DALTON SILVER BLACK FOX CO.

By an overwhelming majority, a large meeting of the shareholders of the Dalton Silver Black Fox Company...

The meeting was presided over by the Hon. Charles Dalton, chairman of the company...

The chairman said that they were there that day to discuss an important matter...

Mr. Prowse, while explaining that he had no desire to force the motion on the meeting...

Another shareholder said that before the motion was put to the meeting, he would like to know the object of removing the ranch from its present location...

Dr. Conroy said that he had visited the ranch during the last three or four days for the second time this season...

WHY THE CHANGE. Another shareholder said that before the motion was put to the meeting, he would like to know the object of removing the ranch from its present location...

Dr. Conroy said that he had visited the ranch during the last three or four days for the second time this season...

HON. J. D. HAZEN WILL TOUR WEST

(Special to The Guardian) OTTAWA, July 3.—After Hon. J. D. Hazen goes to Vancouver and well-known battleship New Zealand on the 25th inst., it is his intention to go to Prince Rupert and from there to Dawson City...

He never visited that part of the country and will avail himself of the opportunity to do so. Incidentally he will look into the fishery problem on the coast.

JOHNSON'S BOND NOT FORFEITED

(Canadian Press) CHICAGO, July 3.—The government's action in the forfeiture of the \$63,000 bond of Jack Johnson, negro pugilist, to secure his appearance for trial on Oct. 13 was denied here by Federal Judge Carpenter to-day.

at the ranch from day to day. On the ranch there was a large amount of property of great value and they felt that they should be nearer to it. While, when it was under the supervision of Mr. Dalton they felt perfectly safe, it would not be possible for him to be on the spot altogether.

There then would be a great deal of expense in keeping the ranch properly maintained. All those things made it necessary in the opinion of the directors that the ranch should be nearer the city and consequently nearer the directors, so that they might watch its progress.

Mr. Dalton had excellent luck with the ranch where it was at present, no doubt, but there was no reason why the ranch should continue if the ranch was moved. Its success had been due to Mr. Dalton's intelligence and knowledge in conducting the business, and if the ranch were moved they would still have him as a guide, a friend and counsellor in everything they did, and in all likelihood he did not see why they should not secure a piece of property near Charlottetown where the same good results could be obtained.

The proposal was made in the interests of the company. He did not think that if any of them owned the ranch privately he would be satisfied to have it at Tignish, whether it was at Charlottetown; whether it would be safer he did not imagine, but one would like to be near one's property, to be near to see how it was going on, and to keep a close and proper control over it.

THE CHAIRMAN'S VIEWS. Mr. Dalton said that he imagined that a large number of the shareholders would depend upon his opinion and his advice in this matter, the ranch having originated under him and having continued under his supervision for a good many years with great success. When the proposition to remove was first made to him, it did not meet with his approval. But he was not sure of remaining at Tignish for another twelve months. Supposing he left there—he was not bound to stay there now—it would be a peculiar position to have the business carried on up there with nobody, they might say, residing there to supervise it. There was also some objection to the soil of the present location being too wet; it was a little wet, but they were doing the best they could do. If he left Tignish what would be the situation? He did not think any shareholder would be satisfied to have the ranch there and to have the principal directors, the men most interested, in Charlottetown, some of them practically off the island. Mr. Dalton spoke of the good work done by Dr. Landy, and said that he had no doubt that he would continue in the service of the company if the ranch were removed, and he had no doubt that under the doctor's care wherever the ranch was situated it would be a success. His opinion was that it would be better for the company to have the industry located nearer to the directors, as the more often they visited the ranch the more careful the directors would become. The disposal of the property at Tignish would go a long way towards building the new property wherever it was selected. That was his opinion. He thought that he had the largest individual interest in the company, and he was willing to have the ranch moved to a position where it would be closer to the supervision of the directors. And he might state that it would be an inducement for him to come nearer Charlottetown, if not, in fact, to reside here altogether. (Loud applause.)

