Winnipeg—Wheat closed lower.

EXCHANGE

(Canadian Press)

MONTREAL, Oct. 11—Butter, flour and produce market today while other commodities held unchanged. At the weekly auction held today 588 boxes of No. 1 Quebec butter sold for 19 1/2 cents a pound and 808 boxes of No. 2 Quebec cheese for 9 1/2 cents a pound. The butter market was generally quoted at 19 1/2 to 20 cents a pound for carlots or less of no. 1 grade, which compared with 19 to 19 1/2 cents yesterday. A total of only five boxes was offered for sale.

Ontario cheese brought 10 1/2 to 10 3/4 cents for white and colored with Quebec at 9 1/2 to 10 cents, off 1/4 to 1/2 cents from yesterday. Poor demand from overseas is leading to the depression of prices here, which traders hope will lead to a resumption of sales. Arrivals totalled 5,966 boxes.

Graded shipments in carlots or less brought 32 1/2 to 33 cents a dozen for extra, 27 cents for first and 16 cents for seconds for Ontario with westerns remaining at slightly lower levels. Receipts were 300 cases.

The potato market held at 65 to 70 cents per 80 pound bag for No. 1 and 70 to 75 cents for No. 2 Brunswick green mountains.

LIVESTOCK

(Canadian Press)

MONTREAL, Oct. 11—Offerings on the two Montreal livestock markets today totalled 529 receipts and 166 disposals of 21 cattle, 319 sheep, 317 pigs and 12 calves.

Cattle—All calves were steady. Lambs were firm at \$5.85 for good ewes and wethers, with culls and bucks sold at a cut of \$2 per cwt. Sheep were from \$1 to \$3.

Hogs were barely steady at \$6.15 for fat and dressed. Selects drew \$1 per pound and lights were cut 25 cents per cwt. Hens were 20 cents and extra heavy \$1.15. Poultry were also steady. Sows were from \$4 to \$3.50 according to quality.

GRANVILLE AND VICINITY

Miss Dorothy MacDowell, Pleasant Valley was a recent visitor to Charlottetown.

Among those whom attended the Fair at Charlottetown were Mrs. W. Patterson and Miss Helena McMillan of Hunter River.

Miss Alice Weeks spent the last week end with her parents Mr. and Mrs. John Weeks of Pleasant Valley.

Mr. Horace Cutcliffe was a recent visitor to Kensington.

Mr. Jack Hickox of Springville was a recent visitor to Granville, the welcome guest of Mr. and Mrs. James Talper and family.

The people of Granville are pleased to have the "Old Mallet Mill" again in operation. This mill has recently been purchased by Mr. Percy Howatt of Elliotts.

Mr. and Mrs. Cecil Mallet have returned home after spending a few pleasant days in Boston, visiting Mrs. Mallet's sister.

The people of Hunter River and surrounding districts were sorry to hear of the loss sustained by Mr. Edward Smith, his house having been destroyed by fire last Wednesday night.

Mr. and Mrs. B. H. Haslam have returned to their home in Springfield after spending a few days visiting relatives in Cornwall.

CENTRAL GUARDIAN

This column is reserved for Queen's County news of local interest but advertising of a new way may be inserted at 4 cents a word strictly payable in advance.

CHURCH OF ENGLAND Services in the Parish of New London on the 15th inst will be as follows: French River, 10:30 a. m.; Burlington, 2:30 p. m.; Kensington, 7 p. m. Rev. E. O. Lancaster, of Milton, will preach and conduct all services. G. T. Spriggs, Rector.

NEW LONDON group of the Presbyterian Church in Canada, services on Sunday, Oct. 15th, will be as follows: 11 a. m. Long River; 2:30 Clifton; 7:30 Geddie Memorial. The masonic service which should have been held last Sunday was postponed owing to the inclemency of the weather. The members and friends of Prince Edward Lodge No. 14 A.F. & A.M. of Stanley Bridge will attend Divine Service at Clifton Presbyterian Church at 2:30 p. m. on Sunday, Oct. 15th.

