SIR FREDERICK BORDEN SPEAKS AT A NAVY LEAGUE MEETING.

Says Canada Cannot Give Money Without Having Voice In Its Expenditure.

OTTAWA, Nov. 25.—Canada's contribution to Imperial defence was somewhat unexpectedly forced upon the public attention by the remarks of Sir Frederick Borden, at a meeting held yesterday afternoon in the Board of Trade rooms, convened to hear Mr. J. H. F. Wyatt, envoy of the British Navy League, to discuss the aims of the League. The speaker emphasized the necessary for the British navy as essential to the integrity of the Empire. He spoke of Germany and France "with their ambitious jealousies and rivalries," as "a constant menace to the power of the Empire and her best source of safety lies in preserving each part of the Empire from danger by a powerful sufficient and efficient navy." The Navy League, he said, had formulated a scheme for the creation of a Canadian naval militia which should receive its training for sea in the ships of the British navy.

Sir Frederick Borden, introduced by President Coates, said: "I came to listen not to speak, but as a representative of the Government, I am glad I have heard the excellent remarks of Mr. Wyatt on defence. The Government of this country recognizes the importance of an efficient defence, and I am quite sure the people recognize their duty to put themselves in a position to bear a fair share of the burdens of the Empire. Because people differ as to the means is no reason for saying they are against the measure. The British Government takes the view that all matters of naval defence should be under the control of the Admiralty and suggests that the colonies contribute a sum of money each year to the expenses of the navy. The Canadian Government does not assent to that. The country has expressed the desire to help the mother country and to take the first steps to form the nucleus of a navy. I shall be pleased to study any scheme that may be proposed and feel quite sure that some understanding may come. The Canadian Government is not trying to dodge responsibility, but at present is not prepared to ask taxpayers to expend any money without having a word to say on the expenditure of it. I know that one of the best guarantees of the integrity of the Empire is to be absolutely prepared against any possible contingency. I am grateful to Mr. Wyatt for his address. There is ample room to encourage and educate in the matter, and it is highly desirable to hold meetings of this sort and carry on the work."

Sir Jas. Grant and Rev. S. G. Bland followed in brief speeches, approving the formation of a league in Ottawa, and Sir Frederick further supplemented his remarks, saying: "Canada in all matters of defence goes hand in hand with the Imperial authorities. She sent men to support the mother country in South Africa: the time may come when she will send ships on a similar errand. But nothing will be done hastily, and what is accomplished will be done step by step hand in hand with the Imperial authorities."

It was resolved to form a league and the gentlemen present signified their intentions of becoming members of it.

A GOOD SAMARITAN.

Being Helped Himself Wishes to Help Others.

The papers were never so filled with advertisements of remedies that will cure every known disease, as they are today; these are invariably accompanied by letters from people testifying in the strongest terms to the virtue and merit of the particular preparation advertised; but because so much is claimed for the medicine, it has come to the point where most readers regard such testimonials as pure "fakes" and made up out of whole cloth.

We are glad however to vouch for the reliability of the following from Mr. Wm. Lichtenwalter; proprietor of the largest printing house in Canton, Ohio, regarding the Pyramid Pile Cure, for which nothing is claimed except that it will cure any and every form of Piles.

"For several months past I have received so many inquiries from sufferers asking if my testimonial is authentic, that I am inclined to send in a bill to you for postage and stationary

It is now two years since I was last troubled, and my rectum is as clear and clean as any man who never had piles, although I suffered with protruding, bleeding and internal piles for twenty-seven years. I will not attempt to detail the agony I suffered, being too happy to say I believe I am cured, after two years of evidence.

What will cure one man will sometimes not cure another; whether it was the Pyramid Pile Cure that cured me, I cannot say; but I have been free from piles for two years after using your treatment. I leave sufferers to draw their own conclusions.

I will answer any communication that a sufferer may ask, and will refer to any business house, bank or manufacturer of Canton, Ohio, concerning my identity, among whom I have lived for forty-eight years."

Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address by Pyramid Drug Co. Marshall, Mich., upon receipt of price.

Drop this firm a card asking for their little book describing the cause and cure of piles.

HERR KRUPP WAS NOT A SUICIDE

German Gunmaker Died From Natural Causes

SO PHYSICIANS DECLARE

Health Precarious for Several Years —Had Been Subject to Frequent Fainting Spells.

BERLIN, Nov. 26.—The first assumption that Herr Krupp, the great gunmaker, whose death was recorded recently committed suicide is yielding to precise and abundant testimony to the contrary.

Prof. Binswanger, a physician of the highest reputation, was in the apartment adjoining Herr Krupp's sleeping room when he was stricken Saturday morning, and Dr. Pahl, Herr Krupp's family doctor also was in the house. They summoned several other physicians, and it is regarded as being beyond belief that all of them should have connived at a concealment of the cause of death, which they ascribe to a stroke of apoplexy, induced, they add unofficially, by mental excitement from which Herr Krupp was suffering.

Herr Krupp's medical history for several years past indicates that he was in delicate health, He was asthmatic; had a weak heart, and was subject to fainting spells. He fell to the ground unconscious while in Genoa several years ago and again while at dinner at a hotel here eighteen months ago.

WARNED TO AVOID FATIGUE.

He had been warned to avoid overfatigue and worry. He was at Hamburg on Thursday last and at the Hamburg hof it was observed that he was in a highly nervous condition and scarcely in control of himself, His condition accounted for the presence of two physicians in the house at the time of his death, one of hem being Prof. Binswanger.

Mrs. Krupp was sent for from Jena. She is suffering from a nervous malady, but was brought to Essen in a special train, arriving there this morning. The funeral has been fixed for Wednesday. Chancellor von Bulow, all the ministers, and a great number of other officials, following the example of the emperor, have telegraphed their condolences to the widow. Herr Krupp leaves two daughters, who are at school, one, named Barbara, aged 17, and the second, named Bertha, 15 years old.

HIS VIEWS ON LABOR.

Herr Krupp's favorite study was to think out schemes for improving the well being of the lower classes, which he applied practically to what are called "labor colonies." He assented seemingly to most socialistic principles, except that he held tight to the wage system, averring that the wage earners were not yet sufficiently developed or self-controlled to regulate for themselves a just system of profits.

It is mentioned as an odd chance that a man who applied social reform ideas in so extensive a way should have been crushed by a social democratic newspaper, which however, regarded his measures to ameliorate the condition of the laborers as not touching the question of economic injustice.

BUILT 5,460 HOMES.

Herr Krupp's father started the system of modern dwellings for the workman as a matter of expediency, and Herr Kurpp himself appears to have developed them from conviction and in accordance with his ideals. He owned 5,460 dwellings, each being constructed with variations in the architecture to avoid monotony. Each house had a front yard, in which were bits of ornamental gardening; the outside coloring and interior decoration gave a certain aesthetic unity, while there was plenty of space and light.

GAVE MILLIONS TO EMPLOYES.

Herr Krupp had also a variety of institutions, some of them singular, such as "bachelors' homes" and "widowers' retreats." Besides convalescent hospitals and orphanages he had a pension fund for his employes amounting to $4,125,000. He contributed last year, as required by the law, $872,000 to the national insurance fund, and gave voluntarily $1,000,000 to other insurance funds. Notwithstanding his benevolent interests in the laborers, he was an autocrat in the management of his concerns. He was almost unknown by sight to his workmen, and rarely visited the works or even his offices. He spent several months every year on the Island of Capri, and managed his gunworks, rolling mills, iron mines, and shipyards by letters and telegrams.

DOUBLED FATHER'S FORTUNE.

Unlike his father, Herr Krupp took no interest in the technical side of his business, yet in fifteen years he more than doubled the fortune which he inherited. Since their foundation the Essen factories have turned out 41,000 pieces of artillery. Herr Krupp resented being called the "Cannon King," and he said that half of all the output of his works was civilizing products, such as railway and merchant ship material and structural steel.
