**Dr. Wood's
Norway Pine Syrup.**

It contains all the virtues of the world famous Norway pine tree, combined with Wild Cherry Bark and the soothing, healing and expectorant properties of other excellent herbs and plants.

At last I was advised by a friend to try Dr. Wood's Norway Pine Syrup and with the first few doses I found great relief and to-day my hacking cough has entirely disappeared and I am now without Dr. Wood's Norway Pine Syrup in the house.

The price of Dr. Wood's Norway Pine Syrup is 25 cents per bottle. It is put up in a yellow wrapper, some nine times the trade mark, so be sure and accept none of the cheap imitations of the original "Norway Pine Syrup."

Manufactured only by The T. McBurn Co., Limited, Toronto, Ont.

Here is a razor—so complete and compact—that it can be slipped into the vest-pocket and takes up as little space as a card—case.

No Honing—No Strooping
It is the Gillette Pocket Edition—finished in gold and silver—with handle and blade box to match—also gun-metal—\$5 to \$7.

And the blades are from Gillette's dealers everywhere display Gillette signs. Look for them.

The Gillette Safety Razor Co. of Canada Limited Office and Factory, Montreal, 104

THE CARBO MAGNETIC RAZOR

NO HONING—NO GRINDING

WHY DO MOST RAZORS PULL?

Because they are tempered unevenly by fire and will not hold an edge.

CARBO-MAGNETIC RAZORS are tempered as hard as flint by our exclusive process of electricity.

Silver to Depend On

Dependability is still another inherent characteristic of silverware marked

"1847 ROGERS BROS."

Knives, forks, spoons, etc., so stamped have a wearing quality that in after years proves their true worth.

Best for sets, dishes, waiters, etc.

Leading Editorials Notes and Comments for Saturday Subscribers

FRIDAY THE STRENGTH AND ATTITUDE OF PARTIES.

When the late House of Commons in the United Kingdom was elected the 670 members were divided about as follows: Liberals, 400; Unionists, 168; Socialist Labor 24; Irish, 83. The by-elections in three years made many changes, and when Parliament was dissolved the strength of parties was approximately: Liberals 366; Unionists 165; Socialist Labor 56; Irish 83.

It will be seen that although the straight Liberals had lost 34 in the by-elections, these seats had mostly passed to the Socialist Labor party which had gained 27, the Irish forces remaining unchanged, while the Unionists had gained only seven. These changes did not materially weaken the Liberal party. What was lost by them was mainly gained by their allies, the Socialist Labor party, which is quite apparent.

As a result as to the attitude of these parties in the present contest, the Liberals are practically allied with the Socialist Labor party and with the Irish party, under promise to give the latter home rule for Ireland. But the Irish party is not friendly to the Government's proposed taxes on the liquor traffic and its educational policy. The Labor party demands the abolition of the House of Lords, and also that the unemployed shall be given employment by the State.

The Liberals demand the abolition of the veto power in the House of Lords, but are not committed to the abolition of that Chamber. The proposed Unionist policy is to reform the House of Lords, but still leave them power to refer any measure to the people, as was done with the Budget. They would also raise revenue by new and increased customs duties, the colonies to receive a preference. They have also a plan of land reform by purchasing small holdings for tenants in England and Scotland, as has been done for Irish tenants.

IS THE NAVY STRONG ENOUGH FOR NATIONAL SAFETY?

Our despatches of yesterday morning indicated that Mr. Balfour is laying particular stress upon the German menace, asserting that war with Germany is inevitable in the near future unless the conservative policy of greatly strengthening the British navy is at once adopted. For a time the German war scare had pretty well subsided. Mr. Balfour's revival of it may be taken to indicate that he is doubtful about being able to secure victory on the basis of tariff reform and upholding the Lords in the rejection of the budget.

It is that as it may there is great interest in Canada to know whether the British navy is now strong enough and whether it will be strong enough two or three years hence to assure the national safety beyond peradventure. Mr. Balfour takes the negative side, but at election times even the most astute and candid political leaders are sometimes prone to overstatement. We must hear both sides if we would from a right judgment.

