COMMUNITY CONCERT AT PRINCE EDWARD

Splendid Programme Given By Baritone Trio.

The first concert of this season to be presented under the auspices of the Community Concert Association was held last night in the Prince Edward Theatre.

The performers were Georges Barre, pianist; Carlos Salzedo, harpist, and Horace Britt, cellist.

Each of these is master of his instrument, as well as a thorough musician, and in consequence, every number whether given by the ensemble or by one of the players as a solo was splendidly played.

The programme was as follows: I.—Sonata a trois—Jean-Marie Leclair. Adagio—Allegro. Sarabande—Allegro assai. Barre, Salzedo, Britt.

II.—Minuet—Georgis Velanin: Deep River—Negro Spiritual; Greek Dance—Mouquet. Barre, Salzedo, Britt.

III.—Plainte—Caix d'Hervelois; Musette, Caix d'Hervelois; Chant du Barde—Ernest Britt; Senerade Espagnole, Alexandre Glasouff. Horace Britt, with harp accompaniment.

IV.—Variations on a Theme in Ancient Style—Carlos Salzedo. Theme—Double—Tempo di Bourree—Staccato—Butterfly—Flux and Chords—Jumps—Trills—Scales and Arpeggios—Tempo di Barcarolle—Prelude—Fugue—Capdena—Conclusion. Carlos Salzedo.

V.—Polonaise and Badinerie—Johann Sebastian Bach; Menuet from "Orfeo"—Christoph Willibald von Gluck. Georges Barre, Carlos Salzedo at the piano.

VI.—Suite—Children's Corner—Debussy. Barre, Salzedo, Britt.

In addition to the above, the following encore numbers were played in response to enthusiastic applause:

Grenadina—Nin; Hebrides—Ravel. Mr. Britt.

"Believe me if all those endearing young charms." Chaconne—Dukas. Mr. Salzedo.

Allegretto—Godard; Pavane—Saint-Saëns. Mr. Barre.

Of the programme it may be said that to the writer at least it was very pleasant to find the music of the eighteenth century composers so well represented. The Bach Polonaise and Badinerie were, of course, splendid, and the music of Leclair and d'Hervelois, both contemporaries of Bach, was likewise delightful. Their compositions resemble those of Handel rather than those of Bach, and while the cliches of the period are evident in their music, yet unfamiliarity renders them rather refreshing.

The Debussy suite, "Children's Corner," as arranged for this ensemble by Mr. Salzedo, was most interesting—and was well played.

Mr. Salzedo's variations on a theme in ancient style, besides exhibiting the technical abilities of the harp as handled by a competent harpist, was very good music.

The Barcarolle Prelude and Cadenza are quite in the modern manner, while the Fugue is the only one ever written for the harp. Notwithstanding its unique character, it comes off very effectively.

The menuet from Gluck's "Orfeo," and the "Chant du Barde," by Ernest Britt, father of Horace Britt, who rendered it very finely, were also much enjoyed by the audience.

The accompaniments played by Mr. Salzedo, whether on harp or piano, were most sympathetic.

It is understood that this trio is the first of its kind to be held in Charlottetown.

Unusual visitors, including swarms of seals, a sea elephant and a turtle, to the coast of Tasmania indicate that the waters there are changing.

House Damaged By Fire & Water

The firemen were called out at 4.45 yesterday afternoon to wage a two-hour fight with a stubborn blaze in the residence of Mr. William Wright, Brighton Road. There was considerable damage from both fire and water. The fire which originated in a grate on the second floor, quickly spread between partitions, and hence was very difficult to reach. The heavy smoke and intense heat on the second floor and in the attic further hampered the efforts of the firemen.

As there was only one small window in the attic it was necessary to cut a hole in the roof to rid the building of smoke. Much cutting in the walls was required before the firemen could extinguish the fire. The firemen covered the furniture and contents of the building with sheets of tarpaulin to protect them from water. The house was insured.

TERRIFIC BLASTS

(Continued from Page 1)

of other victims but even after the flames had been extinguished the work was hazardous.

About 1.30 Sunday morning the body of Morris David was recovered. It was so badly charred identification was not complete for more than an hour.

At ten o'clock Attie's body was found a few feet from where the first had been located.

They came to their deaths as the result of "an explosion and fire of unknown origin," according to the verdict of a coroner's jury presided over by Dr. Clarence Miller.

Damage to buildings near the scene of the explosion was confined largely to broken glass but it was feared the structure of the Metropolitan Store had been twisted. Glass was broken in this building.

