**PHILADELPHIA**, Oct. 1.—Prof. Walter S. Cowing, of the Friends' School of this city arrived home yesterday, bringing with him, Charles Claxton Jr., the seventeen-year-old son of Dr. Charles Claxton, a well-known physician of Georgetown. It was due to the heroic work of Prof. Cowing that the youthful companion who accompanied him of a most remarkable trip to the wilds of Maine that he is still alive.

—The teacher and a party of German-town school boys are accustomed to spend their vacation every year at a Maine lumber camp. This season camp broke the last week of August, and Cowing and Claxton planned to remain and make a tour of exploration of the woods along the St. John's River.

—The territory is sparsely inhabited, and with only a lumberman's chart to guide them they set out on what they expected would be a trip of much interest and perhaps some adventure. They carried a canoe and provisions to last a month, but after they had progressed for five days they became lost in the wilderness and, with continual rains, they were compelled to spend most of the days and nights in water that extended above their knees.

—No such trip had been expected and Claxton became ill. He was threatened with pneumonia and at times it seemed his fever had reached a stage that bordered on delirium. Young Claxton is especially large for his age, standing 6 feet 4 inches, and when in health he weighs 180 pounds.

—Prof. Cowing had no resource but to try and seek civilization. With his youthful companion on his back, he abandoned the canoe and started for the nearest railroad station that he could find. Night came and the days passed and still they trudged on hoping that each morning would find them nearer assistance. For eighteen days this awful journey progressed without assistance of any kind and without coming in contact with any individuals who might give them a lift and bring them out of the wilderness into which they had plunged. Finally they reached Port Kent on the Canadian Pacific Railway, and they just had strength enough to draw themselves into the station, where both fell exhausted.

**HAMILTON**, Oct. 2.—George H. Pidgeon, 94 years of age, a veteran of the Crimean war and well known in the city, was instantly killed about 10.30 last night, when he was struck by an eastbound street car.