Sir Percy Scott has made a statement which purports to show the relative strength of the British and German navies. He is a recognized authority on naval matters. As quoted by John Burns the other day the British warships have at present a displacement of 1,800,000 tons against Germany's 800,000. This is something more than two to one in the matter of tonnage. From his knowledge of what is going on in warship building Sir Percy asserts that in 1912 the relative tonnage of the two navies will be British 2,000,000 tons; Germany 800,000 tons.

These figures leave a broad margin of safety on the British side, a point in fact that after making due allowance for overstatement, they can hardly be sufficient cause for Mr. Balfour's alarmist views. He, however, boldly states that the Government knows of the great danger and is concealing the true state of things from the people. We must confess to a feeling of incredulity as to the German navy's intention to attack and annihilate the United Kingdom, but it is well always to be on the safe side in such momentous matters. If the British navy were being more rapidly increased many persons within the Empire would feel more secure than they now do.

His Honor, Lieutenant Governor McKinnon, Premier Hazard and Hon. John Richards in their addresses at the opening of the Poultry Show all recognized the great importance of the poultry industry in this Province. The show is a splendid one, and deserves commendation from the Government in the land. It is due to Governor McKinnon to say that during his term of office he has taken special interest in encouraging our agricultural, dairying and live stock interests in many ways. The Poultry Association is to be congratulated on the success of its second annual display.

A SEPARATION GRANTED.

Not by process of law, but by the silent working of "Putnam's" are corns separated from aching toes. Any corn or wart that "Putnam's" won't cure hasn't been discovered yet. Instant on Putnam's Corn Extractor

Important Telegraphic News the week for Saturday Subscribers

SPECIAL TO THE GUARDIAN.
MELBOURNE, January 6.—A private letter has been received which indicates that Princes Edward and Albert are to tour the Empire in 1911, probably accompanied by a fleet of warships.

MONTREAL, Jan 5.—There is a statement made here to the effect that the coal strikes, which have been on at Cape Breton and Springhill mines for the past five months, will be declared off by the U.M.W. of A. shortly after the meeting of their annual convention at Indianapolis on the 15th of the present month.

OTTAWA, Jan 3.—The proportion in which this year's Western grain crop has been shipped from Canada and American ports is indicated in returns to the Trade and Commerce Department. Shipments to the end of navigation were 1,000,000 bushels, and through Canadian ports was 36,964,367 bushels, and through American ports 19,111,216. Of the latter 17,377,154 bushels went by way of Buffalo. The total number of cars imported to December 14 was 65,483, containing 74,104,680 bushels of grain. The Canadian Pacific handled 10,000 cars, Canadian Northern 15,271 Great Northern 2,693, and Grand Trunk Pacific 3,510.

WORCESTER, Jan 2.—This was the coldest day of the winter in Worcester. The temperature varied from zero to 10 and 12 below in various sections.

ST ALBANS, Vt., Jan 2.—In northern Vermont today the mercury registered from zero to 19 degrees below at different points.

PROVIDENCE, R. I., Jan 2.—It was 0 degrees below zero in the South county today. At Woonsocket the temperature was 3 below.

COLUMBUS, Ohio, Jan 2.—A train from Cleveland, Ohio here at 1:50 A. M., today arrived six hours late. The seating apparatus became frozen shortly after the train left Cleveland. An attempt to thaw out the pipes beneath the Pullman set the car on fire and the passengers were transferred in their night clothes to another car.

MIDDLETOWN, N. Y., Jan 2.—Seventeen degrees below zero was the lowest temperature reported in Sullivan county today.

DECATUR, Ala., Jan 2.—With the thermometer hovering around 5 above zero, a family of six were rescued from the morning, more dead than alive, with one of the children likely to die as a result of the exposure.

NORFOLK, Va., Jan 2.—The coldest weather in five winters was recorded here today as the temperature dropped at 8 A. M. to 13 degrees.

