The burglar, who had gained entrance to the store through a cellar hatch, which had been left unfastened, filled a bag with cigarettes, tobacco, and other articles and then proceeded to the proprietor's room. RESCUED BY YACHT—Mr. Bramwell Chandler, I. O. D. E. scholarship student at Edinburgh University, at present home on his holidays, had a harrowing experience Saturday afternoon when his sailboat capsized in the harbor, and precipitated him into the water. Mr. Chandler clung to the craft for an hour, and was rescued on arrival of Mr. Malcolm Irwin's yacht which sailed down West River. The accident occurred near York Point. The boom and the rudder became tangled, with the result that the boat was blown over. Mr. Chandler, who is a strong swimmer, attempted to reach shore but was forced to return to the boat as wind and tide were not favorable.

CYCLED TO SHEDIAC—Two ambitious Charlottetown boys, Ralph Yeo, Brighton, and Leighton Warren, Longworth Ave., returned to the city on Saturday evening after an interesting bicycle trip to Shediac, having conceived the idea of seeing the Italian air armada. The boys overhauled their wheels, packed their cooking utensils, food supplies, and strapping on a small tent, set out on Monday morning, taking the first crossing from Borden and reaching Shediac at 6.15 the same evening. From their camp they could enjoy an unobstructed view of the 24 planes, strung across a mile and a half of Shediac Bay. After watching the take-off on Wednesday morning, the boys started on their homeward trip, visiting Moncton, Dorchester and other points en route. They arrived home with a coat of tan and a vigorous appetite.

DISPUTE SETTLED—The Mounted Police were summoned Saturday to settle a dispute on the highway between two neighbours, residents of Springfield. By the time the officers arrived the dispute had been amicably settled.

ALTERNATIVE (Continued from Page 1) Jacques Cartier and Conservative organizer in chief for Quebec, Alderman Tancredi Fortin, K.C., President of L'Union Conservatrice, Hon. Andre Fautoux and a number of Members of Parliament. An attempt, Dr. Manion declared, was being made by the C. C. F. leader to capitalize the discontents of today—discontents which existed throughout the world due to the three years of depression. Whatever Mr. Woodsworth might call himself, it was the Communistic system of Russia that the C.C.F. head proposed for Canada. All who owned lands or bonds or stores were really capitalists, the Minister continued. And although the capitalistic system under which Canadians and the greater part of the world lived was far from perfect, the advances over the ages had been magnificent. While there were errors in the system, errors under which in times of depression such as the present, people who were willing to work were unable to obtain employment, these errors must be corrected from within the system. Errors must be corrected and depressions such as that through which the world was going must be prevented from recurring, the Minister said. But he protested vehemently, Dr. Manion proceeded, that because there were errors, the whole economic system must be smashed and re-built to suit Mr. Woodsworth and his followers. Sharp Reference The Minister had sharp references for Rt. Hon. W. L. Mackenzie King and the Liberal party. He saw a very great likelihood of the same type of disintegration taking place in that party in Canada as had taken place in England. This was due to the fact, Dr. Manion declared, that the extreme wing of the Liberal party was following the radical teachings of Mr. Woodsworth. The moderate Liberals, he said, realized that if they were to support stability and order in this country they could only do so by supporting the forceful, brilliant leadership of Rt. Hon. R. B. Bennett, who was a leader among leaders at the World Economic Conference.

FORMER IRISH FALL IN GRAIN MINISTERS' PRICES DUE HOMES RAIDED TO EXPORTS

(Associated Press) DUBLIN, Irish Free State, July 30—Police today visited the homes of former ministers and prominent leaders of the "National Guard" and demanded the surrender of revolvers in accordance with the suddenly issued order revoking their arms licenses. Several refused the demand, including former Vice President Ernest Blythe who declared he would resist any effort to disarm him. The revocation of the licenses, which caused a sensation, followed closely the reorganization of the Army Comrades Association under the name of the National Guard, with General O'Duffy, recently dismissed commissioner of the Free State police, as the head. The Army Comrades Association was active in the interests of former President William T. Cosgrave in the Irish presidential election several months ago.

(Canadian Press) WINNIPEG, July 30—A continuation of yesterday's liquidating movement in the face of a lull in the export trade pushed prices downward on the Winnipeg Grain Exchange today. At the close of Saturday's abbreviated session futures showed losses ranging from 2 1-8 to 2 1-2 cents under Friday's final figure. Values had staged a slight rally in the last hour but a further selling movement near the close swept prices back to the low points for the day. July future, closed at 79 1-8, October at 81, December at 82 1-8 and May at 87 cents.

(Canadian Press) OTTAWA, July 30—The voice of the politician is being heard on the hustings these days in increasing volume and if indications do not fall the air will be filled with party debate in rising volume in the next few months. It is understood a committee of the Dominion Cabinet will arrange tours for such speakers as may be spared to carry to the people a statement of the Government's record, and it would not be surprising if Prime Minister R. B. Bennett, on his return from London, finds time to make some speeches in the West. Already the case for the Government has been presented at political meetings along the Gaspe coast, in Dorchester, Que., a week ago, and in St. Eustace, Que., yesterday.

