## and PRINCE COUNTY CHRONICLE

SUMMERSIDE AND PRINCE COUNTY  
AGENTS — Mrs. John Pond, 44 Water Street, East. Phone 280-1

New Subscriptions, Advertising should be left with Mrs. Pond  
The Guardian will be delivered daily to any home in Summerside by  
the boy at 7 per day or 100 per week. Phone 280-1 for this service or  
your order to the boy responsible for deliveries on your route.

### WESTERN LOCALS

**ROBIN HOOD** and Calgary Flour the popular brands at L-1075-7-28-11

**FOR RINGBONE**, Curbs or our Horse Blister 50c. Drug Co., Kensington.

**ATTEND** Presbyterian Young People's Rally, Maple Church, Sunday, August 12th at 8 o'clock. L-1471-8-10-21.

**W.M. KIBBLE MEAT MEAL**, Columbia, and Charcoal Biscuits fresh stock from car at Brace's. L-1254-8-10-21.

**VISITORS FROM SYDNEY**—John Saunders, Mrs. Saunders and wife are guests of Mr. and Mrs. J. L. Saunders in N.S. and N.B. and will visit relatives in Bloomfield. Mr. Saunders holds responsible position with the Iron and Steel Co. K

**MAGISTRATE'S COURT**—Judge Darby held court on all day when several cases were disposed of. A young woman from the Summerside Inn filled in at the court for failing to pay for a room and cost, \$20.00 and costs for driving a vehicle without a license. An automobile photograph of a woman was taken for failing to pay a license. A party from Nova Scotia was fined \$15 and costs for consumption of liquor. A case for using a trailer without necessary permits was dismissed. All cases were prosecuted by the R. C. S.

**NO PRACTICE IN O'LEARY**—Many friends will be pleased to hear that Dr. Tanton, M. D., son of Dr. E. T. and Mrs. M. M. Summerside, who graduated from McGill University this year, is establishing a practice in O'Leary, made vacant by the death of his father. Dr. Tanton is a graduate of the Royal Victoria Hospital, Montreal, and has had valuable experience at the Royal Victoria Hospital, Montreal, and other places. His father has a pleasing personality and no doubt will make his chosen profession.

**WEDDING BILLS**—A very interesting place on Wednesday evening August 4th when the daughter of Mr. and Mrs. C. L. Long River, was united in marriage to Mr. Everett Suddards, son of Mr. and Mrs. Hal Suddards. The ceremony was performed by Rev. Mr. M. M. Summerside, who was assisted by Mr. and Mrs. C. L. Long River. The bride was accompanied by her father and mother. The groom was accompanied by his father and mother. The ceremony was held at the residence of the bride's parents.

**MISS CAROLINE McDONALD** who has been visiting her home in Summerside, is returning to her home in Summerside. She was accompanied by her father and mother.

**MR. AND MRS. EDWARDS** who have been visiting their home in Summerside, are returning to their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

### CAPITOL

Today Tuesday Only  
A Great Home-Folk Show  
The Author's Sale Fair

**THE FARMER IN THE DELL**  
With  
FRED STONE  
JEAN PARKER  
and  
FRANK ALBERTSON  
Directed by Ben Holmes from the novel by Phil Stong. Also producer, Robert St. Onge.  
ALSO "COMEDY" AND "SILLY SYMPHONY"

SHOWS AT 3:00 — 7:30 — 9:10  
AIR-CONDITIONED

**BATTERIES**, Spark Coils, Copper Tubing and all fishing supplies, sold at Brace's. L-1254-8-10-21.

**—FLEW TO SYDNEY FOR AIR MEET**—Mr. Reginald Pope of Summerside flew over to Sydney on Saturday to take part in the annual competition of the Maritime Provinces Flying Club at Reserve airport. Mr. Pope returned on Sunday evening. Mr. Pope flies his own plane and has always been an enthusiastic aviator.

**—SUMMERSIDE GOLF**—Most of the Summerside golfers are in Charlottetown this week attending the Maritime meet. Some matches were run off, however, and L. Abbott advanced to the finals in Class B of the club championship, winning the semi final from Allan Holman. Some interesting matches were played in the Class A consolation, when W. A. Tower defeated Alex. Horne. The Ladies Club Cup was declared with the following results: Mrs. Smallman and Mrs. H. Lewis; Miss F. H. MacKenzie and Miss Bradshaw; Miss R. Holman and Miss L. Lewis; Mrs. R. Morrison and Mrs. R. A. Horne. Class B will be drawn for this week.