SPECIAL TO THE GUARDIAN.
LONDON, Jan 6.—The German navy menace still holds the field. Mr. Balfour's lead has been eagerly followed by every Unionist speaker, and violent echoes come from Germany, France and Austria. The German papers express a painful surprise that the British Expedition should turn out to be a fire-ship, surpassing the worst anticipations of German agitators. They warn him of the inflammatory effect upon German public opinion, which is peacefully inclined towards the French view is that it is quite useless for Germany to attempt to weaken British measures of defence by fine words, designed to mask German armaments.

LONDON, Jan 6.—The Scott Expedition to the South Pole is now assured, the Government having proposed \$100,000 towards the \$200,000, which is the estimated expense. Public subscriptions of between \$55,000 and \$60,000 have been raised. There will be no difficulty in procuring the small balance required. The expedition will set forth in July next.

LONDON, Jan 6.—John Burns had a mix-up with an unidentified man as he was leaving a political meeting. The Minister was about to enter his motor car when the other sprang upon him from behind and threw him to the ground. There was a lively struggle and the assailant was the police pulled the offender escaped in the crowd and has not been captured.

SPECIAL TO THE GUARDIAN.
BERLIN, January 6.—A convict from the Siena, (Italy), prison has made sensational revelations about the assassination of King Humbert in 1900. He told of the organization of the plot, the drawing of lots among the Anarchists of Paterson, N. J., to decide who was to commit the crime, and other particulars relating to Gaetano Bresci, the assassin, which he heard from a fellow convict hailing from Paterson. The story will likely lead to the arrest of Bresci's accomplices.

TORONTO, Jan 5.—R. J. Fleming, of the street Railway Co., is not perturbed over the vote of the citizens in favor of a tube railway system on Saturday, which is interpreted on all sides as condemnatory of the street railway. Interviewed this morning he said there would be no tubes for several years yet, and that if the city would agree to terms and permit laying of tracks in the centre of the city, the railway company would lay fifteen miles of new tracks and put on one hundred new cars. Then the people would forget all about tubes.

SHAMROCKS DEFEAT MONTREAL.

MONTREAL, Jan 5.—The Shamrocks defeated Montreal six to three last night in the Canadian Hockey association series. It was a rough battle and the result was a surprise, as after the Shamrocks' defeat by Quebec they were regarded as the weakest team in the league.

SOUTHFORD, Pa January 6.—The village of Gilestown has been practically wiped out by flood and fire. No fatal casualties occurred.

SPECIAL TO THE GUARDIAN.
CHICAGO, January 6.—Failing to comply with a demand for \$5,000 in letters signed "Black Hand", B. Sine, 60 years old, an Italian merchant, was shot this morning, while asleep in his store.

His assailants escaped.
IOWA City, Jan 5.—With the worst storm of the winter blowing, a coal famine today forced Iowa State University to close until next week. Only enough coal is on hand in Iowa City to heat the State Hospital for two days. Most families are short of coal. Railroad traffic has been impeded by snow and cold.

SPECIAL TO THE GUARDIAN.
DETROIT, January 6.—Helpless in a great field of ice, six large vessels, including two car ferries loaded with freight cars, are held up in Lake Michigan, a mile out of Milwaukee. Unless a wind changes the boats may be impounded for days. None of the imprisoned vessels are carrying passengers, but each has a large crew.

DESERONTO, Jan. 5.—Bob Durand, an employe of the Deseronto Iron Company, will lose the sight of one eye as a result of hot sand being blown in his face, and Glen Maloney, aged twenty, was badly burned about the face when a toy steam engine exploded. The fire which followed destroyed two houses owned by Mr. Geddes and Mrs. Sims. The loss is \$1,700; covered by insurance.

PARIS, Jan. 5.—French aeroplane pilots believe that the action of the Wright Company in seeking an injunction against Louis Bleriot, is likely to deter foreigners from entering the international cup contest in the United States this year, as the Wright brothers claim that practically every foreign machine, except the Voisin, infringes their patents and therefore all are subject to a similar injunction if they come to America.

