MADE TO KISS THE FLAG

RACINE, Wis.—John Robush employed at the J. I. Case Tin Company plant, was forced to kiss the American flag by 300 of his fellow employees today after he had alleged to have declared that he would not register and would not fight for the United States. The man was made to crawl on his knees to the flag, which had been spread upon the floor, and after kissing it he was compelled to salute. The police informed him he would be arrested if he failed to register before the close of the booths tonight.

WHAT HE THOUGHT

The hostess had been coaxing a young lady to sing, but to no purpose. "What do you think of a girl who can sing and won't sing?" she asked of a bachelor guest. "I think," replied he, "that she's worth a dozen girls who can't sing but will sing."

Sunday School.—The Baptist Sunday School meets tomorrow at 12.15 immediately following the morning services. All members of the school are urged to be present.

Two D.S.O.'s in the Family.—Mr. and Mrs. Benjamin Bremner of this City have the proud distinction of having two sons-in-law in the D.S.O. class, Major D. A. McKinnon, D.S.O. who was decorated the other day and Major J. de Castilla, D.S.O. who was decorated for service in the Boer War. Both are serving King and Country, the former in France and the latter with the Imperial Forces in German East Africa.

A Big Show.—The triple feature programme shown at the Prince Edward Theatre to large houses yesterday afternoon and evening was more than "good." The many friends of that universally popular comedian, Charlie Chaplin, were on hand (and he made a host of new ones) last night to see him in "Easy Street." The "filmdom" critics called it "the biggest and most judicious farce of its kind" but the Chaplin admirers and, in fact, all present said it was truly, a laugh from start to finish. The final chapter of "The Crimion Stain" was, of course, the most interesting of the series. "The unmasking" discloses the identity of "The Crimion Stain." Already "The Mystery of the Double Cross" has a big following last night the first episode was shown the acting of the excellent and versatile cast, especially the stars Mollie King, Leon Bary and Ralph Stuart, in this chronicle as the best mystery story ever produced. It followed with the closest attention, it bids fair to be the "best serial" drawing card yet put on at the Prince Edward. Such a show is a credit to the management and a great pleasure to see. No doubt, equally as large audiences will see the performances today, which are: Matinee at 3.15, evening shows at 7.00 and 8.45.

Two High-Powered Wireless Outfits Sent into Mexico. NEW YORK—Evidence that two complete high-powered wireless installations, assembled here from various sources, were shipped piecemeal to Mexico, supposedly for use of a German spy system in this country, was unearthed today in connection with the arrest of three men on charges of conspiring to send mail containing military information surreptitiously from the United States to Germany through members of Norwegian-ship crews.

It was estimated by the United States commissioner, before whom the alleged plotters were arraigned, that it was through their instrumentality that advance news of the impending arrival in England of the American destroyer fleet was sent to Germany before it even became generally known in this country that it had sailed.

With only the surface of the mass of evidence in the government's hands scratched, indications have been found that the secret mail system was operated both ways between the United States, Germany and Mexico. Several hundred letters have been seized, written in English, German and Spanish and some apparently in code.

The prisoners are Harry F. Perissi and Irving Bonaparte, both said to be American born, employed by a German electrical company here, and Axel E. Melchar, said to be a naturalized citizen from Sweden. They are charged with conspiring to induce members of the crews of two Swedish steamers, chartered to carry regular United States mails, to take letters and packages from this country destined for Germany, in violation of the law prohibiting competition with the United States mail.

When the three were arraigned before United States Commissioner Hitchcock, bail was fixed at \$25,000 for Perissi and Bonaparte, and \$20,000 for Melchar.

A despatch from Washington to the Associated Press tonight says that if the three men are connected by the evidence with the forwarding of sailing of American destroyers, a military court martial is one of the possibilities facing the prisoners. If a military trial develops it would be conducted under an article of war, which prescribes the death penalty.

Great cleanliness as well as care and attention is required from the cook. Keep your hands very clean; try to prevent your nails from getting black or discolored; don't scatter in your kitchen—clean up as you go.

Put cold water into each saucer or steppan as you finish using it. Dry your saucers before you put them on the shelf.

Scour tins with good soap cleanser, rinse thoroughly in hot water. In cleaning greasy utensils such as the soup pot or the frying pan, wipe the worst of the grease with soft paper (use newspaper), then soak in warm water to which soap powder or a little ammonia has been added.

When boiling milk most people throw away the skin which forms as the milk cools. This skin is, of course, the cream of the milk, and by throwing it away the richness of the milk is wasted.

Instead, when the milk is just boiled put it into a pitcher and stand it in a basin not as deep as the pitcher and let cold water run into the basin to cool the milk quickly. At the same time stir the milk, and the cream will intermix again. When the milk is cold there will be so skin, and it will therefore be as rich in cream as before being boiled.

Your Very First Baking with Beaver Flour, will show you the difference between this perfect blended wheat flour—and the usual western spring wheat flours. The light, flaky Pie Crusts, Cookies and Doughnuts—the delicious, "homey" nutlike flavor of the Bread and Rolls—will be doubly welcome after the tough, almost tasteless bread made with western spring wheat flour. BEAVER FLOUR MILLED OF BLENDED WHEAT is the choicest Ontario fall wheat, strengthened with western spring wheat; and is equally good for bread and pastry. Order a trial barrel today.
