The Tea Taster

Is a very important personage in the factory where teas are blended and packed. He brews the beverage with great exactness, and directs the experiments for new blends from his judgment of the taste. The taster who was responsible for our "Matchless" blend of Ceylon tea has had his good taste endorsed by many housekeepers, which is the true test of a tea's taste. 55c lb., 5 lbs. or more, 50c.

OUT TO "GET" RIVAL GETS TERM IN JAIL

COBALT, ONT., Feb. 22- Dmytro Plauik, a foreigner from Montreal heading for South Porcupine with the avowed intention of dealing summarily with the unnamed rival who, he said, had stolen his prospective bride, was taken off the train between here and Englehart by Provincial Constable Jack Ataman, and is now behind the bars. When searched, Plauik had a loaded revolver and some spare cartridges in his hip pocket, and as a result went to jail for five months. Plauik told the police he was on the trail of the man who had coaxed away the girl he was about to marry.

PLEASANT ENTERTAINMENT—The concert and Pie Social held in St. Charles school on Feb. 14th. was a grand success, the program consisted of musical selections, dialogues, recitations, songs, and also step-dancing. After the program, pies were sold and served with tea. The dainty refreshments and splendid dancing floor requires special mention. Mr. Michael Whitty performed his part well in Auctioneering the pies, for whic ha satisfactory sum was realized. Miss Malone teacher is indeed to be congratulated upon the success achieved by her although her charming personality is a sufficient guarantee of success, upon all occasions. The young people spent the remainder of the evening in dancing, music was furnished in its best form by Mr. Adolphus Burke, of Rollo Bay. The young people of St. Charles are hoping another social evening of this nature will be held in the near future. (Patriot Please Copy.)

INTERESTING ADDRESS—Those who were present in St. Peters Schoolroom Thursday evening enjoyed one of the pleasantest and most instructive events of this winter in the bright, illuminating address of the Rev Mr Malone, and its accompaniment; the piano solos by the Misses Vinnicombe and Moore, the vocal solo by Mr Acorn and the violin solo by Professor Vinnicombe—the latter in the old-time vein. Mr Malone gave a vivid description of the Danish West India Islands, St John, Santa Cruz, and St. Thomas—particularly the latter. He referred to the old buccaneering days in which St. Thomas was the haven of pirates, the more recent times during which barrowfulls of doubloons were trundled on the streets, and the present time when deprived of the profitable trade of pre-telegraph and steamship days, its prosperity has been considerably lessened. He also graphically pictured life in Montserrat—famed for its lime juice and supplies as very interesting account of the social conditions of the people. The address was given under the auspices of St. Peters Branch of Women's Auxiliary of which Mrs Tidmarsh is president and the receipts will be applied to the promotion of Church of England missions. A hearty vote of thanks, moved by Mr. W. L. Cotton and seconded by Mr. Moore, was given Mr Malone and those who contributed to the plensure of the evening.

Bucket Shops Dropping by The Wayside

NEW YORK, Feb. 23.— Storms in speculative Wall Street, which swept the brokerage firm of Kardos & Burke into bankruptcy last night, hit four more houses today. Involuntary petitions in bankruptcy were filed in Federal Court against S. S Ruskay and Company, liabilities estimated at $2,500,000 and assets at $1,500,000.

J. W. Bell & Company, liabilities estimated at $150,000 and assets at $10,000.

Rodney & Company, liabilities and assets not given.

The New York Club Market announced the suspension of Rassmussen & Co. for alleged failure to meet its engagements.

Many Failures.

A steady stream of failures for the last month, with heavy loss to customers throughout the United States and Canada, recently jedi District Attorney Banton to start an investigation of alleged irregular practices by brokers the most common of which was alleged to be the bucketing of orders.

Of thirty odd firms that have gone into bankruptcy since the first of the year twelve have been found by the Grand Juries to have indictment of some of their members. Nineteen persons are under indictment and several of them are reported to have disappeared from the city.

Unusual interest attached to the Kardos and Burke failure because of the fact that the junior member of the firm, John Burke, was treasurer of the United States under former President Wilson. He resigned that post in 1921 to go into business with Kardos, a 26 year old broker who started on Wall street eight years ago as a $10 a week messenger boy.

