CIVIC MATTERS.

Very seldom have civic matters run more smoothly or has more advance and improvement been noted than during the two years term drawing to a close. This speaks well for the present Mayor and Council. As the elections are due in February next it is time our citizens were thinking of the men whom they will select to fill these important positions for the two years to come. As yet we have heard but few names mentioned except of those who are already in service. A good many are desirous that Mayor Paton shall consent to be again a candidate. He has made an excellent Chief Magistrate, but declines a renomination for the coming term.

Councillor Hooper is in the field for Mayor, after fourteen years of creditable and almost continuous service at the Council Board, including four years as Chairman of the Finance Committee. Some other names have been mentioned but, so far as we know, without their definite authorisation. How many of the present Councillors desire to retain their present seats we do not know, but we presume that they are not insensible to the honor of sharing in the City government. We shall hear from them in due time.

A correspondent complains of laxity in the enforcement of prohibition in Summerside. He mentions that four months ago an old offender was convicted and commitment paper made out and given to an officer to serve. The commitment has not been served, although officer an offender have been seen in the street near together. In another case of information against a druggist the same officer served the summons on a clerk, instead of on the person charged, and so led to the case being dismissed. The correspondent wants to know who is to blame for these failures, the officer, the Town Council or the Government. Clearly the officer is not doing his duty, if the facts are as stated.

It is gratifying to know that this year the Stanley and Minto are ready in good time to take up the winter service. The Minto goes on the Charlottetown Pictou route this morning and the Stanley is expected to go on the same route early next week. This will prevent any break in the continuity of the service, and with both the Steam Navigation Company's boats and the winter steamers running should afford good opportunities between this and the close of navigation for shipping much of the produce now awaiting transportation.

"Get A Skate On"---Both Feet

Speed skaters use Tube Skates because they run easier and they are lighter. Get a pair and be convinced? I am handling the two best makes—the "McCulloch" and the "Dunne." The Dunne is a diamond tube reinforced on the inside, thus making it impossible to be dinted or bent. The ladies' styles are very pretty and neat. I am also handling a speeding and hockey shoe, specially designed for tube Skates. Skates sharpened and riveted to Shoes a specialty.