BOSTON, Mass., Jan 5.—The coldest day in two winters resulted today from the frost-laden air which swept down from the northwest. The mean temperature for the day, from 8 a.m. to 8 p.m., was but three degrees, according to the official weather bureau report, which gave a maximum of six degrees and minimum of zero for those hours. The mercury fell from 26 degrees at 1 a.m. to three below at 10 p.m. a fall of 29 degrees in 21 hours. This was the temperature on Washington street in the heart of the city where the high building shut out the cold in a measure. Outside the bulbs showed from 4 to 10 degrees below. A biting northwest wind added to the discomfort of the low temperature.

HALIFAX, January 6.—Cheering news has come from the missing Governor and White Head fishermen. Harvey Munroe goes to Canso and reports having seen Munroe's boat yesterday afternoon, also seeing another boat pick the crew off another boat. The steamer Cabot picked up Alden Munroe's boat off White Head. Chief Richard's boat and crew were picked up by the steamer Rappahannock and brought to Halifax. The White Head boat Zeoraya sailed into Beckettton today. This leaves missing three boats and 13 men—two boats and 10 men from Dover and one boat and three men from White Head. The search still continues.

SPECIAL TO THE GUARDIAN.
BRUSSELS, Jan 5.—Le Soir asserts today that the marriage of King Albert and Queen Elizabeth, who was the Princess of Bavaria, was sanctioned neither by the late King Leopold nor parliament, as is required by the constitution. The paper insists that sanction of the marriage by parliament is imperative. Since the confirmation of Leopold's religious marriage the Catholic papers seem disposed to raise a threat against future dynastic issue unless King Albert submit to Catholic influences.

NEW YORK, Jan 5.—Notwithstanding reports of a brewing tung war and the murder of two Chinamen last night, Dr. Wu Ting Fang was the guest of the Chinese Bankers' and Merchants' association at a very formal and very private dinner given in a private dining room of the Tuxedo restaurant, in the heart of Chinatown tonight. Discussing the outbreak of the tung wars at the banquet, Dr. Wu said: "In China we know how to deal with such people. When I read in the newspapers of such things as occurred last night, of the wanton murders committed by these tongs and of their crimes and violence, I am ashamed of my nation, and I am glad that I am no longer its minister. And I am also glad that I am leaving here. You people, you gentlemen of the press, come and ask me about these things and you worry me. For that reason I am glad I am going away."

NEWS AND NOTES FROM ARGYLE

A correspondent writes that the people of Argyle were much incensed during the past two weeks owing to the irregular arrival of mails from Bonshaw which although arriving at Bonshaw about noon did not reach Argyle Shore P. O. till five o'clock in the evening and some days did not arrive at all although the intervening butcher, Mr. Sellar, attended the market in the city during the same stormy season.—Clark Crosby, of Bonshaw had rather a trying experience on New Year's night while going to Argyle to visit friends. His horse being high spirited was some what badly cut on reaching his destination.—Miss Bertha Campbell, teacher, spent her holidays at her home in the City.—The many friends of Miss Florence McEvin and Miss Florence McPhail welcome them home again after an absence of two years in the United States.—Ernest Crosby has gone to take a course in the Agricultural College at Truro.—Alex McEwen has returned from Winnipeg and is spending the holidays at Marshfield.—We are longing to see our friend William McDonald of Bonshaw out again.—D. J. Campbell has erected a new blacksmith shop and is able to attend to the wants of his many customers. We are pleased to see the advance in pork of which many farmers of Argyle and De Sable are taking advantage of and are disposing of their hogs at Albany and Bradford instead of the city as was usual. They are netting 10¢ cents.

Vapo-Cresolene

Established 1879

FOR WHOOPING COUGH, COUGH, ASTHMA, COUGES, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA

Vaporized Cresolene stops the paroxysms of Whooping Cough. Ever dreaded Croup ceases, rest where Cresolene is used directly on nose and throat, making breathing easy in the case of colds. It is the surest and most effective remedy. It is a boon to sufferers of Asthma.

Cresolene is a powerful germicide, acting both as a curative and a preventive of all diseases. Cresolene's recommendation is a thirty years' successful use.

