Acids In Stomach Cause Indigestion

Create Gas, Sourness and Pain How To Treat

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sores, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

"ASHES OF VENGEANCE"

A SCREEN MASTERPIECE

Norma Talmadge Excels in Romance of 16th Century At The Prince Edward.

It seems hardly sufficient to say that "Ashes of Vengeance," Norma Talmadge's latest First National starring production, which opened at the Prince Edward Theatre yesterday is a masterpiece. It is a most ambitious motion picture combining the most enthralling spectacle of the 16th century and a love story of delicate charm executed in a thoroughly entertaining manner. Naught but praise is due Joseph Schenck, the producer of this picture, for the magnificent settings of this film. Not only do they suggest the time and scene of the story, but endow the whole with a realism that transports the spectator to the days of chivalry.

But it is the story itself which stands out from these massive settings, a story of hereditary hate and desire for vengeance which is dissipated by the valor of a man upon whom humiliation in every form is visited, and turns to an exalted love which wipes out a long existing feud of two noble families. It would require columns to describe the rush of incident of physical and emotional conflict through which this transaction is accomplished. Mob scenes, thrilling sword fights, romance and political intrigue figure in a succession of situation in natural and logical sequence—and dominating it all is Norma Talmadge. More beautiful than ever, she seemed to us, as the proud Yoeland de Breux more regal, more admirable in her emotional scenes.

And opposite her, Conway Tearle is superb as the brave and noble de Vrieac, despised by Yoeland when brought into her house by her brother, Comte de la Roche his enemy, after sacrificing himself for his fiancée and becoming the slave of la Roche. The action of the play, already moving rapidly, is given impetus with the entrance of Wallace Beery, as the Duc de Tours, cruel

Rheumatism

First stop the pain

In rheumatism, the quickest thing is to stop the pain. A modern way does that so quickly that it seems like magic.

Nothing else applies such concentrated, such penetrating heat as Red Pepper. And heat that doesn't hurt. Every old method seems ridiculous in comparison.

Apply Red Pepper Rub and the tingling heat is apparent instantly. In three minutes it seems to reach the depths. Circulation is started, congestion is relieved. Pain and soreness depart.

The cause of rheumatism may lie deeper. But the pain can be relieved like magic in this way.

Then why spend hours in suffering? Why toss all night? Relief is a matter of moments if you have Red Pepper Rub on hand. Then, night or day, you have the best means modern scientists know to combat it.

Think what folly it is to suffer for hours the pains or soreness which a moment can stop.