**—SUCCESSFUL CUB CAMP**—The Cub camp at Fernwood opened last Thursday and continued until Monday at noon. There were 25 Cubs in attendance from Summerside and Borden. The camp was run very efficiently under the leadership of Douglas Henderson, Charlottetown, assisted by Quarter Master Rupert MacNeill, O'Leary; Rogers Stan Brown and Jack McNairn, both of Moncton. Also assisting were Scouts J. R. Brennan, K. L. Mollison and Ed Gallant, Summerside. The time was spent in tests, games and hikes. Practically all the boys passed Cub tests for at least one star. The Cubs and leaders wish to thank Mr. Harrison MacFarlane for the use of his field.

**—SCOUTS' APPRECIATION**—The Boy Scout Committees of Summerside wish to acknowledge with thanks the donation of \$50.00 from the Summerside Y's Men's Club, which helped send many Scouts to Fernwood Scout Camp, who otherwise would not have attended. They also wish to thank the public generally for their assistance with, and patronage of, the two party sales, by which means the balance of the funds necessary for the Boy Scout Camp were raised. This is the first time a provincial camp was held in Prince County. As a result, during the field day last Wednesday the parents and others had an opportunity of seeing the boys in camp, which would not have been possible if the camp had been held in Kings County, as was formerly the case. The camp was highly successful, the boys had a splendid time and every boy was advanced in scouting work.

**—MR. AND MRS. EDWARDS** who have been visiting their home in Summerside, are returning to their home in Summerside. They were accompanied by their father and mother.

**—MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**—MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**—MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**—MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**—MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**—MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**—MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**—MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**—MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

**—MR. AND MRS. FREDERICK HORN** and their three daughters have returned to their home in Summerside after spending their vacation at Staver's Shore, North Bedouque. They were accompanied by their father and mother.

**—MR. AND MRS. ROWAN R. MONTGOMERY** and their little son Robert have returned to Halifax after visiting their home in Summerside. They were accompanied by their father and mother.

### Returned From Pacific Coast

Mr. W. B. McArthur of Kensington arrived home recently from an extended trip to the Canadian West and the coast. He visited a number of western cities before crossing the Rockies to Vancouver. He met many former Islanders in Calgary, High River and Edmonton.

During his stay in High River he was the guest of Senator Dan Riley, a cousin of his wife, and one of the early pioneers—as far back as the rebellion under the leadership of the misguided dreamer half-breed Louis Riel. Senator Riley is a native of Baltic, P.E.I. While in Calgary he was the guest of Mrs. Newton L. McArthur, Premier of Margate, P.E.I., who is hale and hearty at 92 years.

Mr. McArthur noted great activity in the Turner Valley oil fields and was optimistic of the possibilities of its being one of the world's great producers of "black gold." He speaks sorrowfully and sympathetically of the plight of those who are living in the dried-out areas in the southern parts of the prairie provinces, and may be forgiven for drawing an unfavorable comparison between those and the perennially fertile and productive land in this province.

### Farmer in the Dell Now Playing At Capitol

Homespun entertainment with a golden thread of comedy which gives it zest prevails in "The Farmer in the Dell" which brings Fred Stone into screen headliner with Jean Parker.

Against a background of the picture studios, the story is essentially a comedy, with an underlying human drama which touches a responsive chord in the hearts of young and old alike.

The story tells the adventures of Pat Boyer, a lovable old farmer, who is transplanted to Hollywood by his ambitious but rather stupid wife whose greatest ambition is that their young daughter, Adie, shall have a film career. However, it is Pat who is practically shanghaied into a film contract, because he is a homey, natural type. From here on, things happen fast. Ma Boyer goes "Hollywood" in a big way, moves into a palatial home and becomes the target for all the gaffers and hangers-on that infest the screen capital. Pat returns in time to save Adie from marriage with a bogus Russian count.

The role of Pat Boyer is made-to-order for Fred Stone, who brings a simplicity and honesty to the part and highlights it with naive, irresistible comedy. Audiences laugh with him in his dilemmas; cry with him in his heartaches and champion him in his stand against pretense and sham.