E. S. MacKenzie's, Greenfield's and several others, and the Maritime Telegraph and Telephone Company estimated that 300 telephones had been out of order following the explosion.

ESTIMATES

(Continued from Page 1)

ince approximated 3,700 carloads. This year it is believed that 7,000 carloads will be available for shipment. As to prices, a Charlottetown bank manager reports to The Financial Post that while last year's seed stock realized the farmer only from 30 to 35 cents a bushel, this year corresponding prices are around the 70 to 80 cents a bushel mark.

Table stock tubers which last year netted but 18 to 20 cents a bushel are this year priced at around the 40 to 50 cent mark. Quality of the island stock is excellent and in view of the short crops elsewhere and particularly in the Middle Western States, growers are very hopeful that these prices will be maintained. On this basis The Financial Post estimates that returns to growers in this province will be more than \$1,000,000 higher than last year or approximately \$2,400,000.

New Brunswick Yield High

In New Brunswick, despite a cut in acreage from 46,200 to 46,900 due to inability of farmers to purchase fertilizer, weather the latter part of the summer was very favorable and estimated total yield is now placed at 3,856,000 cwt. for 1932. The estimated value of the crop is put at \$2,800,000 as compared with \$1,171,000 for 1932.

Heavy yields are reported particularly from the Keswick Valley district in York county where well tilled crops yield as high as 175 barrels to the acre.

THE SALVATION ARMY

Sunday was a day of active service for God. Two open air services were held and the Band gave a Sacred Concert at Falconwood at 3 o'clock. Many new faces were noticed at the meetings and all were interested in the messages delivered in song, testimony and sermon. Adj. Stevens took his text at the evening meeting Luke 12 Chap. 20 Verse: "Thy soul shall be required of thee."

1,000 BACHELORS ORDERED TO MARRY

FRANKFURT-ON-MAIN—THE MAIN Germany, Nov. 24.—Following the example set by Premier Mussolini in Italy, the burgomaster here today ordered 1,000 bachelors employed by the city to get themselves married.

The order affects city workers all up and down the line, from officials, to white collar employees, to common laborers.

Unusual visitors, including swarms of seals, a sea elephant and a turtle, to the coast of Tasmania indicate that the waters there are changing.

Decision Day was held in the Sunday School and an inspiring service was led by Adj. Stevens.

Premier Sponsors Tuberculosis Seal Sale Campaign

In my capacity as Premier of this Province and as a practicing physician in Prince Edward Island, it gives me great pleasure in sponsoring the annual Christmas sale of Tuberculosis Seals.

The Gyro Club of Charlottetown, who are ever in the forefront when they can be of service to the public, are putting forth every effort to make this sale a success and I would solicit their loyal support from the general public by purchasing freely of these seals when opportunity offers and thus help in a good cause in which everybody should be vitally interested.

The proceeds from the sale of these Christmas Seals is used to combat Tuberculosis in its various forms, by helping children crippled from this disease, by finding early and curable Tuberculosis cases and providing examination and X-Ray of chest in indigent cases, and by generally educating the public in Tuberculosis control and how to combat it.

Surely such a worthy objective needs no emphasizing. I am confident the response will be generous. To realize that one has helped by purchasing Christmas Seals in the fight against this devastating disease should add joy to the hearts of all purchasers of seals at this festive season of the year.

W. J. F. MACMILLAN, Premier.

Judgment On Potato Bags

Judge Inman in the County Court on Thursday gave judgment in the case of Fred Bell vs. Fred Crossman. This was an action for \$2,000 potato bags, and although not a large amount was involved, quite a number of witnesses were examined and the case lasted two and one half days.

The defendant had been trying to sell the plaintiff in the Spring of 1932 when the market for potatoes had gone bad, and was at a standstill. The bags had printed across them the plaintiff's name and mark. It was known to both that the market was in doubt and might never rise in which event the potatoes would remain in the bags and rot which they did and had to be hauled out of the defendant's cellar. Judge Inman found that under those circumstances the plaintiff encouraged the defendant to grade his potatoes, fill these bags and have same ready for shipment, the plaintiff expecting to handle them in case of a rise in the market. On the other hand the defendant had been trying to sell to other parties, and there being no market the Judge found that each party was trying to land his loss on the other, and that being the case His Honour divided the loss, half to each and gave judgment for the plaintiff for \$10.00 but without costs. T. L. Compton for the plaintiff and Heath Strong, K.C., for the defendant.—S.

