SILVER FOX SKINS

DEAR SIR, Owing to the large number of SILVER FOX SKINS now coming forward from Canada and the United States of America for inclusion in our Public Fur Sales, we have found it necessary to make certain rules under which only are we willing to accept consignments.

We have found by experience that except in the case of the very finest specimens higher prices are as a rule realised for lots containing a considerable number of Skins: this is especially noticeable in the case of the cheaper grades.

The buyers attending the Sales have only a limited time at their disposal and it is obvious that they are better able to examine a large offering if the number of lots catalogued is kept within reasonable bounds.

It is also clear that to enable us to make large lots we must be permitted to put the Skins belonging to different owners together, and, further, that Skins cannot be offered subject to a reserve price.

We therefore wish to give you notice that we are only willing to accept your shipments on the following conditions:-

(1) We are to be at liberty to offer your Skins or any part of them, lotted with similar Skins belonging to other Owners.

(2) We cannot include in our Sales Skins on which a reserve price has been placed.

(3) Unless we hear to the contrary, we will assume that you desire to offer and sell all Skins consigned to us at the next Public Sale after their arrival in London; if, however, you should wish any of your Skins held for a later Sale, it will be necessary for you to inform us of this fact at the time of shipment.

(4) It is understood that any Skins consigned to us by you, after the receipt of this circular, are subject to the above conditions, and that, in making your shipments to us, you agree to them.

We need hardly say that in letting together Skins belonging to different Owners the greatest care is taken to ensure that only those of exactly similar character, quality and value are offered in the same lot.

C. M. LAMPSON & CO.

DIRECTIONS AS TO SHIPMENT.

Under the Post Office Regulations, packages to be sent by Parcel Post must not exceed 11 lbs. in weight.

Skins should be carefully packed in parcels, the outer covering of which should be of canvas, unbleached muslin, cheese cloth, or some similar fabric.

Each package must be clearly addressed to:- C. M. LAMPSON & CO., 64, Queen Street, London, E. C. 4, England.

It is essential for the identification of shipments on arrival in London that each parcel should be distinctly marked on the OUTSIDE with the name and address of the Shipper.

It will also be found convenient to mark the first parcel No. 1, the second No. 2, and so continue with each succeeding parcel until the end of the Season.

These two points are of great importance, as large numbers of parcels are frequently delivered together, and without the name of the shipper and number on the wrapping it is extremely difficult for us to trace the ownership of the parcels.

At the time that the shipment is despatched an invoice MUST ALWAYS BE MAILED UNDER SEPARATE COVER to us at this address. This invoice should state:-

(1) The number of parcels sent forward.

(2) The number marked on each parcel.

(3) The quantity of skins in each parcel.

(4) Amount of Marine Insurance required.

Below we give an example of how the Invoice should be made out by you.

UNLESS ADVISED TO THE CONTRARY, we will insure all shipments whilst in transit under our Open Policies, for invoice value plus 10 per cent. These policies give full protection from the time that the goods leave your possession until delivered to us in London, and the rate of premium is very reasonable.

As stated above, we should in every case be advised at the time the shipment goes forward of the amount of insurance required.

If it is not desired that we should arrange Marine Insurance this fact should be clearly stated on the invoice referred to above.

SHIPMENT BY EXPRESS Skins may also be forwarded to London through any of the Express Companies.

Shipments by Express should be made in exactly the same way as by Parcel Post, except that there is no limit to the weight of packages and wooden cases may be used.

It is not necessary so far as the Marine Insurance is concerned to declare a value of more than \$50 per package to the Express Companies, as if full value is declared the Express Company will charge their rate based on the valuation.

Information as to shipments of furs to London can be obtained from our New York Representative:- Mr. ALFRED FRASER, 212, Fifth Avenue, New York City.

It is, however, unnecessary for you to advise Mr. Fraser of shipments made direct to us in London.

PAYMENT Payment will, as a rule, be made by Dollar Cheque from our New York Office.

Should you prefer to be paid by Sterling Draft on London you should inform us of the fact when forwarding your invoice.

Dear Sirs, C. M. LAMPSON & CO., 64, Queen Street, London, E. C. 4, England.

I have to-day made to you a consignment of FURSKINS, particulars of which are as follows:

INSIDIOUS EYE STRAIN

We use this adjective advisedly.

Sufferers from Eye-strain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eye-strain is present, a much larger proportion is required. Hence defective eyes, through excessive consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body and produce ill health.
