Optical Results
Every Optometrist looks for results from his work. If he isn't getting good results from his corrections he gradually loses his standing and his patients drop off. We are getting results from our corrections and that is the reason our Optical business is increasing. Our Optical Service is superior. Patients tell us that before we came to Montague they had to go to Charlottetown or elsewhere to have any special work done. Now, that is all changed and they can get all special work done at home. We have the most modern scientific instruments for the detection of eye defects. So if in need of glasses come to us and get your eyes tested and insure best results.
