VICKERSON—McPHERSON.—A very quiet but pretty wedding took place at the home of Mr. and Mrs. A. D. McPherson on the morning of Wednesday, October 22nd when their daughter Jessie May was united in marriage with George Vickerson of Charlottetown. The ceremony was performed by Rev. R. H. Stavert in the presence of a number of the immediate relatives and friends of the contracting parties. The wedding march was played by Mr. Wilbert Drummond. The young couple were unattended. The bride, who was given away by her father, looked charming in a navy blue serge travelling suit with hat to match. After a dainty breakfast Mr. and Mrs. Vickerson left on the morning train on a short wedding trip for Boston and other American cities. On their return they will reside in Charlottetown. The Guardian joins in wishing the young couple many years of happy wedded life.

DON'T BURN THE LEAVES.—Will those citizens who are getting rid of the great accumulation of leaves that have fallen this autumn by making bonfires of them on the street sides and boulevards, remember that they are making unsightly patches for next summer. Where these fires have been set the roots of the grass are killed or next summer and the scars will not add any to the beauty of the city. The leaves are to be burned if should be done where no grass is growing. The better way, although perhaps the more troublesome would be to use them as fertilizer in gardens or on farms as they are the best fertilizer available.

Canadian Women Can Give Further Service

The Victory Loan 1919 Offers Another Chance to Daughters of Canada for War Service

The splendid part played by the women of Canada in the war will not soon be forgotten. A large share of the honors of the victory go to the mothers and wives, the sisters and sweethearts who so nobly bore their part.

Not in a sorrowful silence behind closed doors did the daughters of Canada meet the war, but with grim determination to do all in their power to the thing through to the finish. Overseas many of the Canadian girls were to be found in the hospitals, in the canteen, driving the ambulances or doing executive work.

At home the great army of Red Cross workers kept the overseas forces supplied with needs and comforts, while another splendid army of women filled up the gaps in the industrial world and kept the wheels spinning.

Canadian women are asked to come forward in the Victory Loan and as they lent themselves to the task of winning the war so are they required to lend their money to build up the peace. Even at some sacrifice (and Canadian women know what sacrifice means.) Canada feels that she need not hesitate to ask her daughters to try her bonds.

Tartar on Teeth Shows You Leave the Film

All Statements Approved by High Dental Authorities

Remove the Film

Film is the basis of tartar. It is the source of discolored teeth and decay.

In brushing teeth you leave a slimy film. You can feel it with your tongue. It clings to teeth, enters crevices and stays. Your tooth paste cannot dissolve it. Most tooth troubles are now traced to that clinging film.

That film is what discolors—not the teeth. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So the one great object in cleaning teeth should be to end that film.

Dental science, after years of searching has found a way to do that. For home use the way is now embodied in a dentifrice called Pepsodent.

The results are known. Convincing, clinical and laboratory tests have proved them beyond question. Leading dentists everywhere now advocate its use.

A 10-Day Test Supplied

We now send a 10-Day Tube to anyone who asks. Thus we are starting countless people toward cleaner, safer teeth.

Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object is to dissolve the film, then to day by day combat it.

The way seems simple, but pepsin must be activated. The usual method is an acid harmful to the teeth. It is the invention of a harmless activating method which makes pepsin possible. That, with other Pepsodent ingredients, is doing now what was never done before.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

Read the book we send you. Learn the reason for these things. Then judge for yourself if you want your teeth kept in that way always. Cut out the coupon now.

See how teeth glisten when the film is gone. It is film that makes teeth look dirty. It is film that is the source of most tooth troubles.

WIFES MOTHERED BY ASH CANS FIND LIFE COMICALLY TRAGIC IN "DADDY LONG LEGS" FILM

First Production by Mary Pickford's Own Company is a Master Portrayal of Greatest Human Problems

"Daddy Long Legs," the motion picture production of the great story by Jean Webster, in which Mary Pickford will be seen at the Prince Edward tomorrow and Thursday is an attraction which will have universal appeal, for it is filled with children, and their doings. Moreover the children are not those we see every day, with fathers and mothers to care for and protect them, but little children who are the charges of an asylum which is sadly mismanaged.

Miss Pickford has the role of Judy Abbott, a twelve-year-old girl, full of life and fun, who dodges the cruel punishments of the superintendent of the John Grier Orphanage, to run off and help the little orphans who are faring ill on the miserable diet and poor care they receive.

Child Parts Cleverly Enacted

More than a score of orphaned children, some of them the most clever child actors who have ever been seen on the screen, aid Miss Pickford in this earlier part of the picture, which shows scenes in the big orphan asylum. Clad in striped cheap cloth, fed upon prunes and thin soup, forced to work at hard tasks and above all lacking the kindness and love which should be given child ren, these babies grip the hearts of everyone who sees the picture.

Miss Pickford is assisted by a number of children among whom is the funniest and most freckle-faced lad ever seen in a picture. How he and Mary provoke and carry through a "prune strike" is one of the episodes of the picture in which humor and pathos have a constant struggle for the upper hand.