Esther Dale, as Ma Boyer, is typical of the ambitious mother. The daughter is played delightfully by Jean Parker, the little farm girl who wants to get married instead of going into pictures. Frank Albertson as Adie's sweetheart, is convincing and entertaining.

Ben Holmes directed the film. Robert St. Onge presided as associate producer of RKO Radio's "The Farmer in the Dell". Ben Holmes directing.

### Aquatic Sports At Summerside

The aquatic sports at Summerside on Wednesday, which were reported briefly in Thursday's Guardian, were made possible by Serg. Patric Ryan of the Summerside Police force and other interested citizens. Serg. Ryan, who is well versed in planning public sports and other affairs of a civic nature took charge of the arrangements for the water sports and never before have they gone over with such success.

Through the kindness of Mr. Grant, contractor for the repairs at the Marine Wharf, a float was made for the boys and Mr. Harold Schurman of Messrs. M. F. Schurman supplied a diving board and other facilities for the sports.

Serg. Ryan took a lively interest in the youngsters, seeing that all got fair play and everything went smoothly.

The officials were Calix Gallant, Alban Gallant, Lou's McKay and C. Perry.

An enthusiastic crowd watched the fun as each event was run off. There is a growing interest in water sports at Summerside, which is an indication that the youth of the town enjoy life in the open. This liking for good clean sport should receive every encouragement as it has proved the greatest deterrent to crime in the world has ever known, and all towns who take a pride in their youth and want to make them useful citizens of the future encourage and provide facilities for sports of all kinds.

The full program as follows: 100 yards swimming race Junior boys: 1 George Pope, 2 Raymond Durant, 3 LeRoy Martin, 4 Urban Morrison, 5 Nelson Arsenault, 6 Wilfred Arsenault.

100 yards swim, senior: 1 Frank Savidant, 2 Fred Gallant, 3 Jerry Gaudet.

Diving: George Pope, 100 yards swim, senior girls: 1 Tillie Gallant.

Under water race: Edwin Gallant, Herman Durant.

Senior diving: Fred Gallant, Charles Deighan.

22 yards swim: 1 Tony Johnson, 2 Fred Gallant, 3 Charles Deighan.

Long distance swim: 1, Elton Johnson, 2 Fred Gallant.

Fancy diving: Raymond Durant, Herman Durant.—S

### Will Purchase Property To Extend Airport

Several matters of importance were brought up at the regular session of the Summerside Town Council last night. It was decided to purchase the property of Mr. Amanda Wells, south of the airport, (the option of which expires in the near future) to extend the airport south for a distance of approximately 1200 feet. Also to close that part of Maple Avenue to traffic, from Northumberland street to the eastern boundary of present airport property.

Councillor Grady drew the attention of the Council to the deplorable state of the Queens Wharf. Mayor Robinson stated that as the Town Recorder ruled that the town did not legally own the wharf, the matter should be brought to the attention of the provincial government at once.

Councilor MacKay moved that a motion be passed asking the government to look into the matter immediately. Other matters of lesser importance were discussed and dealt with and reports of committees received.—S

### Spring Wheat Yield Lowest In Thirty Yrs.

OTTAWA, Aug. 9.—(CP)—Current condition figures for spring wheat is the lowest in 30 years of continuous records, said a crop report issued today by the Dominion Bureau of Statistics. On July 31 the crop was only 95 per cent of the long-time average yield per acre compared with 51 per cent on June 30 and 45 per cent on July 31, 1936.

With the exception of spring rye and flaxseed, other coarse grains included oats at 60 per cent and barley at 63 per cent showed slightly better prospects on July 31, than on the same date a year ago. This was due to the comparatively better conditions in Ontario, Manitoba and Alberta. Compared with June 30, 1937, the condition figures for practically all grains were lower.

According to the results of the June survey, the sown area of spring wheat in the Prairie Provinces in 1937 is 24,599,000 acres, which is an increase of only 77,000 acres over the 1936 area.

In Alberta, reductions in the dry weather districts at seeding time were more than offset by increases in the central and northern districts.

In Saskatchewan, reduced wheat seedings in the south lowered the total area for the province below that of 1936. The wheat acreage increased, however, in Manitoba. The total oats acreage in the Prairie provinces also shows a slight increase over that of last year. Both wheat and oats gained at the expense of the barley area which shows a reduction of over 157,000 acres below the barley area in 1936.