Mr. Paton expressed his pleasure at there being such a large meeting. Since his appointment as a director he had had a great many inquiries from shareholders as to the state of the ranch at Charlottetown, and some questions were put to him that it was utterly impossible for him to answer. It would not have been the case had the ranch been nearer and so easier to supervise. They were all partners in that important undertaking and it was the interests of all that the directors wanted to see furthered, in making that proposal. If the ranch were moved to within five or six miles of Charlottetown, it

would be possible for a good many of the shareholders to go out and see things at the ranch for themselves, and, more, it would be handy to the directors in case anything happened.

Mr. A. McLean said that they all knew that Charlottetown was a much nicer place to live in than Tignish. He was surprised at those gentlemen bringing the question before the shareholders. The question for them to consider was: What was the best thing for them? They were not to consider the interests of the directors. They all knew that that ranch had been the best property in the world for many years past. Why should they take any risk at all? He did not see any reason for it. He was very much opposed to the removal of the ranch at the present time—at any rate until they got their money out of it. He thought that they were making a very serious mistake.

Mr. C. G. McLeod said that he had not heard any arguments put forth that would justify them in agreeing

(Continued on page Two)

MANY DEATHS FROM HEAT WAVE

(Canadian Press) CINCINNATI, July 3.—Four deaths and fifteen prostrations are reported here to-day as a result of the heat. Shortly after noon the thermometer took a jump to 96 with prospects of going higher. A breeze swept the city in the early morning and prevented casualties being greater.

SUPREME COURT

Charlottetown, Thursday. Before His Lordship, Justice Hazzard. The case of John A. Chappell vs. Wallace Wheatley, an action for damages for breach of contract, was continued. Several witnesses were examined but the case was not concluded when the court adjourned to 10.30 o'clock this morning.

THE ANNUAL MILITIA CAMP

With the heavy downpour of rain that there was on Wednesday night, the militia forces in camp on the exhibition grounds had an unpleasant time. It proved a wet and nasty and cold night, but in spite of that the general health of the camp continues to be good.

Yesterday the respective units were engaged with more military exercises at the Kensington range, and were also employed at various drills. In the afternoon the Light Horse went out for a route march which extended into the city.

To-night Colonel Nelles, from Toronto, is expected to arrive in the city for the purpose of inspecting the Light Horse. This inspection will take place on Saturday.

In the course of next week the whole camp will be engaged in special field maneuvers, containing a night bivouac and a field sham engagement. This will take place on the Charlottetown Royalty. The forces will be inspected during these operations by Colonel Rutherford and Maj. Hayter, of Halifax, who are expected here on Wednesday.

As stated before, the Minister of Militia, Col. S. M. Hughes, is also expected to visit and inspect the camp. He is likely to arrive here on the 9th, inst. from Halifax. There is a probability also that he will be accompanied by General Sir Ian Hamilton, Inspector of the Overseas Forces, Col. Hughes and Gen. Hamilton are due to arrive from the west in Ottawa to-day and they will be in Halifax next week, and from there are expected to come to the Island.

A meeting of the officers of the forces here was held on Wednesday night to make arrangements for suitably entertaining the Minister of Militia, if he comes to Charlottetown. There will be a luncheon at the camp, and a smoker at the Armouries.

CHILDREN BURNED TO DEATH

CORNWALL, Ont., July 2.—Shortly after ten o'clock yesterday morning fire broke out in a double tenement on Pitt street. Two children of James Senye were burned to death, one a girl one month old and another five years old.

PRINCE BIDSFAREWELL

ST. JOHN'S Nfld., July 1.—With Prince Albert, second son of King George of England, aboard the H. M. S. Cumberland will sail from St. John's at daylight tomorrow. The visit of the young Prince closed with a garden party at Government House this afternoon. Four hundred guests attended including the Catholic archbishop of the diocese, the Anglican bishop, cabinet ministers, judges and other dignitaries.