STRANGE STORY IS UNFOLDED BY ACCUSED

(Canadian Press) TRURO, N. S., Nov. 26.—Unfolding a strange story of rum-running, disposal of contraband liquor and hi-jacking, Gerald Hartley of Porters Lake, Halifax County, told Magistrate Harold Putnam he had obtained from an official of the Nova Scotia Government Vehicles Department, a set of license plates for a car reputedly stolen in Montreal.

Bribed Official Putnam told the Magistrate he had "bribed" the official with \$40 for the markers, used on a car for illicit transport of liquor. Name of the official was not divulged.

Appearing at the trial of Harry Allen of Port Greville, accused of knocking two Royal Canadian Mounted Police officers from the running-board of his car, Hartley told of methods for landing rum from boats off the Nova Scotia coast, how the liquor was disposed of and how he had been lured out of a carload of rum by hi-jackers posing as police officers.

With 40 gallons of rum in his car, witness said, he and a companion were accused by the accused and Harry Allen who transferred the rum to the Allen car which then disappeared.

Two officers awaited the Allen car in Truro but when they attempted to climb on the running boards both were knocked to the ground, one, purportedly by a young woman sitting beside the driver.

The case will be continued Monday.

There Will Be A Toy for Every Tot If You Help. This is an appeal to smokers to save the wrappers (outside labels) from Buckingham Cigarettes, Buckingham Pipe Tobacco. The Manufacturers of these brands have arranged to give us toys for distribution to the needy children of our community at Christmas. We have only till December 8th to collect Buckingham wrappers—that is the closing date. Help us in this worthy cause—Place your labels in the ballot boxes which are found at all stores where tobaccos are sold. Thanks! Knights of Columbus Charlottetown, P. E. I.

RECOMMENDS INCREASE IN U.S. ARMY. (Associated Press) WASHINGTON, Nov. 26.—General Douglas MacArthur, Chief of Staff, today reported the United States army's strength "below the danger line." "I consider it of the most urgent importance to the United States at this condition be rectified 'without delay,'" he said. The Chief of Staff's warning on America's military standing, which a said was 17th in world relative strength, was made in his annual report to Secretary of War George D. Dern. Speaks of Unrest In making specific recommendations for increasing the army's efficiency, MacArthur spoke of the "obvious state of unrest now prevailing throughout the world." The recommendations included: A boost in regular army enlisted strength from 120,000 to 165,000, with immediate exemption of the enlisted man from the 15 percent government pay cut. An expenditure of nearly \$200,000,000 on aircraft, modernization and motorization of the field artillery, mechanization, anti-aircraft equipment and general motorization.

WILL FACE (Continued from Page 1) domestic difficulties. The woman's husband, William Wilkinson, told how he came home from his last stand early that morning to find his wife and 13-year-old son fleeing from the home they occupied with Walter's little family. His brothers, he said, had been drinking and he heard "a racket" as he approached the home. He had not been "on speaking terms" with his wife, witness said going there was no reply. He had and when he asked where she was been in bed only a few minutes when he learned his wife had been slain by a rifle bullet fired from outside the kitchen window of Dan McLeod's home where she and the boy had sought shelter. William told police his rifle and a bullet were missing from his home. Tells Story Douglas, the son, unfolded a pathetic story of quarrels between his mother and Uncle Walter, who had threatened to shoot the mother, according to the boy, when they locked themselves in a bedroom and piled the bed and furniture against the door. The youngster said they weren't sure whether Walter had a gun at the time but in any event Harry had taken him back downstairs. Just a few hours before the inquest funeral services were held for Mrs. Wilkinson and the body was interred in Sydney Cemetery.

FRENCH PREMIER (Continued from Page 1) Minister of the Budget—Paul Marchandeau. Minister of Colonies—Albert Dalimier. Minister of Commerce—Laurent Eynac. Minister of Agriculture—Henry Queuille. Minister of Public Works—Joseph Paganon. Minister of Pensions—Hippolyte Ducois. Minister of Air—Pierre Cot. Minister of Education—Anatole de Monzie. Minister of Labor—Lucien Lamoureux. Minister of Merchant Marine—Eugene Prot. Minister of Posts and Telegraphs—Jean Mistler. Minister of Health—Alexandre Israel. Because of the lateness of the hour M. Chautemps decided to leave the appointment of under-secretaries until later and present the cabinet to President Lebrun at 10 a.m. The ministry will appear before the Chamber of Deputies Thursday and present its financial programme, demanding a rapid vote.

