ATHENS, Jan. 31.—An autopsy was ordered tonight on the body of General George Kondylis, who died suddenly today at the age of 55.
The order was issued by authorities while unconfirmed reports were current in Athens that the "King-maker" had been the victim of a poison-plot. The news of the autopsy caused a sensation in the capital.
Athens was placed under emergency police protection immediately following the death of the soldier-statesman. This measure was taken to prevent any possible anti-Venizelist moves for a rising

Liquor Law Violations Theme Of Strong Protest By Temperance Delegation

Warning Note Sounded By Non-partisan Delegation At Meeting Of Provincial Government.

A large delegation of citizens headed by the executive committee of the Temperance Federation waited on the Provincial government last evening to ascertain the attitude the government intends to adopt on the temperance question, and presented the following brief, which, in the absence of the president Rev. G. Carlyle Webster, was read by Rev. H. D. Raymond.
"To the honourable the Premier, members of the Executive Council of the Legislative Assembly of the Province of Prince Edward Island, Gentlemen:
"The reputation which it is my privilege to introduce to you today is composed of citizens representing both of the great political parties united in the support of a common cause. We desire to confer with you who are entrusted with the government of this province because we are much concerned at the apparent weakening of control of the evil of strong drink. What we have to say at this time is not to be interpreted as criticism of this government. Our observations lead us to the conclusion that strong drink is becoming more easily obtainable and is being consumed in much greater quantities than a few years ago. On all hands there are evidences of increasing over indulgence, particularly among young people.
"Bottling, from being an occasional violation of the law has become a great industry. In far too many cases undisturbed by the officers of the law. As is ever the case where there is excessive use of strong drink, immoral living flourishes, and we recognize a great increase in that evil and unsocial condition. With the betterment of transportation facilities comes increased motor driving. In far too many cases the drunkenness or partial intoxication of the driver makes a grave menace to the public safety.
"At the Government Hospital for Mental Diseases the physician in charge has attributed the rapid increase in male patients to be the result of excessive alcoholism.
"In our court it is too often the case that the evidence offered savours of perjury.
"Growing Steadily Worse"
"We are of the opinion that the situation which we bring before you is one which has grown and is growing steadily worse. Two or three factors are we think, primary contributors to this evil:—1st—The unwarranted and improper distribution of scrips for purchasing vast quantities of drink from the government vendors; 2nd—The apparently negligible effort made on the part of the City police toward the enforcement of the law; 3rd—While there is not a little to be said in commendation of the activities of the R. Reach Plan To Halt Naval Race

(By Harold P. Braman, Associated Press Staff Writer)
(A. P. By Guardian's Special Wire)
LONDON, Jan. 31.—The four power naval conference unanimously adopted a plan for annual confidential exchange of their construction programs today in a determined effort to diminish the threat of a world naval race.
Great Britain, the United States, France and Italy then decided to push as rapidly as possible toward a general treaty on limitation of sizes and types of ships and calibres of guns.
The plan adopted today will be incorporated in that treaty. Then the powers can hope to get Japan, Germany and Russia to agree later, by formal signature on voluntary adherence, to the conference agreement.

Late News Flashes

- PARIS, Jan. 31.—(C.P. Havas)—The government of Premier Albert Sarraute, which replaced that of Pierre Laval, tonight won a confidence vote of 361 to 165 in the Chamber of Deputies. The vote was on a motion approving the new Premier's government program.

- LONDON, Jan. 31.—(A.P.)—Responsible British quarters, it was learned tonight, view the coming Olympic Games as a valuable ally for European peace during the next few months.

BUILDING OF ABBATOIR DISCUSSED

Committee Appointed To Draft Resolution.

Criticism of the regulations, whereby all meat shipped from this province must be killed in government inspected abattoirs, was voiced by various speakers at a meeting of farmers, drovers members of the local legislature, and other interested persons, held in the hall in the City Building yesterday afternoon. Mr. J. J. McCarthy of Johnson's River was the chairman.
As a result of the meeting a committee consisting of Messrs. J. Walter Jones, M. L. A., chairman, John Roop, H. E. Acorn, M. L. A., Angus McPhee, M. L. A., and John Court was appointed to draft a resolution to be forwarded to the Dominion Government. The resolution, it was understood, would ask the Dominion Government to modify the requirements for abattoirs so that one could be built in this province of a smaller size and at less cost than the rules call for.
Among the speakers at yesterday's meeting were Messrs. J. J. McCarthy, John Roop, Wellington MacNeil, Southport; Angus McPhee, M. L. A., New Haven; W. F. A. Stewart, M. L. Hudson's Bay Fur Sales Held

(C. P. Cable By Guardian's Special Wire)
LONDON, Jan. 31.—The fur auctions of the Hudson's Bay Company, first held in 1872 and continued annually since then, have been held this week. While no estimate is yet available of the total amount of transactions for this year it is known that in recent years they have totalled \$1,500,000. But the trading value varies each year, last year the figures were: Beaver, \$50,000; muskrat, \$1,115,000; mink \$120,000; red fox, \$110,000; white fox, \$70,000.
An important development in recent years has been the offering of furred silver fox and mink from Canada and the Scandinavian countries. Recent years have also seen growth in volume.
There was clamorous excitement at the present auctions when a shipment of 30,000 karakul skins from South West Africa was offered. The bidding reached 72 shillings for the best broad-tailed skins. There was loud cheering as prices for the best skins of this type passed the previous high mark of 48 1-2 shillings.