DROWNED IN 18 INCHES OF WATER

WINNIPEG, July 2.—While reaching for a tin can which was floating in the tub of an ice-cream freezer to-day, two-year-old Gertrude Wolf, slipped and fell in, head first, and drowned in 18 inches of water.

It was possible for a good many of the shareholders to go out and see things at the ranch for themselves, and, more, it would be handy to the directors in case anything happened.

Mr. A. McLean said that they all knew that Charlottetown was a much nicer place to live in than Tignish. He was surprised at those gentlemen bringing the question before the shareholders. The question for them to consider was: What was the best thing for them? They were not to consider the interests of the directors. They all knew that that ranch had been the best property in the world for many years past. Why should they take any risk at all? He did not see any reason for it. He was very much opposed to the removal of the ranch at the present time—at any rate until they got their money out of it. He thought that they were making a very serious mistake.

Mr. C. G. McLeod said that he had not heard any arguments put forth that would justify them in agreeing

NO DISCRIMINATION AGAINST PULPWOOD AT KENSINGTON

(Special to The Guardian) OTTAWA, July 3.—The Canadian government has received assurance from Washington that in the tariff legislation now pending before Congress there will be no discrimination against Canada in regard to pulp duties.

A statement was made recently that it was proposed to insert a provision in the new United States tariff which would penalize pulp manufacturers in most of the provinces of Canada, to the extent of two dollars a ton as against pulp manufacturers in other countries exporting to the United States.

This would be the result of the operation of the clause providing that pulp manufactured in any province in which there is any increased license fee or any restriction against the export of either pulp, pulpwood, pulp paper or chemical pulp coming from such provinces shall be subject to a duty of two dollars per ton, all other pulp or pulpwood being allowed to enter the United States free.

It is understood that this provision would have operated against pulp manufactured from wood cut on crown lands in Ontario, Quebec and New Brunswick, the export of this pulp amounting to something over a million cords per year.

When the new duties were first under discussion the proposed provision with regard to pulp was brought to the attention of the government of Canada. Communications passed between Ottawa and the British Embassy at Washington and the last day of the recent session the matter was brought up in the House by Mr. Pugsley who urged that the government take action.

The Prime Minister then stated that the matter had been under consideration for some weeks and negotiations were in progress. Mr. Borden intimated that if the United States Treasury Board placed the same interpretation upon the language of the proposed enactment as placed upon similar language in the tariff act of 1907, no discrimination against Canadian pulp from wood cut on crown lands. This view would be referred to the United States officials who have duty to interpret the new enactment and their statement that there shall be no discrimination is the result.

(Canadian Press) WASHINGTON, July 3.—After three months of tinkering the Democratic Tariff Revision is at last on the way ready for launching as the "United States Tariff Bill."

The Democratic caucus of the Senate late to-day approved the measure as revised by the finance committee and by its own action.

The final meeting of the caucus will be held Saturday when a resolution to bind the senators to its support will be presented and accepted. The Bill is a lower tariff measure as it comes from the Senate than when it passed the House. In spite of this fact the revenues under the tariff will be greater than at first estimated.

COURT ROOM ROCKED WITH LAUGHTER

NEW YORK, July 3.—A cable to The Tribune from London yesterday morning says: Mayfair besieged the doors of the probate court yesterday in the expectation, destined not to be disappointed, that Lady Sackville would give evidence in the famous case of Sir John Murray Scott's will. Fashionably dressed women, who came down the Strand in splendid automobiles, were content to stand one leg on the edge of a step or in the furthest corner in order to get a glimpse of the scene. There was great excitement as Lady Sackville went into the witness box. She is an unusually handsome woman, no longer youthful, but appearing to be scarcely of middle age, although her daughter is now a young woman. One supposed her to be like her Spanish mother, for her eyes and hair and well arched eyebrows were black, and she seemed to need only a mantilla to complete the portrait of a typical Spanish beauty. Her hair, which has just a silvery streak, is extraordinarily abundant, and was dressed in innumerable rolls. Lady Sackville's appearance took on-lookers by storm and her speech completed the conquest, for she spoke with the pretty accent of a French woman, as if English were her adopted language.

