GERMANS STILL RETIRING, HARD PRESSED BY BRITISH

BRITISH HEADQUARTERS IN FRANCE, Nov. 7.—The Germans are retreating all along the front of the First Third and Fourth British armies which are pressing them hard. The heavy rain continues and the ground has become sodden; thus while it handicaps the British movements it equally impedes the enemy in his efforts to save material.

German Mission Leaves Vienna

AMSTERDAM, Nov. 7.—The German military mission has left Vienna, according to advices from the Austrian capital.

Always on hand

THERE are days when you may not need milk at all, or don't use all you get. —and other days when your milkman forgets to call, or when you "run short" of milk.

Until you have tried Carnation Milk you cannot realize how handy, how economical it is to get your milk supply in this form.

For then, you are never "caught without" milk. Yet you have milk that is always fresh.

You may keep a can of Carnation Milk on a cool pantry shelf for months—it is sealed safe against contamination, stays

fresh, pure and wholesome. Even when the can is opened the milk will "keep" for several days—so there is no waste with Carnation Milk. And it is always ready to use.

It is rich, pure, "whole" milk (not separated)—Carnation Milk "from Contented Cows." It is evaporated to the consistency of cream. Only water is taken from it. Then it is sterilized. No preservatives are added. And no artificial sweetening.

Use it every way you use ordinary milk—as cream for coffee or cereals, diluted with water for cooking or for the children's drink.
