

To all the people who read The Charlottetown Guardian

If you read and heed this sincere message you may derive many benefits for which you will be everlastingly thankful. It tells you briefly and without exaggeration, about Alka-Seltzer, the new modern remedy for miserable, everyday ailments caused by too much gastric acid. There is nothing quite like the quick relief it brings from the discomforts of colds, headaches, heartburn, upset stomach, neuralgia, muscular aches and pains, that miserable feeling the morning after when you've stayed up late, smoked or eaten too much or over-indulged in other ways.

When you drop an Alka-Seltzer tablet or two in a glass of water it bubbles up like sparkling spring water. It makes a pleasant, refreshing anti-acid solution that quickly relieves pain and discomfort and helps overcome the excess acid condition that usually causes the trouble.

Get a 30c or 60c package of Alka-Seltzer Tablets from your druggist. Read the simple directions carefully. You will find, when you try it, that Alka-Seltzer brings pleasant relief from unpleasant ailments.

The President, Mrs. Charles Stewart presided. The minutes of the last meeting were read and approved. The various committees gave their reports. League to purchase a bond and that we make two quilts for the T. B. League. A committee was appointed to take charge of this work. The retiring treasurer, Miss Patricia Ramsay gave a very satisfactory financial report of the year's work. At the present time we have \$118.37 in the treasury. The collection amounted to \$1.56. OLD WRECK FOUND ON OCEAN FLOOR

BOSTON, Jan. 9.—(CP)—Evidence of a marine tragedy that will probably be written into the records as another unsolved mystery of the sea has been hauled from the ocean floor on Brown's Bank in the trawl of the steam trawler Boston.

The crew of the Boston reported that during fishing operations they hauled up the wreckage of an old wreck that had the appearance of having rested on the bottom for years.

Attached to the wreckage was a mast with yardarms. The rigging led to the belief the find was part of a wrecked French bark, a type that used to fish the waters of that area nearly 150 years ago. Since no further identifying marks were found, it was lowered back into the sea.