Crop Report

Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation and are in close touch with crop conditions in all sections of the districts mentioned.

General

Threshing operations have been practically completed in Manitoba and the southern areas of Saskatchewan and Alberta, but considerable grain is unthreshed in the northern districts of the latter two provinces. Rains have delayed operations and caused some lowering of grades, but have improved soil conditions and pastures. In Quebec a good crop of ensilage corn has been harvested and root crops generally are good. In Ontario the ensilage corn crop is slightly below average; the apple crop good; and the tobacco yield slightly less than average. In the Maritime Provinces the apple crop is heavy and of good quality; other crops promise well. In British Columbia wet weather has adversely affected crops in most districts and the threshing of grain has not yet been completed, the yield of which is estimated at 80% of average. Details follow:

Prairie Provinces

Alberta Northeastern Area—Threshing has been delayed. The average yield is 10 to 12 bushels, mostly No. 2, with some tough. Alberta Southeastern Area—Harvesting is almost completed. The average yield is 8 to 12 bushels, grading 1 to 3. Alberta eastern Area—In the north threshing is about 35% completed. The average yield is 20 to 25 bushels, mostly contract grades. In the south threshing is almost completed, with the average yield 10 bushels and grades good. The sugar beet factory is slicing 1,200 tons daily. A total crop of 150,000 tons is expected. Saskatchewan Northern Area—Wheat is about 70% threshed, with yields hardly up to earlier estimates. About 40% of the coarse grain acreage remains unthreshed. The land is in fairly good condition for working. Saskatchewan Southern Area—Threshing operations are nearing completion, with results generally disappointing. Little fall ploughing has been done in light crop areas due to the lack of feed and the dry condition of the land. Manitoba—Threshing is practically completed except in the Swan River Valley, where operations have been delayed by heavy rains. There is a wide variation in yields but an estimated average wheat yield of 13 bushels appears justified. Much of the coarse grain will be used for feed. Fall ploughing is well advanced.

PERSONALS

Mrs. W. E. Dougan returned last night from a visit to Nova Scotia. While there she attended the Halifax Exhibition.

Mr. Colby C. Lewis, Freetown, was in the city yesterday on business.

Mr. Tom Guy, Sydney, N. S., is the guest of Mr. and Mrs. W. V. Purdie, Esplanade.

Misses Mary and Louise Jenkins, City spent Thanksgiving at their home in Annanda.

Misses Helen McKinnon and Ellen Young of this city have returned after a well earned vacation spent in Boston, New York and other American cities.

Mrs. Edgar Heartz, Mrs. Walter Wilson and Mr. and Mrs. Guy Rodd have returned by motor after a pleasant trip through the Maritimes.

Mrs. Elmer Harris and her two sons, who have been spending the summer at Fortune, will leave today on return to their home in Beverly Hills, California.

Miss Rose Ryan, who has charge of the Max Factor Cosmetic Department of Watson's Drug Store, Saint John, N. B., is spending a few days in the city, and receiving a warm welcome from her many old customers.

Mrs. Fred Webster has returned to her home in Dunstaffnage from a visit to Halifax and other Nova Scotia points. While there she visited her brother Dr. F. C. Lavers, her sister, Mrs. G. F. Owen, her niece and nephew, Mr. and Mrs. Fred Owen and other relatives.

Province of Ontario

General rains throughout the province have improved conditions for ploughing and facilitated fall wheat seeding operations, which are progressing satisfactorily with indications of an increased acreage of from 25% to 50% over that sown in 1932. Grass pastures have shown marked improvement and are now in fairly good condition. Grapes are being cut and marketed in large quantities; wineries are paying \$10 a ton for bulk grapes. Harvesting of a slightly less than average tobacco crop is practically finished; due to less favorable growing conditions, the quality generally is not quite equal to that of last year.

Province of Quebec

Favourable weather conditions continue for harvesting. Oats are yielding fairly well while other grains are below average. Potato digging is general; the yield will be under average. Apples are plentiful but the quality is only fair. Fall ploughing has commenced in most districts. Grass pastures have benefited by recent rains. The tobacco crop is slightly below average but of good quality.

