

WOMAN DISPLAYS GREAT FORTITUDE

PITTSBURG, Pa., Sept. 13—One of the most remarkable examples of fortitude and nerve on the part of a

woman in the annals of the medical profession, according to physicians, was manifested at the Homestead Hospital today when Miss L. Simmons, thirty years old, a member of a prominent Pittsburg family, submitted to the amputation of both feet, taking only a mild anesthetic. Miss Simmons was born with deformed feet and has been barely able to move. Her feet were turned in-

ward in such a manner that she was unable to take steps, and she has been using a wheeling chair all her life. Physicians have performed operations in the hope of straightening her feet, but all have proved unsuccessful. Several days ago she told members of her family that she thought if both feet were removed she would be able to walk much better.

Physicians say this would add to her crippled condition and probably result in death, but Miss Simmons was insistent. She sent for Dr. John Shafer, an eminent surgeon of Youngstown. Dr. Shafer held a consultation with Dr. T. M. Kerr and it was finally decided to remove Miss Simmons to the Homestead Hospital for an examination.

"My heart is good and I can stand the shock," she smilingly told the physicians when they tested her strength. "Go ahead and cut them off."

But it was found by the physicians that the patient's heart was not strong and that a powerful anesthetic, such as could be required in her case, would very likely prove fatal. They told Miss Simmons this. She only smiled and told them to proceed, that she could endure the operation.

A mild anesthetic was administered this morning and the operation was successfully performed. During the entire operation the woman was only partially under the influence of the drug. Immediately after she revived fully and remarked—"I am glad it is all over. I know I will be able to walk now."

Miss Simmons is in splendid condition tonight, it was said at the hospital, and hopes to leave in a few weeks. She plans to use artificial feet in the future.

MAKES CLOTHES WEAR LONGER

SUNLIGHT SOAP, compounded scientifically by expert chemists, contains nothing to harm your clothes and is absolutely free from biting and bleaching chemicals.

It works equally well in hard or soft water, works into a rich, creamy lather almost at a touch, and leaves clothes soft, clean-smelling and white as snow.

Use Sunlight Soap according to directions—try it just once—and convince yourself that it will do twice as much as other soaps.

5c

Use Sunlight Soap This Way Do not boil or rub clothes—it weakens and tears fabrics. Soak and soap well with Sunlight, allow to stand for half an hour; rinse, wring and hang out to dry. That's all.

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Grew a Full Growth of Hair on a Bald Head

Here's the Proof

Two or three years ago my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Wyeth's Sage and Sulphur Hair Remedy. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair and it keeps coming in thicker. I shall keep on using it as long as I can, as I notice a constant improvement.

The birthright of every man, woman and child—a full, healthy head of hair. If your hair is falling, if it is full of dandruff, or if it is faded or turning gray, it is diseased and should be looked after without delay.

Wyeth's Sage and Sulphur Hair Remedy, a true Hair Tonic and Restorer, removes dandruff in a few days, stops hair falling in one week, and starts a new growth in a month.

Wyeth's Sage and Sulphur does not soil the skin nor injure the hair; but it is an ideal hair dressing that will restore faded and gray hair to natural color and keep the hair soft and glossy.

The "Ohio" Gasoline Engine

has been longer on the market than any other gasoline engine sold in the Maritime Provinces. It has all the good features of other engines, besides a number of its own. Its vertical valves means more power and less fuel consumption. The fine finish shows that it has good workmanship throughout. Ohio Engines have been running nine years and are doing as well to-day as when put in. Don't buy an inferior engine when you can get a good one at practically same price. The Ohio Hopper Cooled Engine is complete in itself, requiring no outside gasoline tank or water barrel, making it the best and most complete self-contained engine on the market.

LOOKING FOR HIS CHILD

HALIFAX, Sept. 13—A Boston man arrived in the city a few days ago to endeavor to get the custody of his little boy, who it is alleged was brought to Halifax by his mother. The mother is a Halifax young woman, but several years ago she married a resident of Boston. They lived happily together but over a year ago there was some trouble and the couple separated.

The wife came back to Nova Scotia and brought the child with her. Since that the wife has been living with relatives. During the interim the divorce proceedings were instituted and the husband was given the custody of his children. The father arrived in Halifax late last week and is now endeavoring to get possession of his boy.

It is stated that legal proceedings will be taken as the wife declines to part with her child. Yesterday afternoon, Ritchie and Robertson, acting for Edward Bolt of Boston, commenced habeas corpus proceedings in connection with the above case, calling upon his former wife to produce the child in court.

The case came before Judge Graham in the Supreme Court this morning, and W. J. O'Hearn opposed the motion to hand over the child to the father. A motion was made to adjourn the case and to leave the child in his mother's care in the meantime. This motion was opposed but finally the matter was adjourned until Thursday, and Mrs. Callen, the immigration matron, was appointed custodian of the child until the case is disposed of on Thursday.
