

### HER BABY WAS BOTHERED WITH DIARRHOEA FROM THE TIME SHE WAS BORN DR. FOWLER'S EXTRACT OF WILD STRAWBERRY CURED HER

Mrs. THOMAS SCALING, Schreiber, Ont., writes: "My little girl, who is now nearly four years old, and is as healthy and strong as can be, was bothered with Diarrhoea from the time she was born until she was over two years old. The doctor in the hospital, where I was when she was born, did everything he could but did not get it stopped. Just as soon as I got out myself, I got a bottle of Dr. FOWLER'S EXTRACT OF WILD STRAWBERRY, and gave it to her, off and on, whenever she needed it, and I never had a doctor in the house once, for it would always check it without any bad after effects, and in time cured her altogether. I always keep it in the house, as I have never found anything to compete with it for Diarrhoea.

When you ask for "DR. FOWLER'S," be sure you get it, as some of these no-name, no-reputation, so-called strawberry preparations are being sold on the reputation built up by "Dr. FOWLER'S."

To insure getting the genuine, see that the name of The T. Millburn Co., Limited, Toronto, Ont., appears on the yellow wrapper. Price, 35 cents.

### WHEN SHE LEARNED SHE WAS PLAIN.

A girl, plain of features, once overheard by chance a conversation discussing on her plainness. The words cut her to the quick. She went to her mirror and realized that it corroborated what she heard. For days she was crushed by the realization; every spark of femininity in her was hurt. She believed that what seemed to her to be an inalienable right to please was forever denied her. Finally she came to; she faced the fact. "I am plain," she argued, "and I am worrying myself sick over the fact, and the worrying won't make me any prettier, and it may make me uglier. She made up her mind that if she could not charm by the face or person she would learn to charm by mind, manner and conversation. She deliberately set out to learn the art of being agreeable, to be charming. She taught herself not to sacrifice principle, nor curry favor to gain notice, but cultivated the ability to be a good listener. She developed a sympathetic manner, she learned the art of putting herself in the other's place, she became absolutely to be depended on for truthfulness and reliability. So well did she succeed in her ambition that she became one of the most popular and sought-after girls in her town, and later became the acknowledged social leader in the really best society of a large city, and was sought by men, women and children. And finally she married one of the finest men that a woman could win.—The Ladies Home Journal.

### FISHERIES ON PACIFIC COAST

OTTAWA, Sept. 22.—The development of the deep sea fisheries on the Pacific coast has led the Hon. J. D. Hazen, minister of marine and fisheries, to take greater precautions in preserving them for Canadian fishermen and two new fisheries protection vessels will be placed on the British Columbia coast. The Malaspina, built in Dublin dockyard, with a speed of fifteen knots, is now on her way across and is expected at Victoria at the beginning of December. A second vessel is being built on the lines of those used by the Irish fisheries board. The vessels now in use are out of date and until the completion of the two new boats the naval department was obliged to hire boats. On the east coast reports at the department show that adequate protection is being afforded.

The seizure of a Japanese vessel some days ago by the Canadian fisheries protective cruiser Joliote at Port Simpson has resulted in the discovery of official facts here which tend to show a much more serious state of affairs than at first appeared. It is now learned authoritatively that no trace could be found of 100 Japanese who embarked on the vessel when she left Japan, that the clearing papers were wrong and that a set of complete charts of the British Columbia coast were found when the vessel was searched. When the Japanese vessel was seized by the captain of the Joliote the clearing papers showed that they were for a point in Alaska, but no clearing papers were found for Port Simpson. This being a technical violation of the customs law the vessel was seized but not a trace could be found of the 100 Japanese who undoubtedly were on board as information had been received from British agents in Japan to the effect that they were on board when the vessel left Japan. There is no information that they were landed at Alaska and it is feared they were smuggled into some part of the British Columbia coast.

### LATEST FROM THEATRES

EDEN MUSÉE, NEW YORK

Former visitors to this place of amusement would scarcely recognize that of amusement. The entire interior has been cleaned, remodelled and painted, which together with palms and decorations make the Musée a most inviting one.

The World in Wax is as usual up to date. The latest addition to the wonderful collection is a life like figure of the late Mayor Gaynor, who died on his way to Europe. This figure is to be seen in the Central Hall. A figure of Secretary of State William J. Bryan has also been installed.

The stage performance this year consists of Alfred Renzon justly called the "Man with the rubber fingers." This performance is without doubt the most clever manipulator of cards ever seen in this country, his sleight of hand performance being entirely new during his entire act. He appears every afternoon and evening.