MOB RUSHES NAZI SPEAKER (Associated Press) BOSTON, Nov. 26.—A large detail of police, summoned to Ford Hall tonight where more than 5,000 persons had gathered to protest on speech by a German professor on Nazism and Hitler, charged the crowd with drawn clubs after it had broken through police lines crying "down with Hitler." A detail of 50 police hurried to the scene to augment a heavy force already there when the crowd surged through the street radiating from the hall where Dr. Friedrich Schoenemann, professor at the University of Berlin, was speaking in favor of Chan'el'or Adolf Hitler of Germany and his policies. Kept as bay the crowd took up the chant of "down with Hitler" "down with Nazism." The police charged after a youth had charged, the scene.

REWARD—\$100 INCREASE IN NUMBER OF EMPLOYED. I will pay the above reward to the first person furnishing information resulting in the conviction of the party or parties who stole seven foxes from the registered ranch of Rex L. Dawson, North Tryon, P. E. I., on the night of November 24th and stole seven foxes. Sgt. R. L. Dawson, North Tryon, P. E. I.

REWARD—\$100. The Canadian National Silver Fox Breeders Assn. will pay a reward of \$100.00 to the first person who furnishes information resulting in the conviction of the party or parties who stole seven foxes from the registered ranch of Rex L. Dawson, North Tryon, P. E. I., on the night of November 24th inst. Sgt. Canadian National Silver Fox Breeders Assn., Summerside, P. E. I.

13 FOXES (Continued from Page 1) two more missing. Arthur then suggested they should go over to his ranch and see if he had missed any and found six gone. The thieves had broken down the guard fence at the back of the ranches and torn away two boards so that they could enter the ranches. They then got into the pens and used a stick to kill the foxes in the pens. Blood tracks were found there. The stick found in Arthur's ranch was identified by Rex as belonging to him. This gave rise to the suspicion that Rex's place was the first one visited and that the same parties had been to both places. Snow fell between six and seven that morning and covered up any clues or tracks which might have helped to locate the thieves. The only marks were in the pens. The doors of the pens had been carefully closed. The foxes were all marked and the Canadian National Fox Breeders' Association are determined to do all in their power to bring the culprits to justice. The R.C.M.P. are also doing their utmost to round up the thieves. Owing to the fox show and dance at Borden on Friday evening the task has been made more difficult. The markings on the pens of the stolen foxes are as follows: From Mr. T. A. Dawson's ranch: Female, LZ, 17L, pale silver; female, LZ, 19L, pale silver; female, LZ, 26L, medium silver; female, LZ, 29L, pale silver; male, LZ, 33L, medium silver; female, LZ, 36L, pale silver.

OTTAWA, Nov. 26.—A gain of 8-500 in persons employed by the eight leading industrial establishments who make monthly employment returns to the Dominion Bureau of Statistics was noted for October, according to a statement issued by Hon. R. J. Manion, acting Minister of Trade and Commerce. On November 1 a total of 845,291 persons were employed, which raised the index from 90.4 on October 1 to 91.3 on the date referred to. The index based in 1926 equals 100.

Special Importance "This increase," said Dr. Manion, "is of special importance owing to the fact that it is contrary to the usual seasonal downward movement at this time of year since 1920.

"The expansion at the beginning of the present month continues the upward movement, which has been evident since April 1. In these seven months nearly 142,000 workers have been added to the staff of the employers who report regularly to the Bureau. While, if statistics were available for all employees and all industries, this number would be very greatly increased.

"During this period of recovery, the index has risen from 78.0 at the beginning of April to 91.3 on Nov. 1, or by 30.1 percent, a gain that is in marked contrast with the decline of nearly three points recorded in the corresponding seven months of last year, and also compares satisfactorily with the increases of 3.5, 5.1 and 14.2 points indicated between April 1 and Nov. 1 in 1931, 1930 and 1929 respectively. In fact the 1933 summer advance has only been exceeded in the years since 1920. That was in 1923.

Quebec and Ontario Benefit "The general improvement on Nov. 1 over the preceding month was confined to Quebec and Ontario, where it was considerable. In the Maritime Provinces there was a small falling off in employment; that in British Columbia involved a somewhat larger proportion of the aggregate payroll, while the greatest reduction took place in the Prairie Provinces. Three cities, Toronto, Ottawa and Hamilton, showed improvement.

"An analysis of the returns by industries shows unusually pronounced seasonal gains in logging these having been exceeded only once in the record of 12 years.

Mining and trade also showed seasonal improvement, that in the former being greater than the average. On the other hand, communications, manufacturing, transportation and constructing recorded moderate declines.

FRENCH FLIERS IN AFRICA. NIAMEY, Africa, Nov. 26.—(A.P.)—The French Black Squadron arrived here today from Ousagadougou, continuing an air tour of Africa begun November 8. The squadron is composed of 23 planes flying in mixed formation.