Her story made the whole court room rock with laughter, for, after a short explanation of how she came to be friends with Sir John Murray Scott, she gave her version of her alleged offer of her affections to Walter Scott (Sir John's younger brother) and it was this version which aimed shafts of ridicule at the aforesaid Walter. Instead of having offered her affections to him, she told the court, with flashes of indignation and dashes of humor, that it was he who pursued her with declarations of love. She described how, day after day, he plagued her, until one day he went down on his knees and tried to

clutch her around the knees, crying, "I love you, I love you." He hobbled around the room after her on his knees as she retreated. The spectacle she conjured up of Walter Scott hobbling along on his knees was the more excruciatingly funny when one observed Walter Scott himself sitting on a front seat in court, not far from the witness box, a stout and now elderly man.

COOPERATION IN THE FRUIT INDUSTRY

BERWICK, July 3.—The first annual meeting of United Fruit companies of Nova Scotia opened here yesterday afternoon. One hundred and twenty delegates are present.

clutch her around the knees, crying, "I love you, I love you." He hobbled around the room after her on his knees as she retreated. The spectacle she conjured up of Walter Scott hobbling along on his knees was the more excruciatingly funny when one observed Walter Scott himself sitting on a front seat in court, not far from the witness box, a stout and now elderly man.

ORDINATION AT KENSINGTON

A meeting of the Presbytery of P. E. Island was held in Kensington yesterday for the ordination and designation of Rev. E. Lockhart to the mission field of British Guiana. The church was crowded with people from all the surrounding congregations and the sermon was preached by Rev. D. McDermott, Moncton, Convenor of Foreign Mission Committee. The address to the people was delivered by Rev. Mr. Cropper, return missionary from British Guiana.

After the charge to the missionary the Moderator, Rev. John Stirling, duly ordained Mr. Lockhart.

The ordination was followed by the presentation of a copy of the Holy Scriptures by Mr. T. C. James, who, on behalf of the British Foreign Mission Society, the whole service of a most solemn and touching nature.

At the close of the service the congregation was invited to afternoon tea on the lawn of the Presbyterian Manse.

After the tea addresses were given by Revs. Taylor, McKay and Mr. Guy McKenzie. The proceedings closed with the singing of the paraphrase "Oh God of Bethel." Mr. Lockhart leaves early this month for his field. It is expected that Mrs. Lockhart will follow him later in the season.

KIND WORDS FOR CANADA

LONDON July 2.—Lord Strathcona presided at the Dominion Day dinner held here last night, the chief guest of the evening being the Duke of Connaught.

In proposing the toast of The Dominion, Lord Strathcona alluded, among other things, to the pride and gratification with which Canadians had received the news of the Duke of Connaught's extension of time in office of the governor-generalship.

The Duke of Connaught had a magnificent reception in rising to respond. In thanking the chairman for his remarks re the guests, he said:—"I am very much pleased to say she is making a splendid recovery, and looks forward to accompanying me back to Canada in the autumn. I feel most flattered in having been asked to accept an extension of my term for another year. I think all of you will be aware that such an offer made by the king, through the secretary of state, was most highly appreciated."

"You must all feel the greatest confidence in the future and the prosperity of the Dominion. During the time I have held office Canada's advance has been most remarkable."

CHARLOTTETOWN LADY IN ACCIDENT

HOPEVILLE HILL, July 2.—An auto from Moncton, containing Mrs. Edget with children and a chauffeur, ran off the road between this village and Riverside about noon on Monday and the party had a narrow escape from being killed.