The numerous features of the world known Eden Musée, is the World in Wax, the celebrated Cinematograph which are shown every hour in an entirely new series of subjects every hour, the hand concerts, which render charming music afternoon and evening, the wonderful Ajeeb, the wax figure checker player and extra attractions, make this place of amusement a most profitable and entertaining one to the thousands of visitors every week.

### COLD STORAGE PRODUCTS ON MENU

CHICAGO, Sept. 24. (Special)—Cold storage products, from claims to cheese, will be served to the delegates to the third International Congress of Refrigeration now in session here, at the banquet to be tendered to them this evening. The principal object of this rather unusual banquet is to show to the delegates from the forty-four foreign countries represented at the congress that the American cold storage methods are highly efficient and have been unjustly assailed both in America and in various European countries where American products are in the market.

semble as the finale, with an augmented orchestra.

Others will be Waterbury Brothers and Tenney, the famous musical comedy trio, who are making a very welcome return to vaudeville. Their entire repertoire of musical numbers are new and the comedy brighter and funnier than ever. Another big name is Clarice Vance, who brings her jolly personality and characteristic "coon sob." Then comes that personality and characteristic Stella Tracy and Johnnie Stanley, in an amusing skit, called "Three Miles From New York," and, last but not least, Wheeler and Wilson will give an amusing skit, called, "A Sketch of Musical."

Tommy, aged six, was asked by a visitor how he stood in school. "In the corner," replied truthful Tommy.

B. F. KEITH'S UNION SQUARE THEATRE, NEW YORK.

Every program announces at B. F. Keith's Union Square Theatre seems to have in it more and bigger novelties than the one preceding it. This is evidence of any effort on the part of the management to present and procure the very best talent available. For the coming week of September 29th, there is a bill fairly bristling with bright things, a veritable banquet of comedy predominating. The Union Square management has offered many stars from the legitimate during the past year, but none so popular or prominent as the distinguished American actress, Miss Amelia Bingham, who will headline the tremendous show arranged for this gala week. An original idea of her own "Big Moments from Great Plays," constitutes Miss Bingham's performance. It is the crucial or vital moment from a number of plays in her repertoire. The story of each play is briefly told, then follows the climax of the play, acted with the same force and impressiveness as when it formed an entire evening's entertainment. Miss Lisie, Miss Will Well and Mr. Baresford Lovett.

Europe has sent us many sensational and spectacular dancing numbers, but in the announcement of the American debut of Mlle. Bernette Asoria, in her own original "Dance of the Flirt," assisted by Miss Elipante and Chevalier de Mar and a company of twenty graceful dancing beauties, is a feature of tremendous importance. Mlle. Asoria has had the honor of performing before the Crown heads of Europe and has the highest terpsichorean honors ever bestowed upon any European dancer. For two seasons she was the premier danseuse of London. There are five special numbers, a magnificent en-

### Shrewd Investors in Fox Companies should carefully examine these Salient Points

- The quality of the stock with respect to (a) fur, (b) pedigree, (c) fruitfulness.
- The ranch manager.
- The costs of the live stock and of the promotion and goodwill.
- The management of the company.

### John R. Dinnis Pedigreed Foxes, Limited.

is a new company with all their stock carefully chosen, mated and now running in their pens. It fulfills all the requirements as to quality of live stock, skill of management, low capitalization and small margin of profits for the promoters. The directors are men of probity. There has never been a company floated with a higher average quality of stock. Government records prove that Mr. Dinnis is without a peer as a stock raiser.

### Money is made when the Foxes are Produced

and Mr. Dinnis has a unique record in this respect maintaining for years an average production of 3-1-2 per pair ranch with him. One company in his ranch sold 16 pups from three young pairs placed in his charge in 1912.

### Direct Selling

is a feature of this company. No fox stock exchange has authority to solicit stock for us as we cannot afford to pay the Middlemen's Profits. The stock is good enough and cheap enough to SELL BY MAIL and thus by cheaper selling, permit the shareholders to secure an advantage. All the young pairs of foxes are capitalized at \$19,000 a pair including the costs of promotion and organization of the company. A two-year-old pair of Dalton breeders that have raised eight pups, and are in the same pen for 1913-14, are capitalized at \$28,000.

### Payments

The stock is now selling at \$100 a share, par value, and payments made as follows; 50c on application and 50 p. c. November 15th.

RANCH—Mt. Edward Road, 1-1-2 miles from Charlottetown.