In the Maritime Provinces good prospects were well maintained during the month of July. Spring rains held their own. Pastures showed a slight decline as a result of dry weather but the potato crop in Prince Edward Island and New Brunswick gained a little.

With favorable weather conditions throughout the month, the condition of grain crops in Quebec is well up to average. The potato crop promises some increases over last year, while hay and clover yielded smaller crops. Pastures have stood up well.

The situation in Ontario is in sharp contrast to that of last year when the province suffered from severe drought. All crops showed marked improvement and there has been practically no reduction from the ample prospects evident a month ago.

### A CLIP ON THE NOSE

Some people recommend popping a lump of soap in the patient's mouth. Others speak highly of a cloth clipped on the offending nose.

Then there's a school of thought which maintains—probably rightly—that snoring is generally caused by sleeping on the back.

Suggested remedies are: Tying a brick in the small of the patient's back, or strapping the patient (a snorer we read about the other day does this himself) into a side-sleeping position in the bed.

Personally, we know of only one infallible remedy, and that is to become a hermit.

### TWO DEAD IN PLANE CRASH

OTTAWA, Aug. 9.—The Royal Canadian Air Force said tonight it had received information that a R. C. A. F. aircraft crashed in the vicinity of Grand Rapids, Man., and it was believed both the pilot and crewman were killed.

### Summerside Improvements

A great deal of work is going forward this summer in Summerside, which will place the town in the forefront as regards up-to-date facilities.

The abattoir has been enlarged and a cooling room added with the latest sanitary facilities.

The electric light plant is having an addition built on to accommodate additional machinery, the purchase of which was made necessary to cope with the needs of this growing and progressive town. The pond at the electric light plant is being cleaned out.

Repairs are going forward at the Marine wharf and a new steel rail crossing has been laid down at the east end crossing of the C.N.R.

### SEA BASE

An initial grant of \$400 has been given by the Federal government for the establishing of a seaplane base at Summerside. This was granted after a visit from the Dominion government engineers, who considered Summerside harbor a suitable place for a sea base for transatlantic planes. This much talked of project will now be able to become a fact.

### STREETS

Considerable street work is to be done between now and the fall months and about forty men are at work doing the work. The street paving in this section of the town, which is rapidly growing into a very desirable residential district, is being done in curb and gutter in preparation for street paving in that section of the town, which is rapidly growing into a very desirable residential district. The street paving in this section of the town, which is rapidly growing into a very desirable residential district, is being done in curb and gutter in preparation for street paving in that section of the town, which is rapidly growing into a very desirable residential district.

### BUILDING

Several new buildings are going up in the business section of the town, besides many new houses. On Water Street, Mr. E. H. Strong, K. C., has nearly completed the erection of a brick structure next door to F. W. Strong and Co., which does away with an unsightly piece of waste land, which was left vacant after the fire of 1917 which burned out that part of Water Street. This building is to be used for offices.

Central Street has a new modern steel structure costing in the vicinity of \$5,000.

The new Sclerite building at the east end of Water Street has been started. This with the improved fronts on other buildings in that part, will add much to the appearance of the business section.

Although Summerside is booming and giving employment to hundreds of men.—S

treatment on a snoring wife he'd pretty soon find she was keeping a flat-iron under her pillow for reparation.

Actually, the difficulty in all cases where snorers are awakened by their suffering audience is to convince them that they were snoring.

We've seen clubmen joggled out of oblivion by distraught colleagues who invariably have to have like victims of a monstrous miscarriage of justice.

No amount of witnesses or weight of evidence will convince them that they've been giving a remarkable impersonation of a steamboat in a fog.

Doctors always maintain that the co-operation of the patient is vital to the success of a treatment. It's clear, then, that the first step towards a snoring remedy must be to convince the patient he is a patient.

### CORROBORATIVE EVIDENCE

For this purpose we suggest a small gramophone recording apparatus to be clipped over the face during sleep.

In the morning the patient's snore always invariably has a severe shock. He would never have believed the virtuosity of his nose—those high, flute-like trills, those crisp arpeggios and long, swelling crescendos couldn't be him, surely?