Province of British Columbia

Tomatoes have been damaged by frost and the large crop that was indicated will be reduced to about an average yield. Onions and potatoes are being harvested and yields in most districts but it is expected the yield will be up to average; other root crops promise well. A heavy apple crop of good quality is reported. Grass pastures are satisfactory.

LO.D.E. PRESENT BRIEF TO S'SIDE COUNCIL

Kill Itch Germs Quick

Your skin has thousands of tiny seams and pores where invisible germs or fungus growths may hide and cause your skin to itch, Crack, Peel, Burn, also Eczema, Ringworm, Pimples, Hand-Itch, Athlete's Foot, or Crotch Itch. To stop the itch in 30 minutes and quickly heal your skin, just try the guaranteed prescription, Dr. Nixon's Nixoderm. Originally discovered by a famous English Skin Specialist. Works with amazing speed because made especially for external skin irritations. Guaranteed to quickly clear and heal your skin or money back on return of empty package. Ask your Drug Store for Guaranteed Dr. Nixon's Nixoderm today.

The Library Committee met in the Library rooms in the Town Hall, Summerside, on Tuesday evening, with Miss Bateson for the purpose of presenting a brief to the Mayor and Councillors in view of making the Library at Summerside a municipal undertaking.

Miss Bateson addressed the Council briefly and outlined the project of the Carnegie Demonstration on the Island.

Miss Gladys Holman then presented the following brief from the I. O. D. E.

To the Mayor and Councillors of Summerside:

From the days when the cave man laboriously carved with a chip of harder rock upon the walls of his dwelling the record of his feeble, but aspiring thoughts, all down through the successive ages, recorded upon monumental rocks, clay tablets, papyrus and parchment, vellum and paper, man has been interested in and inspired by what other men have thought. When one recalls for example how the history of Alexander the Great and Caesar became incarnate in the man Napoleon Bonaparte, who moulded Europe with his thumb, the ruling qualities of ideas is not hard to evaluate by intelligent people.

In our town of Summerside a few years ago previous to the Great war public spirited citizens donated books for the beginning of a small library open to the people. Owing to military requirements during the war, this scheme was abandoned. So were the books, upon an attic floor.

Later the I. O. D. E. with determination, foresight and public spirited interest, resurrected these books put them into use again, added to their number, and carried on to its present state a library, the excellent character of which this town might well be proud, though many citizens scarcely know of its existence. Then the unexpected really happened. The Carnegie Library Foundation arrived with such a breath-taking offer (which will be dealt with by Miss Bateson) that it is felt that the moment for immediate action has arrived.

The library to be sustained is to be a Free Public Library. But as the Foundation could not co-operate with any private body, it was decided after careful consultation with Miss Bateson, that the most suitable arrangement would be a return of the Library to the citizens of Summerside through their duly authorized body, the Town Council. This is the reason of our presence here.

A Library Committee, appointed from a public meeting of representative citizens, who are actively interested in library service, selected a sub-committee to interview you. There are two definite requests that we have to make in the interest of what we believe to be one of the most outstanding and invaluable services you can possibly render to your fellow townsmen, and people of the surrounding districts, who also will share in this Library service.

First, we request you, the Town Council of Summerside, to take over the charge of the original Town Library of Summerside together with all that has been added to it throughout the years by the interest, service and resources of the I. O. D. E., following upon its unofficial abandonment.

In this connection we believe, sirs, that this is no inconsiderable gift to the Town, as there are valuable engravings and approximately 3,000 volumes already upon the shelves, which with a most conservative estimate would be the equivalent of \$5000.00. And besides these, there will be included at least 1,000 volumes, to be added immediately by the Carnegie Foundation, together with an outstanding service, of access to nearly 30,000 volumes, upon every conceivable subject of interest or reference.

Anticipating an appreciative reception of this gift, the basis for a permanent Library Committee was agreed upon by our meeting, which included the following representative, and we believe capable persons to assist in supervising the work. This will be the regular personnel constituting the committee.

