ONE RECRUIT SIGNED ON AT KINGSTON

The recruiting meeting at Kingston on Monday night attracted a large gathering, the hall being completely filled. Rev. Dr. Fullerton presided. Rev. John J. Macdonald delivered an excellent address in which he presented in an able manner the claims of the Patriotic Fund.

Other speakers were Dr. Alexander Murchison, Councillor G. D. Wright, Rev. Dr. Fullerton and Dr. W. J. P. McMillan, the last mentioned giving a capital address in the interests of the navy. The addresses in each case were clear-cut, convincing arguments to show the need of more men to fill up the gaps which have been made in the forces of the Empire and to ensure a complete and crowning victory for the cause of justification and liberty for the world.

One recruit signed the service roll of the 105th Battalion Reinforcements, —William Cass, son of Mr. Thomas Cass of North River.

An excellent musical program was carried out, in which Professors Hinton and Barlow delighted all with their splendid vocal numbers.

The recruiting party got back to the city about 1 a.m.

RESOURCEFUL

"Kitty is such a resourceful girl."
"Is she?"
"Why the other day when she'd left her reticule at home she powdered her nose with a marshmallow."

LIMITATIONS.

"Remember," said the booking agent, "the Op'ry House at Junksville can book only a certain line of plays."
"What's their specialty— something educational?"
"Not that. But the Op'ry House is over a livery stable, and any show liable to scare horses can't be booked."

A Blood-Food Discovered That Entirely Overcomes Anaemic Weakness

CAREFULLY INVESTIGATED REPORTS ESTABLISH TRULY WONDERFUL RESULTS.

Heretofore it has often been a hopeless task for a thin-blooded person to gain either strength or weight. Neither food or medicine in many instances had beneficial effect.

What is practically a perfect Blood-food, containing such elements as Iron, has at last been produced, and when taken after meals will put new life and vigor into people that have despaired of ever being strong again.

This truly wonder-working treatment consists of taking two small chocolate-coated Ferrozone Tablets at the close of every meal.

This wonderful blood-food supplies nourishment, vim, energy— sends a stream of vigorous, strength-making blood to every nook and corner of the body, makes every muscle and fibre sing with new-found life and health.

That gnawing tiredness leaves you —Ferrozone drives it away. Sleepless nights are turned into periods of rest, and you pick up fast. Day by day your appetite improves,— this means more food is transformed in nutriment that will build and energize weak organs. The inclination to worry passes away because Ferrozone imparts nerve— tone and bodily strength and prevents depression.

Think it over—Ferrozone is a wonderful tonic, in fact, it is more than a tonic, because it establishes health that lasts. Thousands use it and thereby cleanse and restore the entire system to a perfect condition. You'll feel the uplifting power to help you if you only give it the chance. Sold by all dealers, 50c a box or six boxes for $2.50; be sure of the name Ferrozone. Forwarded by mail to any address if price is remitted to the Catarrhozone Co., Kingston, Ont.

Public Auction

I am authorized by J. Heber Crosby Marshfield to sell by Public Auction on Thursday, Feb. 1st, at 2 o'clock, sharp.

A quantity of straw in stacks, 20 tons of hay, 300 bus. oats and mixed grain, 25 bus. wheat, 800 bus. turnips.

$5.00 and under, cash over that amount ten months' credit on approved joint notes.

If day proves stormy sale will be held on Saturday at same hour.

PETER BRODIE.
Auctioneer.

MORE DRINKING UNDER PROHIBITION IN ONTARIO

OTTAWA, Jan. 23— Since the beginning of the jail year, October, 1916, the number of prisoners in the County Jail for drunkenness has increased nearly three hundred per cent, according to statistics obtained from the official records of the Carleton County Jail. During the first 115 days of the present jail year, there have been 154 persons incarcerated for drunkenness, as compared with 53 during the corresponding period last year, when the bars were open in Ontario. Since the prohibition came into effect, the number of inmates for drunkenness has tripled.

Besides this large proportionate increase there is more to be added as the jail figures do not include those fined in the Police Court for being drunk, and those who were not, after conviction, sentenced to serve jail terms.

On the other hand, since September 16, drunkenness has become a statutory offence in the Province of Ontario, and is being much more severely dealt with than in the days when products of distilleries were dispensed over local bars. Followers of John Barleycorn have constituted 46.5 per cent of the jail population since the jail year began.

Up to last night there had been 331 persons committed to the Nicholas street institution, and of this number 154 were for drunkenness.

Besides the big increase in the commitments for drunkenness, there have so far been five individuals sentenced to serve terms in Kingston penitentiary which are of a duration of two years or more.