But when the realization had sunk in, he would be far more likely to acquiesce in any remedial course adopted by his nearest and dearest.

Apart from the walking-stick method—which we have dismissed for reasons already stated—there are a number of formulae to choose from.

### Judge Arsenault To Be Speaker At Acadian Gathering

(Continued from Page 1)

necessary between the various French-speaking groups will be given by brother A. Bernard, well known Acadian historian of Montreal, representing St. John the Baptist Society Monastir, Camille Roy, president of Laval University, will speak regarding the mission of a professional man and his influence on society.

Other speakers will include Hon. J. E. Michaud, Federal Minister of Fisheries, Senator A. J. Léger, Moncton, Rev. Aurele Goudbout and Dr. Emile LeBlanc of Pubnico, N. S. and Rev. A. C. P. and Judge A. E. Arsenault of Charlottetown, P. E. I.

### DECISION

(Continued from Page 1)

of the finance committee, told the meeting "we are getting along fairly well with the collection of taxes, both this year's assessment and arrears from previous years."

Collections for the first two quarters totalled \$111,273, including arrears, Coun. McLeod said. Assessment for the year, including real estate, personal property and poll tax, amounted to approximately \$182,000.

Coun. A. S. Hennessey, chairman of the street committee, reported that the street paving program was drawing up a plan.

Coun. E. A. Foster, chairman of the public property committee, told that repair work on the City Building was completed and cost less than had been expected. Lights had been placed at Government Pond and he expected that all work would be completed in about two weeks.

Coun. H. F. VanDerstine, chairman of the market committee, announced that he expected to have plans for improvements to the fish market to present to the council next week.

The police report was submitted by Coun. Heath McIntyre, chairman of the police committee.

The chairman of Public Utilities, in the absence of Coun. Henry Laphorne, chairman of the fire committee, told the council that the fire chief had reported several fires at the city dump. The fires were a long distance from a hydrant and difficulty was experienced by the firemen in getting water to the scene of the blaze. The Fire Chief had suggested, Coun. McIntyre said, that a pipe line be laid from the water tower to the dump. The cost would be little.

Coun. McLeod expressed the opinion that "the dump is in a most disgraceful state." Coun. Foster and Coun. Hennessey voiced agreement with Coun. McLeod. After a short discussion the Council decided to ask the Sanitary Officer to make a special report on conditions at the dump.

Coun. R. C. Chandler, chairman of the light committee, stated that nine light poles had been placed at Government Pond. Some criticism had been voiced, he said, that the Council had not used metal standards. The matter had been investigated and it was found that if standards were used the distance between them would be so great that it would necessitate burying the wire as the weight would be too great to support otherwise. In such circumstances the cost would be prohibitive. Only the best poles had been used and when they were painted and the work completed he believed it would present a good appearance.

The chairman of Public Utilities had announced that the appraisal of the property of the Maritime Electric Company was not complete, Coun. Chandler said.

A request of the Canadian National Railways Company that the city lease for a five year period, with the option of extending the lease for another five years, fifteen feet of property west of the Roundhouse was granted. It was the temporary extension of the roundhouse, the Council was told.

Several items of business would be taken up at a special meeting of the Council next Monday night, it was announced.

**FOOD INSPECTOR'S REPORT**  
Ninety-five portions of carcases were condemned as unfit for food and destroyed. Dr. I. E. Croken, food inspector said in his report.

### One Month's Treatment of Nox Kidney Flushers

Will end your Kidney Trouble

To neglect the first symptom of kidney trouble might lead to very serious results. Your kidneys contain thousands of little filters, each one having special work to perform. If some of these filters become clogged, poisons and uric acid enter the blood stream. The result is a headache, a dazed, heavy pain, the uric acid deposits a fine granule in the joints, causing a pain known as rheumatism. Nox Kidney Flushers really flush the kidneys, placing them in a healthy, sound condition. No more getting up at night—no more backache. That sallow complexion is replaced by a natural, clear skin. Your eyes become bright and your headaches disappear. Each package of Nox Kidney Flushers contains a full month's treatment. There is only one Nox Kidney Flushers—their improved formula contains the healthiest and most powerful of all kidney flushers. Nox Kidney Flushers really flush the kidneys, placing them in a healthy, sound condition. No more getting up at night—no more backache. That sallow complexion is replaced by a natural, clear skin.