BOSTON BANDITS ROB BANK MAN

BOSTON, Feb. 24.—Three bandits in an automobile last night stole $2,405 from John Murphy, a messenger for the Somerville Trust Company, one-quarter of a mile from the bank. He was taking a day's receipts of the Francis S. Cummings Company, milk dealers, to the bank in the bank's automobile. The money was in an unlocked safe in the rear seat. The bandits escaped. Murphy told the police that the bandit's care bore the Massachusetts license No. 119,700.

SOME EXILED RUSSIANS SEEK ROMANOFF'S RETURN

LONDON, Feb. 22.— A meeting of Russians in favor of a constitutional monarchy will be held in Berlin on March 4, says a Helsingfors message to the Exchange Telegraph Company. The meeting will discuss the question of the restoration of the monarchy in Russia in constitutional form under the Romanoffs, with a responsible ministry and national representation.

OTTAWA, Feb. 24.— "Canada must arm at once for the war of commerce. The greatest weapon in this war is knowledge. Knowledge of what you can do and can't do with your raw materials. Knowledge of the best ways of doing everything we do. Great Britain could never afford to let any other have more ships, or better ships and guns; other can we Canadians allow other nations to exploit our raw materials and make the wealth we should be making for Canada—simply because they are armed with knowledge of scientific methods while Canada is not." This appeal was made here today at the luncheon of the Canadian Manufacturers' Association by Col. F. M. Gaudet, representative of the Scientific Research Council.

New Sensation In Bottomley's Latest Action

LONDON, Feb. 22- The jury, after two minutes' deliberation yesterday at the Shropshire Assizes, found Reuben Bigland not guilty of the charge brought against him by Horatio Bottomley, M.P., of inciting three persons to blackmail him (Bottomley) during a by-election in 1920. Bottomley failed to enter the witness box to support his case, and this fact was used against him in the summing up by the judge.

Bigland, under examination in the box, made amazing allegations relating to his connection with Bottomley. He declared that he had helped Bottomley to launch a bogus lawsuit in which Bottomley obtained a verdict before Mr. Justice Darling, who heard the present case, of £500. Bottomley afterwards paid Bigland £100.

In summing up the present case Mr. Justice Darling remarked on Bottomley's refusal to enter the witness box, and also the fact that he had not said a word in contradiction of the almost incredible story about a lawsuit.

An interview with Bottomley appears in the Sunday Illustrated, for which publication Bottomley writes. He declares that the Shropshire verdict was a foregone conclusion after the judge's attitude in summing up. He declares that he had not entered the witness box because his counsel had advised him that none of the allegations against him in connection with his Victory Bond Club had any bearing on the charge of incitement to blackmail, and tat he should await the conclusion of the inquiry into the Victory Bond Club. Also, he did not desire to give the defence an opportunity of throwing more mud.

Gulf Stream Veers, Gives Ship a Lift, Says Skipper

NEW YORK, Feb. 24.—Every now and then an observant skipper gets a little excited about the unusual behavior of the Gulf Stream or some other current that temporarily puts a section of the marvelous stream out of business. Skippers know that the Hydrographic Office is intensely interested in what it ofcially terms "reports of unusual currents," and they send in detailed accounts of the ocean's eccentricities.

The H. O. interest in the H-20 or the liner lanes does not mean that it takes the same point of view as the recorder of the phenomena, for it says distinctly in a recent Hydrographich Bulletin that "reports of unusual currents will be published for what they are worth." This may be interpreted to mean that the H. O. may take some of the most miraculous accounts it receives with a grain of ocean salt.

The latest observer of remarkable current events, as the ship's jester might remark, is Capt. Karl Graalfs of the Hamburg-American liner Wuertemburg, in from Hamburg six hours earlier than he expected to be when he sent a wireless to his agents on Saturday while nearing Nantasket Lightship.

He predicted that he would get to Quarantine at noon yesterday, but along came the puzzling current, right on the westerly edge of the Gulf Stream, and boosted him six hours. He is going to put the problem up to the H. O. because, he says, he cannot venture a solution himself.

"erhaps," he remarked yesterday laughingly, "a section of the Gulf Stream broke off or turned on its course and started to head for the United States, where most of Europe seems to be thinking of coming just now."