Five members of the I. O. D. E. (The acting Regent at the time to be chairman of the Library Committee). Six clergymen of the Summerside churches (one from each Church). His Worship the Mayor of Summerside, the President of the Catholic Women's League and representative citizens elected by the before-named members of the committee.

This will make a standing library committee of nineteen members, the library committee to be responsible for the selection of the Librarian. Second, we request the Town of Summerside in order that the ar-

BUILDING ACTIVITIES IN SUMMERSIDE

In spite of reputed hard times and old man "Depression" there has been considerable building going on in Summerside this year, and the town is becoming larger every season.

Some very nice residences have been built this summer, others enlarged and improved. Business houses have added to their premises and the town continues its progressive campaign. The new asphalt on Spring Street and Notre Dame Street has also given the town a more prosperous appearance. The five principal streets are now paved, as well as the approach to the town from the east.

The new abattoir, built this year by the Town of Summerside has put her in the front rank as regards sanitary buildings for the killing and inspection of the town's meat supply. Some of the new residences to go up this summer are John O. Colby's new house on Granville Street, a new house for Ralph Muttart, Osmile Arsenault's new bungalow in West Side, besides the two Schurman houses at the North end of Granville Street.

Several houses have been remodelled. Mr. Whitney has made a great improvement to his property on Summer Street. The Perfection Dairy have built on an annex to cope with the increasing trade. A new warehouse has been built on Holman's wharf by the Robin Hood Flour people to take care of their surplus stock.

The Fur Pool have built a brick addition to their premises and the Dominion Fur Pool have fitted up premises on Water Street for their business.

Beaver Street boasts some new properties. Other firms refitting their places are Y.M.C.A. building, garage of Paul Harding and the Fur Auction Rooms in the Pope building.

Mr. Lloyd Lewis and Mr. T. L. Compton have both added to their residences and Mr. Reginald Pope has built a hangar for his plane. The electric light plant has a new pump house. Glancing over this list of building activities it would appear as if Summerside is still going ahead.

The fur people evidently expect a good year as all the firms are making elaborate preparation for the coming season.

The railway wharf has undergone extensive repairs this year.

There have also been many minor repairs to houses, besides considerable painting and redecorating—S

Grass pastures are satisfactory.

MRS. W.M. ROWE WINNER MAPLE LEAF PRIZE

Some time during the summer the Maple Leaf Cooking School, by correspondence, was conducted in this Province, the Company offering a number of prizes to successful competitors. There was a large entry from all over the Island and no fewer than 14 "Kitchen Shower Prizes," consisting of 25 pieces of modern and useful kitchen utensils were won. The course of studies by the Correspondence School of the Maple Leaf Milling Company consisted of six books from which an examination paper was subsequently set. The students had to write their answers and forward them to the Superintendent of the school in Toronto. In addition to the prizes offered by the Company the Charlottetown Guardian offered a silver wrist watch to the one making the highest number of marks in the competition. Intimation was received yesterday from the Maple Leaf Milling Company advising the Guardian that the winner of the silver watch was Mrs. W. M. Rowe, 2 Grafton Street, Charlottetown, to whom was handed over a magnificent watch, supplied by Messrs. Birks-Ellis-Ryrie of Toronto.

Interviewed yesterday Mrs. Rowe expressed her sincere satisfaction and pleasure in being the successful winner. She said the competition had afforded her a great deal of personal satisfaction, not only in being able to revive her knowledge of cookery but learn up-to-date methods and recipes as set forth in the books she had to study. Mrs. Rowe has been a consistent user of Maple Leaf Flour and believes that there is none better for household purposes. In addition to getting the kitchen shower and the watch she had been presented with a diploma of the cooking school, which she prizes very much. She thinks it was a splendid idea of the Maple Leaf Milling Company to institute such a competition and hopes that in the interest of housewives generally they will continue their competitions in future years.

Landlady: "The coffee, I am sorry to say, is exhausted, Mr. Smith."

Mr. Smith: "Ah, yes, poor thing! I was expecting that. I've noticed this last month or two that it hasn't been strong."
