France Will Lose Men and Money

The Situation in Morocco Becoming More Serious and it Looks as Though France Might Become Embroiled, As a Result of It.

PARIS, September 8—While there has not been any more fighting at Casablanca since the fierce engagement of Tuesday, the seriousness of the general situation in Morocco and the possibility of its landing France in diplomatic difficulties with the other powers of Europe, notably Germany and Great Britain, say nothing of the apparently growing necessity of the French force on the Moroccan coast, is occupying the attention of the French people

The seriousness of the fighting of Tuesday, in which Major Provost, of the foreign legions was killed, further details of which are published today, has brought home to the French people a comprehension of the persistent resistance of the Moors and a realization that France may be only at the threshold of protracted campaign that may prove costly in lives and money.

No other power yet has been drawn into the difficulty, but Germany is watching the progress of events in Morocco more closely every day, and as it becomes apparent that the situation there is not improving, it is intimated in Berlin that the Algeciras convention, under the terms of which France and Spain are acting in Morocco, prescribe certain limits, and that France is approaching the bounds beyond which she should not go without first obtaining the special permission of the powers.

HOTEL MAN TOO GUOD TO JUDGE

TORONTO, September 8—A curious law suit is on in Ontario just now. A few days ago Judge McIntyre was holding court at Uptergrove, and at noon McNuity, a hotel keeper handed the dining room over to the judge and lawyers, refusing to admit the general public. A prominent Ontario country citizen and his daughter came to the hotel for dinner and being refused entertainment took action against McNulty for neglecting to provide accommodation for travellers as demanded by the license law. The hotel keeper appeared on Saturday before two magistrates and was convicted. He at once appealed, which will likely carry the case before Mollyre. It is believed the latter will refuse to deal with it.

CANADA TO PAY FOR B.C. RIOTING

It Followed Anti-Japanese Demonstration and Japs Made Counter Attack—Some Thrown Into Harbor But Rescued—Only Seven Arrests So Far Made

OTTAWA, Sept. 9.—(Special)—The general opinion in official circles is that Canada will have to pay and apologize to Japan for the damage caused by the Vancouver rowdies to the property of the Japanese in that city.

It is deeply regretted that the outbreak took place at a time when the Japanese immigration question was all but solved between the Governments of Canada and Japan.

Those who are responsible for the destruction of property will no doubt be prosecuted.

Later details show that for five hours during Saturday night Vancouver was in a riot, ruled by rowdies in which the Chinese, and Japanese parts of the city were wrecked and great damage done.

Only seven men were placed under arrest while a dozen persons were stabbed and bruised.

The rioting followed an anti-Japanese demonstration.

The Japanese fought back and with bottles and boards attacked their assailants.

Several people were injured in the counter attacks.

A dozen Japanese were thrown into the harbor but were rescued.

Three white men were stabbed by Japanese and two others cut with broken bottles.

All night long bands of armed Japanese walked the streets, keyed up to a high pitch of excitement and bent on revenge.

They were restrained, however.

WORK STOPPED ON WINDSOR TUNNEL

WINDSOR, Sept 8—All work on the Canadian side of the river in connection with the Michigan Central railroad tunnel practically came to a standstill today, when the underground workmen to the number of about fifty, abruptly quit work.

The men say that they have been working ten hours a day for which they were to get $3.50 for timbermen and $3.95 for shield workers.

Failure to induce the contractors to pay more than 25 cents an hour for both classes of work caused the walkout, according to the men.

MOWED DOWN BY MACHINE GUNS

CASABLANCA, Sept. 8—Eight Frenchman were killed and seventeen wounded in an engagement yesterday outside the camp.

The Moors concentrated the largest force they had yet mustered in this vicinity and returned to the attack again and again after encountering the deadly fire of the French artillery and the machine guns. The enemy's losses are described as enormous.

A DESPERATE CONFICT.

The engagement opened at 5 a. m., and lasted seven hours. Major Prevost conducted a scouting expedition, which was the actual cause of the battle, the object to locate the enemy and prepare the way for an extensive moment later. The Major advanced about eight miles in a southerly direction meeting only with scattered bands of Moors which were easily dispersed. He then gave the order to return, and it was when nearing the camp that his forces were assailed by the Moors Prevost formed his men in hollow squares with the irregular Algerian Cavalry in front. General Drude quickly reinforced Prevost and the engagement immediately developed into a desperate conflict from which the Moors retired only after their ranks had been decimated by a deadly fire which it was impossible to withstand.