After meeting nothing but westerly gales, which usually have a tendency to speed the Gulf Stream on its normal course, on nearly every day of the trip, Capt. Graalfs said he was naturally astonished to run into the strange current bound west that added a half knot to his speed. He had no comment to make to the suggestion that maybe the Labrador Current, which flows on the inshore verge of the Gulf Stream, may have been pushed down into the great stream by northerly and northwesterly gales.

C. P. R. AND WEST INDIES

KINGSTON, Ja., Feb. 24.—Celebrating the entrance of the Canadian Pacific Steamship Company into the West Indian trade, the commander and officers of the S. S. Sicilian entertained at luncheon on Saturday a large number of the leading business men of this city. R. S. Gamble, speaking for the local merchants, welcomed the Canadian Pacific to Jamaica, and hoped it would aid in developing closer relations between Canada and the British West Indies.

R. C. M. P.'S. HUMANE WORK

OTTAWA, February 24.— Further evidence of the humane work being carried on by the Royal Canadian Mounted Police in the Northwest is contained in a report received by Commissioner Perry from Inspector G. F. Fletcher, commanding the Great Slave Lake subdistrict. The report was made by Constable Grinstead of the Fort Fitzgerald detachment, following a trip in which he brought food and supplies to 40 starving Indians and gathered them into a colony.

The destitute Indians were scattered in the vicinity of the Martin River and Rat Creek, northeast of Lake Athabaska, and just north of the Alberta boundary, where, owing to recent fires, fish and rabbits were scarce and the band were depending on the few caribou which strayed into their country for sustenance.

Girls Took Charge Of Hotel Biltmore

NEW YORK, Feb. 25.—A thousand debutantes and former debutantes took charge of the Hotel Biltmore today and [illegible] most happy and [illegible] for the benefit of the [illegible] to the Prevention of Tuberculosis.

Society girls and matrons served as waitresses and room clerks, and presided over cigar counters, news stands and tea tables. Each volunteer was gowned in a white uniform with a dainty blue apron and headpiece.

Newspapers sold at a dollar and more and dinner tips ranged as high as $75. Pretty girls posed as bellhops. The obby was filled with "debs" selling all manner of articles.

Those who bought programmes found that there were so many things going on in the hotel it was almost impossible to see them all. One floor housed a circus, a bazaar was on the next, atea dansant further up, and a bridge tournament still higher. The winner of the tournament was given a parterre box for a performance at the Metropolitan Opera House. A style show with popular "flappers" and "debs" as models attracted hundreds, with longnettes and without, and others went to the roof in the afternoon o see a comedy played by society girls.

Orchestras seemed to be all over the hotel and where there was music there was dancing. At dinner Broadway actors and show girls came in for a cabaret performance and others flocked over for the midnight frolic. This ended at 3 o'clock and then the business of running the hotel was given back to the regular employees.

YOUNG MEN SET OUT TO CURB FLAPPERS

BABYLON, N. Y. Feb. 24.— Twenty five young unmarried men of this Long Island town have set out to curb the flappers. After a solemn symposium, the following resolution was dapopted:

"We unmarried men of Babylon, L. I., in indignation assembled, do hereby solemnly declare that:

"Whereas, there has arisen a fad among young women of wearing their golashes unbuttoned, and of rolling their stockings downward to a point of impropriety, both of which, in our opinion, are slovenly and unnecessary,

"Resolved, we do agree not to be seen n public with any young woman who practices these useless and non-sensical fads."

By way of explanation this statement was issued:

"The young men of Babylon are not prudes, but they have a better notion of propriety than did the young men of ancient Babylon."

WILL HUNT SEALS WITH AIR. PLANE

ST. JOHN, Nfld., Feb. 24 — The Martinside airplane with which Major Cutten planned to make an aerial mail trip to Halifax, N. S., will be used this spring in connection with the seal hunt. She will act as a scout, reporting the location of the seal patches to the steamers engaged in the hunt. During the last few days while portions of the Newfoundland Railway have been tied up by ice and snow, the airplane has been employed carrying mails and passengers from St. John's to various other towns. The plane has also been used to communicate with the carry provisions to ships caught in the ice blockade off this port.

