Winners in the Dr. Chase Contest

And interesting extracts from some of the 334 letters which came from every province of this great country. A splendid tribute to the enormous popularity of Dr. Chase's Nerve Food

THE object of this competition was to find out which appeals most strongly to the great majority of people, "testimonial advertisements" or "human interest advertisements with illustrations and conversational style of copy."

This contest brought out some very strong arguments on both sides and some which are entirely new. But, since the total result was 133 for testimonials and 135 for illustrated conversational advertisements, it looks as though we shall have to use both styles of advertising in order to interest all newspaper readers. Many women gave arguments for both styles of advertising instead of expressing a definite preference. Most of these letters were carefully thought out and will supply many new ideas as well as an abundance of evidence as to the strong regard in which Dr. Chase's Nerve Food is held by the women of Canada. If we could send these letters to every home there would no longer be any question as to what treatment to buy when a restorative is needed for tired nerves and a run-down system. It would be Dr. Chase's Nerve Food every time.

It was no easy task to select the winners from the stack of letters received, but we have tried our best to do justice to everyone.

As it is our desire to make friends instead of losing them, we hope there are not many who lost patience as did the writer of a postcard we received, and which reads:

Dear Sirs:

Why not publish names of winners of your recent contest, as you advertised "names of winners will be published soon after close of contest." It is almost a month since contest closed. What is the trouble? Don't you happen to have a friend or relative among the entries?

From A Past Friend.

Every contestant was advised by personal letter that the time of closing the contest had been extended to November 30th. So we hope there were not many disappointed as was our "Past Friend."

Mrs. H. Griffith, Nurse, Cowichan, B.C.—"I am a good personal advertisement for Dr. Chase's Nerve Food, for I use it regularly when on a trying case and robbed of rest and sleep. It is most used for exhausted nerves and the consequent headaches, irritability and depression."

Miss Katharine C. McDonald, Nurse, 14 Victoria Block, Moncton, N.B., who did such heroic work in looking after the victims of the railroad wreck near Sackville recently, reports some remarkably interesting cases in which Dr. Chase's Nerve Food has been used with splendid results. As a nurse Miss McDonald has an exceptional opportunity of witnessing the restorative influence of this treatment.

Mrs. W. H. McIntyre, Gananoque, Ont.—"About five years ago I used Dr. Chase's Nerve Food when in a state of absolute collapse and continued its use until I had taken fourteen boxes. I cannot praise it enough, for it worked a miracle in my case."

Mrs. May W. Taylor, 1309 Davie Street, Vancouver, B. C.—"Ten of my circle told me that they take Dr. Chase's Nerve Food for that 'all-in' feeling attendant on the care of children and performance of housework. I myself take it for nervous irritability and absolutely depend on it. I give my children the Nerve Food during 'examination week' and I am sure it helps them."

Mrs. Annie Bellamy, 33 Pauline Avenue, Toronto, Ont.—"Since the 'flu' epidemic people are resorting to preventive measures more than ever and find that Dr. Chase's Nerve Food gives protection against the 'flu' and all other germ diseases."

Mrs. Bert Smith, Way's Mills, Que.—"On an old-fashioned bureau, in a house I know, lies a large-sized New Testament with the binding well worn, and with it a much-used old copy of Dr. Chase's Receipt Book. When the calves have the colic or the neighbor's baby the carache 'Grandma' hands out well-illustrated advice from the Dr. Chase Book. When 'Grandma' herself feels 'run-down,' Dr. Chase's Nerve Food stands ready on the dining-room table among the salt and pepper shakers."