AN ICELAND VISITOR

A little ship from Iceland has turned up at New York with a cargo of skins and herring, and 37 of its sturdy passengers have gone to reinforce the army of agricultural occupation in the Canadian Northwest. Iceland has felt the far-grasping hand of war in her exclusion form certain European markets, and this vessel, the second to arrive from "Ultima Thule" since the war began, is also presumed to be the second since the shadowy figure of Leif Ericson visited our coast about nine hundred years ago. The "Vineland" that he found may have been Labrador or Newfoundland, or even the coast of New Jersey. The latter is most probable, as affording the best warrant for Leif's pseudonym. "The Lucky". For the first visitor to Atlantic City was indeed a fortunate fellow. There was plenty of room; the rates were low, the politics were as pure as the sea breezes. The change from the shipboard diet of pumicestones and kelp to lobsters a la Newburg and chicken a la King must have been most welcome. The three ships in 900 years have not overcrowded the sea highway between our land and Iceland. Let us hope that in the next millennium the number will be considerably increased.—Philadelphia Ledger.

An Officer's Thanks

Mrs. Jane Walker, Cape Traverse, has received the following letter from France:

Somewhere in France,
25, 12, '16.

Dear Mrs. Walker,—I wish to extend to you every thanks for your kindness in sending us the Xmas stockings.

They came as a great source of happiness to our boys in the trenches, and I am merely voicing their thanks to you and the other kind Daughters of the Empire. I wish also to thank you for the sincere wishes extended to us on your card.

In conclusion I wish to extend to you very sincerest wishes for a very happy and prosperous new year. I have the pleasure to remain,

Yours truly,

T. F. MURRAY, Lieut.
11 Canadian Mac. Gun Co., France.

Nuxated Iron to Make New Age of Beautiful Women and Vigorous Men

Say Physicians—Quickly Puts Roses in the Cheeks of Women and Most Astonishing Youthful Power into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous, "Rundown" Folks 200 Per Cent. in Two Weeks' Time

A Wonderful Discovery Which Promises to Mark a New Era in Medical Science.

NEW YORK, N. Y.— Since the remarkable discovery of organic iron, Nuxated Iron or "Fer Nuxate," as the French call it, has taken the country by storm. It is conservatively estimated that over five million persons daily are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous iron men.

Dr. King, a New York physician and author, when interviewed on the subject, said: "There can be no vigorous iron men without iron. Pallor means anaemia. Anaemia means iron deficiency. The skin of anaemic men and women is pale. The flesh flabby. The muscles lack tone; the brain fags and the memory fails and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks.

"In the most common foods of America, the starches, sugars, table syrups, candies polished rice white bread soda crackers, biscuits, macaroni, spaghetti, tapioca, sago farina, degerminated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss.

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form or organic iron, just as you would use salt when you food has not enough salt."

Dr. Sauer, who has studied abroad in great European medical institutions, said: "As I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by a lack of iron in the blood.

"Not long ago a man come to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with a blood pressure of a boy of twenty and as full of vigor vim and vitality as a young man; in fact, a young man he really was, notwithstanding his age. The secret, he said, was taking iron— Nuxated Iron had filled him with renewed life. At thirty he was in bad health; at forty-six he was care worn and nearly all in. Now at beaming with the buoyancy of youth. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while doubling their strength and endurance and entirely rid themselves of all symptoms of dyspepsia liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in the blood of her children, is, alas! not that kind of iron. You must take iron in a form that can be easily absorbed and assimilated to do you any good, otherwise it may prove worse than useless. Many an athlete and prize-fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray; while many another has gone down in inglorious defeat simply for the lack of iron."

Dr. Schuyler C. Jaques another New York physician, said: "I have never before given out any medical information or advice for publication, as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy."

NOTE.— Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufactures have such great confidence in nuxated iron, that they offer to forfeit $100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and increase their strength 200 per cent or over in four weeks' time. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Geo. E. Hughes, Apothecaries Hall. E. A. Foster Central Drugstore, H. J. Mahon, Montague and all good druggists.

THE SKATING FASHION.

The latest acquisition to Ottawa's skating enthusiasts is Miss Martha Johnson, the well-known Swedish instructress who has been engaged to teach the members of the Rideau Skating Club. Miss Johnson arrived from New York last week, and has already taken up her numerous duties. In addition to the Rideau Skating Club she is also instructress to the skaters at Government House. Her Excellency the Duchess of Devonshire is an excellent skater, and has been taking a few additional lessons from Miss Johnson in the more advanced style. The Ladies Cavendish are likewise learning from the Swedish expert.

Miss Johnson has been skating since she was able to toddle around, and she goes to Ottawa with the highest recommendatons. She was professional at the St. Nicholas Rink, New York for several months and before coming to America was engaged at the Princess Skating Club in London. She is one of the most graceful skaters in the world, and has already created a most favorable impression in the capital. Members of the Laurentian Skating Club have also been receiving lessons from her, and there is no doubt that she will be permanently attached to the local organization.

Miss Johnson is a fascinating little lady of the most pronounced blonde type. She had offers from many parts of the United States, but preferred to come to Canada, and is delighted with the capital.

::Soft corns are difficult to eradicate, but Halloway's Corn Cure will draw them out painlessly.