The car was steering badly all the way along and finally the dropping out of bolt caused it to shoot off the road into the ditch. The car turned over twice with the members of the party in it and only the high backs of the seats saved them from serious or fatal injury.

One of the ladies had one of her arms and side injured but, almost miraculously, not one of the party was seriously hurt. The wheels of the car were broken besides other damage.

J. F. Edget, Moncton, manager of the Reed Company, and brother-in-law of the ladies, was telephoned for and made a fast trip down, returning in the evening to Moncton with the members of the party.

Had the car made its plunge off the road a little further along or the Chapman creek hill, very serious results would likely have followed. Mr. T. C. Edgett of Charlottetown, above referred to was formerly of Moncton, and is now on a visit to that city. Her friends will hear with pleasure of her escape from injury.

clutch her around the knees, crying, "I love you, I love you." He hobbled around the room after her on his knees as she retreated. The spectacle she conjured up of Walter Scott hobbling along on his knees was the more excruciatingly funny when one observed Walter Scott himself sitting on a front seat in court, not far from the witness box, a stout and now elderly man.

SLAUGHTER AMONG BALKAN ALLIES

(Canadian Press) LONDON, July 3.—The condition of affairs in the Balkan rupture is extraordinary. The twenty-four hours which Bulgarian government accorded to Greece and Serbia to cease operations have expired. During the same period Bulgaria undertook to abstain from hostilities in order to give Russia time to intervene in favor of peace. Hostilities are being carried on both sides with the ferocity characteristic to Balkan soldiers and no declaration of war has been made. The respective diplomatic representatives are still at their posts. Now Russia or the Powers will decide whether Bulgaria shall be precluded in the Balkan confederation.

New complication arose to-day in the decision of Roumania to mobilize her army. What role Roumania will play is unknown but it is regarded as likely she will wait the turn of the war and then side with the stronger force.

Roumania's mobilization causes uneasiness as it offends Austria and is regarded as a defeat for Austrian diplomacy. Little news is to hand regarding the actual fighting in Macedonia, but it is believed that Bulgaria has a plan to prevent Greek and Serbian troops from uniting and it is reported the Bulgarians are now executing a flanking movement in the direction of Egri Palanka.

(Canadian Press) LONDON, July 3.—Reports now are that the Servians' losses in the first three days' fighting were 6,000 killed and wounded. This includes the great battle at Ovatchapolya. The Servians captured 2,000 prisoners and 30 guns from the Bulgarians whose casualties exceeded those of the Servians.

That very heavy fighting occurred is confirmed by the arrival of 3,000 wounded at Belgrade. Official reports at Athens claim the capture of several important towns by Servians and Greeks. It is also reported that the Bulgarians are preparing to attack Salonika and a great battle is imminent.

LONDON, July 3.—The prolonged effects of the powers to prevent the outbreak of war between the Balkan allies seem to have failed just at the moment when it appeared possible for the four premiers to meet at St. Petersburg for Russian arbitration.

Fighting began this morning along the lines where the Bulgarian forces are facing the Servians and Greeks. These probably were only outpost attacks, but, according to the Greek official account, the Bulgarian attacks extended over the Greek and Servian front of forty miles.

"This is manifestly war without a previous declaration of hostilities, and we accordingly are obliged to order our division to advance," says the official statement.

The opposing armies accuse each other of initiating the offensive. The Bulgarian representatives at Athens and Belgrade respectively have presented notes protesting against Greek and Servian attacks.

The Servian Government has replied by charging that the Bulgarians are making attacks and repudiating all responsibility.

In Sofia the outbreak of hostilities is attributed to the machinations of the Servian military league, which it is contended, is determined to prevent Premier Patitch, from consenting to arbitration, and from a strategic point of view, the Bulgarians declare, the Servian attack is aimed at dividing the Bulgarian army at its centre.

LONDON, July 3.—The Times Belgrade correspondent sends the following: "Nobody here doubts that war has broken out, and that Montenegro and Greece, and probably Roumania also will support Serbia."

