P. E. I.'S ADVANTAGES.—Mr. John A. Anear, of Lower Montague, was a passenger by the Earl Grey yesterday, returning from a visit to his daughter, Mrs. J. W. O'Brien of Hantsport, N.S. While there he visited some of the leading apple packing houses in the Annapolis Valley and some of the large barrel-making establishments. He enjoyed his visit very much. He thinks that Prince Edward Island can grow quite as good apples as are grown in the Valley. He says the land is much more easily worked and that the Island has many advantages so far as fruit-growing is concerned. He left yesterday for his home in Lower Montague.

SERIOUS ACCIDENT.—Mr. Andrew Murphy while out driving New Years met with painful injuries as the result of his horse running away and throwing him out. While coming around a street corner, the horse swerved suddenly, upsetting the sleigh and throwing Mr. Murphy out with great force. Mr. Murphy's arm was broken near the shoulder and he was somewhat cut about the face. Dr. McMillan attended to the injuries.

POLICE COURT.—As an excellent commentary on the good behaviour that generally prevailed in Charlottetown on New Years Day was the meagre list of cases for trial at the City Magistrates Court yesterday morning, there was only one case of drunkenness—Patrick Mullins being the defendant, and the fine inflicted upon him was \$2, with the option of five days imprisonment.

FREETOWN SCHOOL.—About thirty visitors assembled in Freetown Village School Tuesday, December, 23rd, to witness the half yearly examination. The pupils who were thoroughly examined in the different subjects by Mr. Auld, a second year student and by their teacher, Miss Jenette MacDonald, showed by their ready answers that they had been carefully trained. At the close of the examination, there was a lengthy program rendered consisting of readings, recitations and singing. Then one of the pupils, Wilfred Curley, presented the teacher with a Manicure Set and a toilet set accompanied by the following address: Dear Teacher: As the holiday season is fast approaching and our hearts are filled with mirth; we think it fitting at this time to express in some way our appreciation of your efforts in our behalf. Since you have come amongst us we have learned to love you, and our studies instead of being a task, have become a pleasure. Although we have oft times been disobedient and careless, yet you have always dealt with us kindly and patiently, far more so than we have at many times deserved. Please accept this gift and with it our heartiest good wishes for a Merry Christmas. Signed on behalf of the pupils. The teacher who was pleasantly surprised; thanked the pupils for their kind remembrance and then treated them with homemade candy. After a few complimentary remarks, the examination was brought to a close by singing the National Anthem.

Description of Ranch Property
The ranch is located within ten minutes walk of O'Leary Station, consists of ten acres of land admirably adapted for fox ranching; five acres being covered with mixed wood. There is also on the premises a dwelling house and barn for the use of the ranch manager.

The fox ranch property comprises one acre of land surrounded by a ten foot guard fence. Within this enclosure are ten large commodious pens constructed according to the latest designs. The walls being protected with galvanized steel to prevent wire climbing. Experienced fox ranchers who have visited this ranch claim it to be an ideal home for Reynard.

Description of Foxes
The directors have secured ten pairs of the best Patch Foxes procurable; these are now in the ranch.

Prominent fox breeders claim that this class will produce large litters with at least 25 p. c. genuine Silvers.

Management of the Ranch
The ranch will be carefully managed by P. M. Evans who is an experienced fox rancher, and the company feel confident that the 1914 litters will enable them to pay handsome dividends. Further the company has already sold options on five pairs at \$2500 per pair to be delivered September 1st, 1914.

Enquiries for Silver and Patch Options are being received daily.

Estimate of Dividends

Cost of foxes with ranch property	\$30,000.00
Ten pairs yield twelve pairs at \$25.00.....	30,000.00
Less ranching expenses.....	28,500.00
Or over 80 p. c. on invested capital ...	1500.00

In addition the directors feel confident that there will be at least three pairs genuine Silvers, which may be kept as breeders, or disposed of. This you can readily see will further assure greater dividends.

Note the Following
From Lampsons and Co's. sale of furs on Oct. 28th, 29th, and 30th, 1913, Fox Cross advanced 150 p. c. and were most eagerly competed for at record prices.
For Silver advanced 40 p. c. sold very well. The finest dark show little change in value, but all the paler and inferior skins, especially those resembling fox cross realized very high prices.
Applications for stock may be made to the Sec'y or any of the directors. Intending investors will remember that this stock is selling rapidly. Money will be returned if stock cannot be allotted.
