"Who was the greater man, Wellington or Napoleon?" was the subject for discussion at the C. B. C. Debating Society on Saturday evening. There was a large attendance of the students, but the speakers were few. Mr. Clarke opened in favor of Wellington and was followed by Mr. Dunstan who in an exhaustive speech narrated the qualities of Napoleon, as man, statesman and general. The subject was then opened to the members for argument. Miss Bolger and Miss Sobey spoke decidedly in favor of Wellington, using chiefly the motives of the individuals as basis for their contention. J. O. Trainor in a lengthy but very argumentative speech upheld the name Napoleon. Other speakers were Messrs. MacDonald, Gallant and Trainor. After the closing speeches were delivered the ballot was passed and resulted as follows—Wellington 28, Napoleon 12. It is to be feared that many voted out of loyalty rather than according to the arguments brought forth by each side. The subject for the next meeting is—"From which do we derive most pleasure—winter or summer sports."

OUR GENERAL PRICES ARE NOT SO HIGH

that we have to use a bait to induce customers to enter our store. It does not take much of a reasoner to see that it would not pay them to deal at that sort of store. Our prices all round are so low that we could not, unless we had stolen the goods, cut say 25 per cent off an already cut price. It is against sound business principles, and if we did it we would have to take it out of our customers in some other way, should we get the opportunity. It is up to you to avoid us, if you think we are quacks in the furniture business, as you would a quack doctor. Trade where you are sure of honorable and honest treatment—where you are sure of a low price on everything all the time—that is at **JOHN NEWSON'S** The Reliable Furniture Man.

By proper treatment it can be restored to health to do the work nature intended it for. Give your teeth attention before it is too late.
