—ADDRESS ON CO-OPERATIVE MARKETING—Mr. F. W. W. Director of Co-operative Marketing, Government of Nova Scotia, gave a very informative address on the field of the Prince Edward Island oyster growers on Wednesday. He stated that co-operative marketing to be successful must be preceded by proper grading of the product. Trade requires first grade products. There must be no competition, one grade with another. An official grader is best as without grading the poorest grade sets the price. Mr. Walsh felt that the oyster industry could be helped by proper grading of the product. Advertising as an association is no good without proper grading. The water growers of Nova Scotia are willing to co-operate with the island growers to keep the price uniform. Mr. R. J. MacSwiney, Inspector of Government also spoke along the same lines. S

Two parties for violations of the Traffic Act were given two dollar fines each. A case under the Excise Act was heard at Alberton where a woman from Duvar was charged with keeping moonshine. The spirits, which were found to be pure, were found concealed in the bed of the woman's bed-ridden husband. Woman Rifle Shot Concerned About Her Looks Not Match

OTTAWA, Aug. 12.—(CP)—Districts throughout Canada have been assigned varying dates this year for the shooting of migratory birds, in regulations issued today by Resources Minister T. A. Crerar. The number of birds that may be shot is prohibited, and certain other restrictions are continued.

In all districts the daily limit for wild ducks is 12, and for geese five, but the seasons' totals are variable. In some places this is fixed at 100 ducks and 25 geese, in others at 150 ducks and 20 geese. The five eastern provinces—Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island—the shooting of black brants is prohibited.

Everywhere the prohibition upon using bait and live decoys continues.

In general the regulations follow the principles adopted two years ago, which were made more restrictive than formerly in order to meet serious depletion of waterfowl occasioned by the drought in western Canada, as well as by over shooting.

A summary of the districts, open seasons, dates and bags permissible in the Maritime follows:—

New Brunswick—Except St. John County and that part of Charlotte County lying south of the No. 1 highway, the open season for ducks and geese will be from Sept. 15 to Nov. 15. In St. John County and that part of Charlotte County lying south of the No. 1 highway, the open season for ducks and geese will extend from Oct. 1 to Nov. 15.

Prince Edward Island—The open season for ducks and geese will be from Oct. 1 to Nov. 15.

Quebec—The open season for ducks and geese will be from Oct. 1 to Nov. 15.

Ontario—The open season for ducks and geese will be from Oct. 1 to Nov. 15.

Nova Scotia—The open season for ducks and geese will be from Oct. 1 to Nov. 15.

Atlantic Provinces—The open season for ducks and geese will be from Oct. 1 to Nov. 15.

Dick Borthwick Wins Quebec Golf Title

MONTREAL, Aug. 12.—(CP)—Dick Borthwick of Toronto Oakdale led a strong field today to capture the Quebec open golf championship. His 141 for the 36 holes was one under the 142 posted by Roland Huot of Royal Quebec.

Borthwick played the Mount Bruno Golf Club course eight strokes under defending champion Stanley Horn of Ottawa Hunt Club, who posted a 149 to finish in the same position as the powerful little Jules Huot of Kent Golf Club of Montmorency Falls, Quebec.

Roland Huot, Jules' younger brother, came home with the low afternoon over a windy course. Borthwick and Roland Huot overtook a narrow lead held by Jack Little of Ottawa Rivermead's tall professional, at the halfway mark, and he finished third with a 146.

Ferrell Given Release By The Senators

WASHINGTON, Aug. 12.—(AP)—Pitcher Wesley Ferrell—given his unconditional release by Washington Senators today—said he doesn't intend to play any more baseball this year.

"I told him," said Clark Griffith, president of the Senators, "about two or three parties that seemed to be interested in him, but he didn't seem to be interested in them."

The veteran hurler—who was offered by every club in both major leagues with no takers—intimated he would return shortly to his Guilford, N. C. home.

Ferrell's salary, it was said here, probably had a lot to do with other clubs' failure to sign him. He was considered one of the highest paid players on the Senators' payroll.

This season Ferrell won 13 games for the Senators and lost eight. He was able to complete but nine of the 22 contests he started, however.

Censure "Failure" Of Government To Provide Relief

(C. P. by Guardian's Special Wire) TRURO, N. S., Aug. 12.—United Mine Workers District 26 convention today passed a resolution censuring the Nova Scotia Government for "failure" to grant relief to the Pictou County mining town of Thorburn.

The resolution, moved by Walter Kennedy of Springhill, N. S. was: "It is moved that this convention go on record as scoring the provincial government for their shameful refusal to meet with relief the immediate distress of the miners and their families at Thorburn and that this convention feels that the government, in taking the stand, is openly aligning itself with the company against the welfare of those people."

(Almost simultaneously with passage of the resolution, a statement issued by Mines Minister Michael Dwyer in Halifax, after meeting with a delegation from Thorburn, had granted relief to the miners in the town where a coal mine on which more than 1,000 persons depend for a livelihood, has been threatened by cessation of operations. The statement also promised the miners that a highway project to aid the unemployed would be undertaken immediately.)

"Mercury" Flight Postponed Until Early September

(Special To The Guardian) MONTREAL, Que., Aug. 12.—The Imperial Airways long-range seaplane Mercury due in Montreal on its trans-Atlantic flight next week, will not come until early in September, according to a cable received today by the Trans-Canada Air Lines. The flight has been postponed due to a decision of the Imperial Airways to use the Mercury elsewhere for the time being. Where this has not been revealed in the meantime arrangements are going forward at Bourville, on the St. Lawrence River, for her reception. Several changes have been made in the moorings.

The Mercury made history on July 20 when she flew non-stop to Montreal from Poyones, Eire, in a little more than 20 hours. It was the first commercial flight over the North Atlantic route. The Mercury crossed the 2,000 miles of ocean in 13 hours, 29 minutes, eclipsing the previous record of 14 hours, 23 minutes set by the flying boat Cambrail a year ago.

INSURGENTS CIRCLE TOWN

Seek Control Of Mercury Mining Region.

HENDAYE, France (At the Spanish Frontier), Aug. 12.—(AP)—The insurgent Army of the Spanish southwest tonight laid siege to Cabeza de Buey, central link of the Government line defending the rich Almaden mercury mining region.

Striking swiftly east on the mountainside, the front of the insurgents under General Gonzalo Queipo de Llano drew a ring around the fortified town before the hard-pressed Government could rush in reinforcements.

The beleaguered garrison at Cabeza de Buey, however, held its positions within the town against the first assaults. The garrison dominated both railway and highway approaches to Almaden with their machine-guns and field pieces.

The struggle for the region, rich in natural resources, has become the major action in the two-year-old civil war. The insurgents reported conquering 675 square miles in the last two days.

Insurgent and Government forces were virtually locked on the other battle fronts.

Insurgent advisers reported capture of the Magdalena Sierra and of hundreds of prisoners belonging to the international brigade led by Colonel Enrique Lister. Lister, a former seaman, led Government forces west across the Ebro on July 26.

The more wrong some men are, the bigger argument they put up.
