**AS AGE CREEPS ON**

As age creeps on, vital force gradually decreases, until, when a man or woman is around 50, the kidneys and bladder need assistance to keep them in perfect working order.

Rheumatism, neuritis and backache are common complaints of those getting on in years. It seems to be the custom to expect these afflictions—conclude they are simply the inevitable results of old age, and that there is no remedy for them.

There is a remedy—Gin Pills—and there are hundreds of people who can prove that the remedy is good.

Mr. Frank Lalonde, a well-known farmer of St. Raphael, Ont., was enabled to return to work at the age of 61 by the help of Gin Pills. Mr. Lalonde writes that he had suffered for years with pain in his back and sides, until finally he was forced to quit work. Gin Pills relieved him to such an extent that he now states he feels as strong at 61 as he did at 30 years.

Mrs. Hugh McLeod, of Lewis Cove Road, had a similar experience with Gin Pills. In her letter to us she says:

"I am 51 years and the mother of 8 children. Five years ago I was troubled with backache and dull pains across the abdomen. I used a box of Gin Pills, and feel so much better that I will continue to use Gin Pills."

Testimonials such as these cannot be disregarded, for the aged speak the truth.

It is foolish to suffer when you don't have to. Use Gin Pills and enjoy your latter years. 50c a box. \$3.00 by all dealers. Sample free upon request to The National Drug & Chemical Co. of Canada, Limited, Toronto, Ontario, U. S. residents should address N. D. Co., Inc., 202 Main St., Buffalo, N. Y.

**Do You Know**

That we operate the only Lens Grinding Plant on P. E. Island?

That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most complicated kinds of lenses?

Those are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses.

Send your glasses in by mail, you'll get them back promptly and in perfect condition.

Call in and look over our plant.

**\*FISHING GOOD.**—There was a fairly good catch of codfish in Souris Monday morning. Lobster fishing is pretty good and enough bait to go all around.—S.

**\*TO LOAD BAIT.**—The schr. "Outlook" is in Souris from Murray Harbour waiting for a Magdalen schooner to arrive with a ball of bait herring.—S.

**\*SCHOONER SAILS.**—The schr. "Mina" sailed for Grand River for potatoes preparatory to finishing loading with lumber, hay and etc. for St. Pierre.—S.

**\*CARGO OF POTATOES.**—The schr. "Bella Row" sailed for Pictou with 450 bus. potatoes shipped by Mr. Milton Dingwell, of Bay Fortune.—S.

**\*LAND SURVEYED.**—Alex. McEnchorn, of Savage Harbor finds, unexpectedly, that he is the half owner of the lobster factory at that place. The factory was thought to be on the adjoining land, but a Surveyor last week, Mr. John Alfred McDonald, Hermanville ran the desired line, which penetrated the factory dividing it in two.

**CANADIAN TRAINING FOR FOREIGN TRADE.**

"Jolt and Jerk" action by the Canadian Trade Commission to bring about an awakening to the need of modern training for students in foreign trade methods has had the unexpected effect of having been welcomed by leaders of progressive education. The subject is to be given prominence at the Conference of Canadian Universities, in Ottawa on May 22.

Foreign trade and higher commercial subjects are ripe for extension in at least three of the universities. McGill and Laval (Montreal) and Toronto have already courses which with small adaptation would be suitable for the new needs of Canada in the upward swing of export trade that must take place of our industries are to take their full share in paying the burden of the war.

The most advanced work has undoubtedly been made in the Faculty of Commerce of the Laval University, although the affiliated School for Higher Commercial Education. An annual allowance of \$50,000 is granted by the provincial government of Quebec. The school has established seventy-five yearly scholarships, and the Director states:

"Public opinion in Canada is generally unaware of the great importance of such a course of commercial science, but our institution has been able to progress steadily, and at the present time can be very favorably compared with similar European and American institutions. Our institution is intended to give the preparation required by modern conditions, and to hold the relations to business and industry that schools of law and medicine hold to their prospective professions. Our curriculum includes lectures on subjects required in all European and American universities for admission to the outside service either as consul or Trade Commissioner. The complete course is for four years, leading to the degrees of Bachelor and Licentiate in Commercial Sciences, and after two years of practical work in Canada or abroad, graduates preparing a satisfactory thesis can get the degree of Doctor in Commercial Sciences. The languages taught are French, Spanish, Italian and German."

In Toronto a good deal has been done in the Departments of Political Science and of Commerce and Finance to educate men competent to occupy high positions of trust in the commercial world. The university is now specializing in Spanish for commercial purposes.

The difficulty in the past in Toronto, and apparently at all other Canadian universities, is that there have not been openings sufficiently attractive to induce the best students to enter Canadian foreign trade. There does not seem to be a lack of the material. One suggestion is to offer Government scholarships of about \$750 a year to enable trained graduates to go abroad.

Several of the universities have in the past few months established courses to fit ex-soldiers for civilian occupations, and two at least report that a short course in foreign trade would be taken up cordially by many ex-soldiers.

Sores heal quickly. Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a new way for the new skin. It is the recognized healer among oils and myriads of people can certify that it healed where other oils failed utterly.

**\*TWO CENTS PER WORD** each insertion for advertising in this column. Cash must accompany order. Minimum charge twenty-five cents.

**\*FOR MAGDALENS.**—The S. S. "Lady Evelyn" arrived in Souris Monday morning on her first return trip from Magdalen Islands. Capt. W. D. Pearl is in command and Mr. Thomson purser.—S.

**STONE LAID FOR EACH TRIBE**

The foundation stones of the Hebrew university at Jerusalem, recently laid in the presence of General Allenby and the representatives of the French and Italian detachments, are 12 in number, one for each of the 12 tribes of Israel.

The site is on the summit of the Mount of Olives, facing Jerusalem on the one side of the Hills of Moab on the other.

Mothers can easily know when their children are troubled with worms, and they save no time in applying the best of remedies—Mother's Worm Exterminator.

**FOR PENNY POSTAGE.**

The United States is returning to penny postage on the 1st of July, after two years' experience of three-cent postage which was put into effect as a war measure. The experience gained in that period has satisfied the authorities at Washington that the amount derived from the tax did not compensate for the inconvenience it caused the business interests. Some of the Canadian newspapers are now advocating a similar policy for that country, and it might be well if our authorities considered whether it was worth while to maintain the three-cent rate in this country after the end of next month. In Britain, too, there are indications that the three-cent rate will be dropped, so that the English speaking world will get back to a penny postage rate in the near future.—Ex.

Miller's Worm Powders are not surpassed by any other preparation as a vermifuge or worm destroyer. Indeed, there are few preparations that have the merit it has to recommend it. Mothers, aware of its excellence, seek its aid at first indication of the presence of worms in their children, knowing that it is a perfectly trustworthy medicine that will give immediate and lasting relief.

boil and beat two minutes.  
Then put in two cups of sugar and beat for ten minutes at least.  
The yolks and sugar should be beaten for 15 minutes if you want your cake perfect—and who doesn't?  
Put in one cup of boiling water, but remember you must put in only a little at a time to have it just right.  
Next you add the stiffly-beaten whites of six eggs, and last you put in three teaspoonfuls of baking powder which is mixed in two and one-half cupfuls of flour.
