There is more Catarrh in this section of the country than all other diseases put together and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. TREACHEROUS BELGIANS WERE ARRESTED

Underground Source of German Supplies Discovered After Year's Search.

(Canadian Press Despatch.)
 NEW YORK.—Six members of a Belgian relief ship crew were arrested with three other men on charges of smuggling rubber and platinum in Germany by way of Holland and Belgium. All nine of the persons are said to be Belgian citizens and the arrest, the police say, is the culmination of a year's search for an underground route by which it is believed Germany has been able to get weekly supplies estimated at \$25,000,000 worth of merchandise surreptitiously from Atlantic ports of this country. The value of goods in Germany is said to be five fold their cost here.

ISSUE FOR CONSCRIPTION

(Continued from page five)

At party—that they are once more hatching resolutions in their caucus and appealing to the people of Canada only in order to cause delay. Let me point out to the leader of the Opposition, who should be a loyal man—he comes from the right kind of stock, and I want to believe and I do believe, that he is loyal—that, if he wins the election, he has behind him every disloyal element from Halifax to Vancouver, to help to select the representative whom we have been called upon to trust in the greatest hour of our history.

I am afraid that I have taken rather too long. I apologize for doing so. But I felt that I should say what I had to say upon this great question, and I have no fear of the outcome. My confidence was never so great as it is today. I feel that the tripping up of Russia does not amount to anything. The fewer czars, the less one-man dictation in Russia when the time of peace comes, so much the better for the permanent peace of the world. I sincerely trust that that great country will come to her own, and that she will gradually formulate a stable form of Government that will make Russia one of the peace-loving nations of the world. I sincerely believe that we shall see no more kaisers in Germany, and that the German people, who are among the cleverest people of the world, who have led industry and development, and who have done perhaps more in fifty years than any other people in Europe to bring an old country into the condition of a new country, will have a Government worthy of the courage of that nation. Italy will have her power back; France, who has been the hero of them all, will have Alsace-Lorraine back to her heart, and those people will come home. Then we come to little Belgium, God bless her! Every house must be rebuilt, every dollar must be paid back; but you cannot pay back the lives, you cannot compensate the people, for the awful outrages that have been committed by a nation whose education should have taught them better. All that we can do will be in a financial way, and it shall be done; and we in Canada, and our boys—God bless them!—will stand there when the terms of peace are made; and they will have taken a hand in rendering justice to the small nations of Europe in order that they may enjoy those privileges of independence and birthright that make a man a real man.

WINNIPEG CONVENTION

(Canadian Press Despatch.)
 WINNIPEG.—The resolutions committee wrestled until past midnight with the vital resolution—that pledging the convention for Sir Wilfrid and denouncing the Borden Government as incompetent and unworthy of the confidence of the people. It is the document fathered by Hon. Chas. Laurier, forces have cordially endorsed and the fusionists vigorously opposed. Condemnation of the Borden government as a war administration was expressed by the Liberal convention at the close of the morning session, when the delegates cheered loudly in adopting a compromise resolution declaring the federal government to be inefficient and incompetent and unworthy of support, but without endorsing Laurier's leadership. The resolution

CLEANSE THE BLOOD AND AVOID DISEASE

When your blood is impure, weak, thin and debilitated, your system becomes susceptible to any or all diseases.
 Put your blood in good condition. Hood's Sarsaparilla acts directly and peculiarly on the blood—it purifies, enriches and revitalizes it and builds up the whole system.

read as follows:
 "This convention of Liberals of the four western provinces of the Dominion of Canada, assembled for the purpose of assisting in the solution of the many serious problems facing Canada at the present crisis, feels compelled to place on record its most severe disapproval of the war administration of the Borden government.

Partisanship Proclaimed.

"War is essentially the business and concern of the entire nation, and not of any section, class or political party.
 "War can be waged to the best advantage only if behind its prosecution the people are right at heart, and imbued with the same passion and determination to defend the right and triumph over the forces of despotism and unrighteousness. Any intent to arrogate to one section of the people or one political party a monopoly of the prosecution and the prestige of the conduct of the national struggle for freedom and existence, can be characterized only as base and unworthy, in the highest degree because the Borden government has sought, from the outset, to make our national life and death struggle the prerogative of one political party, to the exclusion of one-half of the Canadian people, and an instrument for selfish political advancement, rather than the triumph of national ideals.
 "Because it has exhibited gross incompetence and inefficiency in the face of national peril.
 "Because it has substituted selfish partisanship for honor and fair dealing.
 "Because dissension has overcome leadership in its councils, and disaffection has taken the place of firmness, resolution, courage and efficiency in execution.
 "We condemn it as no longer entitled to the confidence of the Canadian people."
 Premier Sifton spoke briefly, in moving the resolution, and Delegate Laidlaw of British Columbia, seconded it. Mr. Sifton declared that there had been partisanship in the Canadian forces.

SOLDIERS AGAIN ANGRY.

The returned soldiers again, visited the Liberal convention tonight in an angry mood. They are convinced that a large section of the Liberal convention is prepared to play traitor to the men at the front and threaten to break up the gathering at the first sign of any attempt to shelve the question of conscription. Premier Norris again calmed the angry soldiers. He is respected and trusted, and promised to stand by them and their comrades.
 The men left at his request, cheering the Manitoba Premier, but asked him to warn the other leaders to play straight.
 Premier Norris has called another caucus of the Manitoba delegates for tomorrow morning. He will place the situation in the resolutions committee before his supporters and asked that he be empowered on behalf of the Manitoba delegation to bolt the convention if the conclusions reached in committee on the questions of war government and conscription are not satisfactory.

 LONDON.—A despatch to the Times from Athens says the government discovered correspondence between Emperor William and ex-king Constantine and will lay it before the Chamber.

The following letter was received by Prin. J. D. Seaman of Prince Street School from H. V. McLeod of the Signalling Corps.
 France, 6, 7, 1917.
 Dear Mr. Seaman—I have today received your books. News from

Home sent by P. S. S. and I wish to tell you again how much these books are appreciated by the fellows here—not only P. E. Islanders, but everybody. The daily papers do not always come along, and although sometimes delayed, you long-looked for it always is so up-to-date. Not long ago, upon relief, we got one copy behind to give amusement and reading material to the fellows coming in. Later I visited the old site and recognized in the officers' mess, the cover of the same scrap book. A beautiful water colour. I wonder if the girls think that after about three months of continuous reading, the scrap book turned itself to decorative purposes.
 Again thanking you for the time and trouble spent in making the "News from Home".
 I am, Sincerely,
 H. V. McLEOD
