—Richard Henry Dana's immortal classic of the sea, "Two Years Before the Mast," came to breathing life on the screen of the Paramount picture of the same name, starring Alan Ladd, Brian Donlevy, William Bendix and Barry Fitzgerald. And just as its literary counterpart has been revered by generations, this first screen adaptation of Dana's maritime masterpiece bids fair to achieve like eminence.

For Paramount has turned out a spectacle as big as the sea itself, with all its sweep and all the exciting adventure inherent in Dana's inflammatory novel of the brutal existence of the men who sailed America's ships of commerce in the early nineteenth century. It is a lusty tale, vigorously told with the accent on action, suspense and strong drama.

"Two Years Before the Mast" describes with great fascination the voyage of the devil-ship "Pilgrim" from Boston to San Francisco around Cape Horn. Brian Donlevy, as the author-seaman, Dana, and Alan Ladd, as the ship owner's son, inadvertently changed, are among the unfortunate men on board. The big, tubed merchant ship is run by Howard da Silva, as Captain Thompson, and a tough first mate, played by William Bendix. Ladd, a rich man's spoiled brat,

when dragged on board the ship, is regenerated by the rugged discipline at sea and by his love for beautiful Esther Fernandez, portraying a Spanish girl who boards the ship in Brazil en route to California. In the best Ladd tradition, he leads the crew in a bitterly fought revolt against inhuman floggings, famine and disease. The mutineers, in control of the ship, valiantly chance hanging by retreating to Boston. There, with the aid of Dana's diary of the voyage, they are vindicated, and the light for seamen's rights is begun.

—Premier Jones asked for special consideration on feed grains moving into the Maritimes.

—If there had to be increases, he said, they should not be on a horizontal percentage basis. Some method should be devised that would give full recognition to the purpose and intent of the Maritime Freight Rates Act. At least rates on bulky commodities should be kept down.

—Premier Jones asked for special consideration on feed grains moving into the Maritimes.