The dead: Dr. Guy Rothfuss, 32, of Williamsport, Pa.; Washington Dashiaw, the fireman, and William Ramp, engineman.

Will Reopen Investigation Into Hauptmann Case

TRENTON, N.J., Jan. 31.—Attorney General Wilentz reiterated today his conviction that Bruno Hauptmann alone kidnapped and killed the Lindbergh baby, however, and his own personal belief, however, Hauptmann alone was involved, Norman Schwarzkopf, superintendent of New Jersey State police, promised Governor Hoffman to comply with his orders to reopen the investigation of this belief.
The Governor's office announced receipt from Schwarzkopf of a letter promising to do as he was directed almost at the same time that Wilentz took public note of the Governor's orders which were issued yesterday.
"All the evidence, as has been repeatedly stated, every bit of evidence that has come to the attention of prosecuting officials has pointed to the guilt of Bruno Richard Hauptmann alone," Wilentz said. "And that situation has not been changed by theories, published reports or statements, no matter from what source they emanated."
By Governor Hoffman's orders, contained in a letter to Schwarzkopf yesterday, the state police must make a weekly report in writing on the progress of their inquiry. Wilentz said recent charges that the State had suppressed evidence at the trial were met in court when the defence applied for a writ of habeas corpus which was denied.

N.B. Atty. General Exposes Purpose

B.N.A.A. Changes Predicts Province Would Lose Its Status And Be Forced Into Legislative Union Rejected At Confederation.

(C. P. By Guardian's Special Wire)
FREDERICTON, N. B., Jan. 31.—Declaring that New Brunswick had not wavered in her original refusal to agree to a proposal that the Parliament of Canada be given power to amend the British North America Act, Hon. J. B. McNair, K.C., Attorney-General, tonight disclosed that at this week's special committee meeting at Ottawa, held to consider a B. N. A. Act amendment procedure, New Brunswick's representatives advanced certain tentative suggestions with a view to opening up other fields of discussion.
"We stated," he said, "that we were prepared to embark upon a full study of the B. N. A. Act in order that any changes, which the provinces agreed were necessary, might be incorporated in a revised statute to be enacted by the British Parliament."
"We further stated that, if it seemed desirable to limit the matter, our study could be limited to sections 91 and 92 of the Act, being the sections which determine the division of legislative power between the Dominion Parliament and the Provincial Legislatures. Any new division of powers agreed upon by the provinces could then be approved by an amendment to the Act at Westminster."
"None of our suggestions met with any support," he added. "Apparently they are not in line with the plans now on foot to bring about the subordination of the provinces."

Nurse Freed Of Charges

(A. P. By Guardian's Special Wire)
PROVIDENCE, R.I., Jan. 31.—A Providence County grand jury today dropped all charges against Miss Marie Sevigny, French-Canadian practical nurse, who was held on a charge of slaying Mrs. Emma Normandin of Woonsocket, by administering poison.
In its report the jury castigated the police for their "bungling, incomplete and entirely unsatisfactory" handling of the case.
"The jury found that Mrs. Normandin died of poison which she administered to herself."
He predicted that under the plans New Brunswick would lose her status, enjoyed since her foundation in 1784, as a province of Great Britain and would become simply a territorial division of Canada; that her sovereignty would disappear, and that the Confederation established in 1867 would cease to exist.
"In other words," he declared, "we would find the province in a new legislative union, a system which the original provinces rejected in 1867 in no uncertain terms."
Mr. McNair and Hon. A. P. Paterson, President of the Executive Council, both of whom represented New Brunswick at the special committee meeting with Hon. Ernest Lapointe, Minister of Justice, returned to the province today.

N. B. Stands Firm

At Saint John today Mr. Paterson denied an Ottawa despatch, at the Canadian Press last night saying the New Brunswick delegates were "not irreconcilable" in the matter of transferring constitutional amending powers to the Dominion Parliament.
"The New Brunswick delegates," he declared, "reaffirmed in no uncertain language the stand they had taken at the Dominion-Provincial Conference in December. That stand was and remains that New Brunswick will not agree to the transferring of the constitutional amending power from the Imperial Parliament to the Dominion Parliament."

Text of Statement

The statement by Mr. McNair was as follows:
"At the Dominion-Provincial conferences at Ottawa last December an effort was made to obtain from the provinces their con-
