PROCEEDINGS IN HOUSE OF COMMONS

(Continued from page one)

Mr. Robert Macdonald, Victoria, was a visitor to Crapaud Saturday.

Mr. E. S. Weeks is spending a week with her parents, Mr. and Mrs. John Poole, Cardigan.

Rev. E. S. Weeks, Pownal, has been visiting his father, Mr. John Weeks, Fredericton, who is in poor health.

Miss Freda Haggard and Miss Marion Wheeler, Gt. Bay, were on a visit to Miss Haggard's brother in Halifax, who leaves very shortly for Overseas.

His many friends will be glad to know that Mr. Emmet DeRoche, a teacher, who has been under treatment at the Charlottetown Hospital for the past month is completely recovered and is expected home shortly.

A Continual Tiredness Precedes Ruined Health

Thousands are physically exhausted, lacking in courage, just on the verge of a break-down.

Your brain is fogged, vitality so exhausted your constitution is being ruined. What you need is Ferrozone, the great vitalizer and nutritive tonic.

It's by making flesh and blood, by infusing iron and oxygen into the system that Ferrozone helps; it repairs weak spots, instills new life into worn-out organs.

Like new, Ferrozone lifts age from the old and imparts resilience and buoyancy and enters the happy life that comes from using Ferrozone. Fifty

Mr. Hughes said that if this latter answer were correct the member for Kings N. S., Mr. DeWitt Foster, should now be in his place in the House.

Mr. Robert Borden assured Mr. Hughes he would bring the matter to the attention of his committee and the House then went into committee of supply on Civil Government estimates.

Several questions regarding the regulations governing the operations of steam trawlers, asked by Mr. Sinclair of the Opposition, were answered in the House today.

Hon. J. D. Hazen informed the member for Guysboro that the Imperial Government was asked to arrange for an international conference in regard to steam trawling regulations in accordance with the promise made by the Minister of Marine and Fisheries in a speech in the House last April.

It was considered best, however to postpone the matter until after the war. Mr. Hazen also said that no new instructions were given in 1915 with a view to prohibiting foreign steam trawlers from obtaining a licence to fish in Canadian ports.

The Minister said that in view of claims made regarding treaty obligations with France it was not considered advisable to deny coal to French trawlers.

Regulations had been adopted, however, by which all steam trawlers were required, before obtaining a licence, to give an undertaking not to fish within 12 miles of land and supervision had been exercised to prevent breaches of the undertaking.

Hon. J. D. Reid, told Mr. Sinclair that the declaration given to the Customs officers at a Canadian port by the master of a steam trawler had to be in writing.

CURLIANA

The following is one of the hot games at the Curling Rink yesterday. Sidney Grey, R. C. Goff, W. F. Tidmarsh, John Lawson, D. A. McKinnon, R. E. Spillet, W. H. Tidmarsh, O. R. Crabbe (Skip) 5, (Skip) 8.

Victorias Win From 105th

In the hockey match in the Arena last night, the Victorias and 105th met for the first time this season, although the 105th were short of a couple of their best players, they played a remarkable individual game and would no doubt have made a more interesting game had they had more team practice.

The Vics were made up of a practically new team in last night's game. Power, Post, Ables, played wing and together with Arsenault, Dodd and Prowse, played some splendid combination, which undoubtedly won for them. Kelly, of S. D. C., played the position of point, while Dougan, of the same college, held down the nets. Milford was back in his old position at cover point.

The 105th team is a good one and with a little practice they will make the best of them look wise. Graves in the net is one of the Crystals' stars, and although the Vics found the net for 16 goals, it was no disgrace to the goal tender. Hughes, Gregory, Trainor and Durant, players from last year's Ables, Crystal and Victorias team, played a good game in the individual way. The first half was not marked by any sensational work on either side, with the exception of a few rushes by the 105th forwards and some combination work on the part of the Vics forwards, and the half ended 8-0 in favor of the Vics.

In the second half the 105th made it more interesting for their opponents, but in this half as in the first the Vics excelled in combination work and the half closed with the score 16-1 in the Vics' favor.

The second game was more interesting. The Vics did not have it all their own way, especially in the first half, the 105th holding them down to one score in this half.

In the second half the Vics succeeded through hard work in landing four more to their credit, and thus the game ended; Vics, 5; 105th 0.

Mr. Arnold Balfour, acted as Referee and Mr. John Macneave as Judge of play, and both fulfilled their duties to the satisfaction of all.

The line-up of the first teams was as follows:

Table with 2 columns: Team, Player Name. Includes VICTORIAS and 105TH players like Morgan, Kelly, Milford, etc.

FAMOUS ARTIST DEAD

Time was as follows: First two heats, Tommy Cotter, 1.04 and 1.05; Third and fourth and fifth, Bob Mac, 1.10 1/2; 1.06 and 1.07. The race was for a purse of \$1,000. Bob Mac, was raised by McPherson Bros., North River, and Tommy Cotter is by our famous Island Sire, Braillan, 219 1/2.

Sciatica Vanishes Instantly If Nerviline Is Used

Can you beat this case? No ordinary liniment will even relieve Sciatica. Nothing but the most powerful kind of a remedy can penetrate through the tissues and finally reach the Sciatica Nerve. You can always depend on the old-time "Nerviline." Nothing made today is as good for Sciatica as Nerviline was when first produced, about forty years ago.

All this time the same old "Nerviline" has been curing Sciatica, Lumbago, Rheumatism, and is considered to be without an equal in relieving pain or soreness anywhere. "Nerviline" couldn't be made stronger or better," writes James E. Edwards. "The way it cures Sciatica is to me simply a miracle. For years I suffered frightfully. I ruined my stomach with internal dosing. I rubbed in gallons of oils and liniments—none were strong enough. One good rubbing with Nerviline relieved. I kept on rubbing and shortly was cured. My father cured me of his Sciatica in his right arm and shoulder with "Nerviline, and my mother cured herself of chronic lumbago with Nerviline. Our family simply swears by Nerviline and we are never without a 50c family size bottle in our home. We find that for external use, for coughs, colds, earache, such minor ills it is a veritable family physician."

WOMEN SMOKE.

In a recent trial in Chicago, when two divorcees of high social standing were fighting for the custody of their children, the following question was asked: "Do all the society women of Lake Forest smoke cigarettes?" and the answer was: "I would hardly say all. I should think half do. There is no more smoking here than among the ordinary women everywhere. It is customary among the women of the richer classes."

And Lake Forest is Chicago's most fashionable colony. The idle rich themselves are sufficient and startling proof that wealth un-Christianized may prove a curse more destructive than fire, more deadly than the plague, remarks the Christian Guardian.