Grand Total \$67.10

Bryan Robinson, Captain.
H. M. Chandler, Treasurer.

MONTREAL, Jan 5.—The definite announcement that Prof. J. W. Robertson, principle of Macdonald college at Ste Anne de Bellevue, had resigned from the head of that institution, which he has so ably directed during the past few years, in order to travel abroad and further study the particular branches of agriculture which has made his name something of a household word among agriculturists throughout Canada as the larger centres of the United States. Some time ago it was rumored that Prof. Robertson was on the eve of relinquishing his charge, but the report was then denied and it was stated that the principal was merely going to take a holiday. Dr. Robertson applied for leave of absence, and to day it was specifically announced that he had served his connection with the college, but that the resignation had not yet been discussed with the Board of Governors of McGill University, nor had any name been mentioned as his possible successor.

Dr. Robertson is in Ottawa today completing certain arrangements before sailing at the end of the month for the St. Corsican for England. During his travels Principal Robertson will seize the opportunity of giving to public bodies information as to the resources and development of Canada.

MARRIED.
HIBBETT—WHEELER—In this city, on January 4th, 1909, by Rev. T. W. Murphy, Geo. Hibbett of Georgetown to Mrs. Gertrude Wheeler of Boston.

MURCHISON—MCPHAIL—In this City, Jan 4th, 1909, by Rev. G. E. Ross, Dr. Murchison of Clyde River to Miss Sophia McPhail, City.

DOEKER—ROSS—At Watermore on Dec 22nd, 1909, by Rev. D. McLean, Geo. B. Younker of Oyster Bed Bridge to Miss Jessie Ann Ross, daughter of John A. Ross of Cymbria.

DIED.
McNAUGHTON—At Winsloe, on Jan. 6th, Duncan McNaughton, Winsloe, aged 70 years. Funeral notice later.

(Boston papers please copy.)

OBERTSON—At Mt Hope, Dundas, on the 20th of December 1909, Mrs. Jas Robertson, in the 64th year of her age.

A RARE CHANCE

The subscriber will sell by Public Auction on the premises at Lower Monague, Lot 55, his farm of one hundred and five acres with stock, implements, crop and household furniture, on Wednesday the 23rd day of January, A. D. 1910 commencing at 1 o'clock P. M. and continuing until all goods are disposed of.

The farm is one of the best in this Province, with a fine dwelling and large barns all in first class repair, fronting on the south side of Monague River near Monague Bridges and within three quarters of a mile of W. A. Poole & Co's wharf. The best markets for farm produce are almost at the door. School is on an adjoining land. An abundance of a beautiful and progressive settlement is one of the most desirable farming properties on this island.

So extra care for stock owners advanced age. At the same time and place the following personal property will be sold.

- 4 cows in milk
- 8 head other cattle
- 2 horses
- 1 foal
- 1 breeding sow
- 4-1 months old pigs
- 90 hens
- 1 gang plow, 1 building plow, 1 bind, 1 sceder, 1 mower, 1 spike tooth harrow, 1 horse power & threshing, 1 set fan mowers, 1 buzz saw, 1 single plow, 1 grain stone, 1 machine-knife sharpener, 1 cream separator, 1 set 2 runabout sleighs, 1 drive line, 1 set driving harness, 1 set driving harness, 2 sets working harness, 2 sets leather traces, 1 pad, 1 hay fork and fall.
- About 100 stacks green oats for feed.

A quantity of flour, barley, timothy seed, potatoes, turnips, carrots, parsnips & other vegetables, in the garden, including a complete parlor, dining room, sitting room, bedroom and kitchen furniture, organ, carpets, curtains, pictures, crockery and glass ware and a lot of miscellaneous goods.

Two thirds of purchase money of farm may remain secured on same.

All sums under \$10.00 on personal property to be paid in cash, over the amount, nine months credit on approved joint notes.

For further particulars apply to Messrs. Matheson, MacDonald & Stewart or to the undersigned.

GEO. REX. PETERS.
