independents and the Sox teams there should be some thing real good in baseball in Summerside this year.

BASKETBALL

Junior 12, Intermediates 27
X-W.K.S. 33, P.W.C. 12

Two very interesting games were played last night, one between the Juniors and Intermediates the latter winning out, the other between the Ex West Kent School team against first and second year P. W. College, the school team coming through with a win by a good margin.

Both games were good exhibi- tions of fast, clean playing and the display put on by the youngsters was good to watch.

In the first game the Intermedi- ates were too heavy for their op- ponents who nevertheless put up a snappy game against great odds.

Both teams played considerable combination and on this end of it, the Juniors had the edge on their opponents using a long pass to quite an extent. Shooting on both sides was good, both teams scoring on most of their throws.

In the second game the School team proved to be far superior to the College in every branch of the game. Their combination was like a moving picture, so clean and precise, while their shooting was of a high order. The College team had in experience, played a hard strenuous game, but found the going rather rough, owing to the close marking of their opponents guards. At times their combination was good, but they lost some easy shots which should have been coun- ters.

It is rumored that there will be a game Saturday night between the School team and the All College team, this should be a big drawing card, as both teams are made up of clean and fast players.

Following are the players and scores made by each.

Table with columns for Juniors, Intermediates, and Alerts, listing names and scores.

PURE JAM JELLIES

MARMALADE

CROSSE & BLACKWELL'S

4 lb. tin Strawberry \$1.00 per tin