"The Bulgarians have not omitted any act which usually accompanies a decisive rupture. Save the official protests, communications have been severed between the two countries."

SALONIKI, July 3.—It is thought here that the Bulgarian policy is directed at gaining time to complete the concentration of forces and that a general attack commenced immediately this was achieved. Outpost affairs in the panghaion district and on the River Glavovo were undertaken by the Bulgarians to secure important strategic and tactical positions.

In accordance with instructions previously received the Greeks, who were greatly outnumbered, fell back on the Struma River before the Bulgarian attack, including the town of Elentri has fallen into Bulgarian hands.

Thirty-six thousand Bulgarians attacked Guevghel at 5 o'clock in the morning, and defeated the Servians, thus cutting railroad communication, and it is reported that a strong Greek force is surrounded by Bulgarians, and in a critical position at Nigritia.

SOFFIA, July 3.—It is reported that the Bulgarians have occupied Guevghel at the point of the bayonet. This is an important strategic position, where the Greek and Servian lines join.

It is understood that Bulgarian strategy seems to hinder co-operation, between the Greek and Servian forces and to prevent Servian communication with Saloniki.

clutch her around the knees, crying, "I love you, I love you." He hobbled around the room after her on his knees as she retreated. The spectacle she conjured up of Walter Scott hobbling along on his knees was the more excruciatingly funny when one observed Walter Scott himself sitting on a front seat in court, not far from the witness box, a stout and now elderly man.

ROLLED OATS MILL PROJECT

The matter of the proposed establishment of a rolled oats mill in Charlottetown stands at present in the same position as at the termination of the special meeting of the City Council and the Council of the Board of Trade at which the question was fully discussed with the representatives of the company from whom the proposition emanated. It will be remembered that one of the concessions the company asked for from the city in order to carry out their proposal was for assistance in the shape of a grant of money to meet the extra expense which they claim they will be under the necessity of incurring in order to make proper foundation for their mill on the sites that are available, and which would not have been necessary had the sites been more suitable than they are. It was made clear at the meeting that the City Council had not the power to make any grant of the city's funds in that way, but the suggestion was made that the company might be able to get such assistance from the government, in view of the fact that their undertaking concerned not only the city but in some way the whole province. Upon that suggestion it was decided to approach the Government, and the Premier, the Hon. J. A. Matheson, was to be interviewed with a view to his arranging for the deputation from the milling company to meet the Executive Council, and lay their proposals before them. At the time, however, the Premier happened to be out of town; he had gone to Tignish; by telephonic communication, however, he arranged to meet the representatives of the milling company on Wednesday afternoon. But it transpired that Mr. Wheaton, the principal representative of the company, received an urgent call back to headquarters, and had to leave the city for Halifax on Tuesday morning, so that the meeting with the Premier fell through. However, before leaving, Mr. Wheaton stated that he would be prepared to come down to Charlottetown at any time the Executive Council would accord him a hearing. As there is to be a meeting of the Council on Tuesday next, he is being communicated with, to the effect that the Council will be prepared to receive him on this occasion, and hear the proposals of his company.

DR. HIBBERT WOODBURY HAS PASSED AWAY

JALIFAX, July 3.—Dr. Hibbert Woodbury is dead. In his death Halifax loses a man whose first idea was the public good, his own interests being secondary. It can be truthfully said, as one of his friends remarked last night, that he practised his profession in order that he might live, and he lived to be of public good, to help humanity and the furtherance of Christian principles, ideals and conduct.

For several years Dr. Woodbury's health has not been robust, but he had to be careful. He knew that his heart was not strong, and it was this weakness which was the immediate cause of death yesterday afternoon.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC.

One cent per word each insertion in this column. Cash must accompany order. Minimum charge twenty-five cents.

\*\*The Public are hereby notified that the West River Bridge will be impassable for teams from June 30 to July 4th next. A. McLaughlan, Road Master. 6-30M31