J. MACDONALD OXLEY IS DEAD

A Fascinating and Prolific Canadian Writer Died in Toronto—Was Born in Halifax Nearly Fifty-two Years Ago.

TORONTO, Sept, 9—(Special)—J. Macdonald Oxley, the well known author died here today.

Mr. Oxley was born in Halifax in 1855, and educated at the Grammar School and Dalhousie University, graduating B. A. with honors in 1874. He was called to the bar in Halifax in 1878 and practiced there five years. During that period he edited three volumes of court decisions and contributed to the law journals.

In 1883 he went to Ottawa as legal adviser to the Marine and Fisheries Department. He resigned to enter the life insurance business in Montreal, and later devoted himself to literature. He wrote so many volumes, which were well received, that he came to be spoken of as "the most prolific of Canadian writers." His stories for boys were especially popular, and he turned out two or three yearly for a number of years.

His choice of subjects was wide, and his scenes located in Canada, the States, India, or the Arctic regions, while his style was lucid and fascinating.

Hindoos Not In Demand In States

British Subjects Victims of Fierce Race War in Washington—400 Are in Jail and 750 En Route to Canada.

BELLINGHAM, Wash, Sept 8—Six badly beaten Hindus are in the hospital, four hundred frightened and half naked Sikhs are in jail and the corridors of the city are guarded by policemen, and somewhere between Bellingham and British Columbia are 750 natives of India, beaten, hungry, and half clothed making their way along the Great Northern Railway to Canadian territory and the protection of the British flag. The expected cry "drive out the Hindus" was heard through the city and along the waterfront last night. The police were helpless. All authority was paralyzed and for five hours a mob of five hundred whitemen raided the mills where foreigners were working, battered down the doors of lodging houses dragging the Asiatics from their beds, escorted them from the city limits with order sto keep going. The trouble started at C and Holly street, a lodge house district. The houses were cleared and the mob then swept down to the waterfront and mill after the mill was visited, the white employees joined the mob. Every Hindu was hustled outside.

Here the police suggested that the mob victims be taken to jail. This was hailed with delight and the Hindus were hustled along. The mob kept up its work along the water-front until early this morning when Larson's mill at Whitcome Lake was visited and a hundred Hindus brought in from there. Today the city is quiet. Four women were found this morning among the crowd in the city building. There is considerable sympathy with the mob, and it may be found impossible to prosecute the leaders. Racial feeling has reached a high pitch. Every day whites are being replaced in the mills by Asiatics.

Many instances of women being pushed into the gutters or insulted on street cars by the foreigners were also reported. The Hindus are all British subjects and their case is being placed before the British authorities.

MEETING OF THE CITY COUNCIL

The regular monthly meeting of the City Council took place last night. His Worship Mayor Paton presided and all the Councillors were present. After reading minutes, passing bills and other routine, the business of the meeting was proceeded with. A deputation from the truckmen's union consisting of Sylvester McDonald, A. P. Thorne, and James Irving appeared before the Council and presented a memorial praying that the bye-law relating to truckmen and trucking be amended to afford the teamsters a better rate. The prayer of the memorial was ably supported by Sylvester McDonald, who eloquently, cogently, and sagaciously placed the salient facts of his case in a most convincing manner before the City Fathers with the result that a committee of three was appointed to attend to the matter. A petition to open a street from School Street to Upper Prince Street in the vicinity of the school was received. There was a lot of time taken up with a discussion as to the laying down of a concrete wall in front of the City hall. It appeared after a lot of speech making that the walk is to be laid down and has been waiting for attention because the workmen have been engaged elsewhere. William Heartz was appointed engineer of the Market building at one dollar a day for every day employed. It was resolved to try and wake up the local Government in regard to the jail which apparently has dropped out of sight and the matter of having the houses numbered is to receive attention.

BUFFALO, N. Y., Sept. 7.—The colors of Tom Longboat, the Indian runner, were lowered at Kenilworth Park last week by three Buffalo amateurs, R. Hadley, H. Coward and C. Kenerson. The distance, three miles, was too short for the Indian to make his best showing.

Hadley, first man up for the relay, was 200 yards behind Longboat at the end of the first mile. Coward, in the second mile, cut down the Indian's lead to 10 yards, and Kenerson easily overtook Longboat in the last mile and won by 75 yards.