Retail Merchants In Annual Meeting

(Continued From Page 1)

solutely refuse to be tax gatherers from the individual consumer. We want to pay every dollar that is necessary but we want to be able to pay that and absorb our overhead as we do our other overhead charges. The public will not stand for direct taxation in that way no matter how they may try to disguise it, it is impossible to do so and we do not want to have anything to do with it. And we are going to give them a splendid fight if the thing comes up."

Mr. Zieman concluded by emphasizing the important place the retail merchant occupies in the community as the link of distribution between producers and consumers. "Politicians have learned that we occupy a very important place in the country and that we are very close to the pulse of the voter."

Hon. Geo. E. Hughes, the next speaker, complimented Mr. Zieman on his eloquent address. He emphasized the strong position the association holds throughout the Dominion and suggested that more retailers be induced throughout the city and country to join the organization, if only for their own benefit.

Mr. W. B. Prowse spoke on the development of the tourist trade and made suggestions along this line which will be taken up at a special meeting to be called in the near future.

Mr. J. C. Doyle, Maritime Secretary of the Association, gave an interesting talk on organization in this province and referred to the good work of the Northwest and Mutual Life Association, which caters solely to the retail insurance trade.

The evening was enlivened by [illegible] songs. Rotary [illegible] books being supplied for the occasion; and many genial [illegible] handled across the tables [illegible] cigar smoke. The singing of the National Anthem closed one of the most enjoyable meetings held in the local history of the association.

Valuable Horses Die In Indianapolis Fire

INDIANAPOLIS, IND., Feb. 22- The large brick horse barn at the Indiana State Fair Grounds here and about 100 valuable horses were burned early today, causing a loss estimated at $200,000. Three horsemen also were burned, two of them seriously, in attempting to rescue the animals.

Harvey Busby, owner of Lord Busby, a valuable pacer, which was burned to death, narrowly escaped after being seriously burned when trapped in the stall with his horse. He was sent to a hospital. Fifteen hundred dollars in currency, which he is said to have had with him, was burned also. A horse, which Frank Meyers was trying to rescue, became panic-stricken and fell upon him, pinning Meyers to the floor. He was seriously burned and trampled upon before freeing himself. Edward Wood, another horseman, was slightly burned.

The dead horses are said to include 60 army horses, several polo ponies, Governor Warren T. MacRay's riding horse, "The Great Rose," a $15,000 mare recently purchased by Thomas D. Taggart, and several show horses owned by Lon McDonald, Grand Circuit race driver.

The horses that [illegible] occupied the northwest section [illegible] the city, and a number had not been found up tonight.

AGRICULTURAL EDUCATION

Impetus Given to All Lines by the Grants Made under The Agricultural Instruction Act.

In the nine years in which the Agricultural Instruction Act has been in force, with its grant of ten million dollars divided between the provinces and spread over a period of ten years, and three Maritime Provinces have received a total of $1,467,561.42, all of which has been spent, as intended, in the advancement of education is practically every line of agriculture. While the detailed application of the money in each province is not exactly the same, the purposes to which it has been put are very similar. The Agricultural representative system has been aided and extended. Short courses have been established and maintained. Demonstrations and lectures have been given in dairying, live stock breeding, and rearing, poultry keeping, bee-keeping, soil preparation and use of fertilizers, improvements of field crops, the care of orchards and fruit growing, and in entomological work. Woman's work has been advanced and women's institutes greatly aided. Boys' and girls' clubs and school fairs have been given to every existing line of agricultural education and in some instances to the originating of lines of development not recognized prior to the passing of the Act in 1913. Of the total amount allotted to the Maritime Provinces in the nine years, Prince Edward Island has received $272,694.79, Nova Scotia $666,877.50 and New Brunswick $527,989.13. The grants under the present Act have one more year to run. The report of the work performed by the funds forthcoming under the Act in the year 1920.21 has recently been issued and can be obtained from the Publications Branch at Ottawa.

Issued by the Director of Publicity, Department of Agriculture, Ottawa, February 18, 1922

IN MEMORIAM

In loving memory of our dear Mother Mrs. S. M. MacWilliam, Pinette, who departed this life, February 25th, 1901.

When the evening shades are falling,
And we are sitting all alone
To our hearts there comes a longing,
If she only could come home.
Oft and oft our thoughts do wander
To a grave not far away
Where we laid our darling Mother
Twenty one years ago today.