(Canadian Press) LONDON today for a fortnight's stay at a health resort near Harrogate, Yorkshire, while Hon. E. N. Rhodes, Minister of Finance, and the others of the delegation to the World Economic Conference, were on the high seas, due to arrive in Quebec late this week. The great task facing Mr. Rhodes on his return, and which will probably be shared to a large degree by the Prime Minister when he arrives a fortnight later, will be preparation for the big re-funding and conversion loan which it is expected will amount to something over \$550,000,000. It is believed, however, that Mr. Rhodes will first pay a visit to his constituency in Nova Scotia, which he was unable to do after the last session of Parliament. A general election in Nova Scotia will be held August 22, but it is not expected that Mr. Rhodes will take any active part. In the meantime Rt. Hon. Sir George Perley, acting Prime Minister, has been making progress on some of the outstanding problems of the Government. It will not be surprising if some announcement is made before Mr. Bennett returns, with respect to the appointment of the Royal Commission on banking and credit. Two members of this commission of five will be selected in Great Britain and it remains the impression in semi-official circles that Lord Macmillan will be secured to act as Chairman. The Canadian members have been practically decided upon, it is believed, but no official information can be secured on this point.

(Canadian Press) NEW YORK, July 30—(A.P.)—Jimmie Mattern, smiling as broadly as when he soared away June 3 to fly around the world, completed the circuit today, but his hopes of setting a solo record lay dashed with the wreckage of his plane in the Siberian wilds. The young Texan, who had been loaned a ship to finish the journey after a Soviet pilot carried him from Anadyr to Nome, Alaska, landed at Floyd Bennett field at 3.45 p. m. (Eastern Standard Time). He had flown from Toronto, Ont., in 4 hours, 15 minutes. "Hello, everybody!" he shouted as he climbed from the cockpit. A crowd estimated by airport officials at between 5,000 and 8,000 persons gave a prolonged cheer. Mattern, wearing a pair of high Russian boots, limped as he walked to the administration building to be greeted by friends. He had injured his leg when his ship crashed in the wastelands of northern Siberia on June 14. It was not until July 7 that he reached the little trading post of Anadyr, and informed the world, which had given him up for dead, that he was safe.

(Canadian Press) NEW YORK, July 30—(A.P.)—The four-year-old Holstein heifer, Darkie Merona Vale, bred and owned by Howard Galbeck, North Tryon, recently closed her lactation period in the 365 day division of the R. O. P. with a production totalling 13,782 lbs. milk and an average test of 3.65% fat. Gem of Beside, a mature Holstein cow, bred and owned by Walter Buntain & Son, Rustico, has just closed a lactation period in the 365 day division of the R. O. P. with a yield of 15,026 lbs. milk and an average test of 3.18% fat.

(Canadian Press) WASHINGTON, July 30—Hopes of the Roosevelt administration for an international wheat agreement were revived after a cabled appeal to Secretary of Agriculture Wallace from delegates to the London Wheat Conference to withhold his decision on acreage reduction here. It was said authoritatively Wallace was notified that a new and informal effort to reach an agreement is being undertaken, although delegates at London representing Canada, the United States, Australia and Argentina recessed their Conference Thursday until August 21.

Pearce, a friend, had boasted to her he knew the identity of the kidnapers. Pearce was arrested and was identified as the writer of extortion notes to the family of Boettcher. Later Carl Youngberg was arrested and convicted in connection with the case. Mrs. Fern Sankey also was arrested. She later was tried in connection with the kidnaping of Haskel Bohn of St. Paul but was acquitted. Charges also were filed against her in the Boettcher case.

POLITICAL SPEECHMAKING IS FORECAST

3 Dominion By-elections and General Provincial Contests in Nova Scotia, Ontario and B. C. Are in Offing.

ITALIANS (Continued from Page 1) Everything was ready for resumption of the flight on Friday and again on Saturday, but last minute reports of unfavorable conditions over the Atlantic caused postponement of the 1800 mile Atlantic jump. Last night a strong south wind and lowering clouds indicated the unlikelihood of an early attempt to get away. Today the wind had strengthened and fog still lay over portions of the proposed course. Meanwhile, a break in the weather is all the squadron wants. All is shipshape for a quick start for Ireland and home. HENDERSON IS ELECTED LABOR LEADER

In Memoriam In loving memory of my beloved husband and our dear father, John A. MacLaure, who died while bathing July 29th, 1930. The blow was hard, the shock severe, to part with one, who loved so dear, still loving him in death just the same. The sorrow of parting without farewell, Past when his life seemed the brightest, And he could have lived his best, He was called from this world of sorrow, To a home of eternal rest. At home he is fondly remembered, Free memories cling round his dear name, Free hearts that loved him in life, Still love him in death just the same. Inscr. by his loving wife and family.
