ADAMS BLACK JACK

The only thing a soldier would rather receive than a letter is a box of Adams Black Jack. A stick a day keeps thirst away. Every time you buy it for yourself, buy it for a soldier.

ADAMS

Pure Chewing Gum

Try **BEAVER FLOUR** Both Ways

Make up a batch of Bread and Rolls with it. Then bake a Pie and Cake.

Notice the fine, even texture—the absence of holes—the delicate, nutlike flavor, of the Bread.

Then consider the lightness and flakiness of the Pastry.

You'll never go back to the coarse, almost tasteless western wheat flours, after once enjoying the flavor of the good things made with Beaver Flour.

Order a sack today.

Good Paint Adds 25 pc. to 50 pc. To Your Building's Value

Paint is Cheaper Than Lumber

Good Paint is Cheaper Than Poor Paint

The principal ingredients of PURE Paint are PURE LINSEED OIL AND WHITE LEAD.

If paint is advertised to sell at a price way below the cost of white lead and linseed oil, you know POSITIVELY that such an article is not real Paint. Its merely an application of Clay and grease to use inferior Paints. Don't ruin the surface of good lumber by applying cheap paints.

BUY THE BEST—

BUY JAMIESON'S CROWN AND ANCHOR PAINTS.

The Central Guardian

IT PAYS to buy in this province.

THE GRADUATING EXERCISES in connection with the P. E. Island Hospital training school for nurses will take place in Prince of Wales College Hall this Tuesday evening, April 6th at 8 o'clock. An interesting program has been prepared, Charlottetown's best talent assisting. Silver collection at the door.

FARWELL PARTY.—A very pleasant evening was spent at the home of Mr. and Mrs. Hal Warren, City, April 5, when a number of young people gathered there to bid farewell to Miss Sadie Mills, previous to her departure for Lethbridge, Alta, where she will visit her brothers and sister. The evening passed pleasantly with games and other amusements. A dainty lunch was served by the hostess Mrs. Warren, after which The National Anthem was sung and the guests departed wishing Miss Mills, who left Tuesday morning, a pleasatn trip. Miss Mills will be greatly missed by her many friends in Charlottetown.

A WONDERFUL DEVICE— Mr. W. J. Barton from St. John is in the City with his electric welding machine. His plant consists of a 40 horse power portable gasoline engine to which is attached an electric dynamo. This machine is now housed in Bruce Stewart's Boiler Shop, and the wire cables run from it and out to the Dredge No. 9, which is wintering in Bruce Stewart's dock. The current is so intense that it melts small rods of iron into liquid and also melts the surface to which this is applied. When it cools it is all solid iron, and will break anywhere else before it will part where welded. In this way boiler plates, where wasted can be built up to original thickness and leakes and seams welded up solid as one plate. Large shafting can be built up where worn down in bearings or if broken can be welded up without loosing any in length. This is the first time a plant of this description has been used in the province. When the dredge is finished the steamer Brant will have machine employed doing some repairs to her boiler.

OF LOCAL INTEREST—A Halifax despatch says that the relief commission announced that it has procured the services of Dr. Beorge B. Cutten to take general charge of the rehabilitation department of the relief work at Halifax up to October first next. At the urgent request of the commission, Dr. Cutten has been granted leave of absence by the governors of Acadia College and will shortly enter upon his new duties in Halifax. He will aid the commission in its study of the various problems arising out of the dependency created by the disaster and as to the care of the blind the maimed and the injured their vocational training and the adjustment of allowances and pensions. Dr. Cutten will also be associated with Miss Wisdom and, her competent associates, in a general advisory capacity, on the social service side of the disaster. Dr. Cutten is so well known throughout the province that the public generally will congratulate the commission on its wisdom in procuring his aid at this juncture. His broad sympathies, splendid executive ability and wide experience, especially fit him for the responsible duties which the commission has called upon him to perform.

ADVERTISING IS JUST a part of the business, as much so as the factory and the goods and no more.

A SIGN OF THE TIMES.—A lady from Bedeque visited the city one day last week and took back with her two women to help in the spring cleaning, paying $1.50 per day and all expenses.

ANXIOUS TO HELP.—Several of the young ladies who took the V. A. D. examinations here last month and passed with high marks, are endeavoring to get permission to go overseas with a party of one hundred V. A. D.'s who, is it understood, are to proceed from Canada in the near future.

ISLANDER KILLED— A Halifax despatch of April 11 says: Charles Melnnis, a painter in the employ of the Cook Construction Company, was knocked down by a train at Fairview this morning, and was so badly injured that he died before reaching the hospital, whither he was taken. He belonged to Tignish, P. E. I., was about 50 years of age and married.

READY TO SAIL.—The S. S. Gaspesian cleared at Customs, at Souris, last Saturday, and now awaits a favorable opportunity to sail. The Gaspesian is loaded with lumber for New York, having cleared from Quebec late in the season, was caught in the ice and had to lay up in Souris all winter. The crew being mostly from Quebec and Montreal, were paid off some time ago, and Capt. Filmore had to secure a new crew partly in Charlottetown and partly in Souris. Wm. Gillum, of Souris, goes as first officer, and Murdoch McLeod as second engineer. Souris harbor is pretty nearly clear of ice.

CAPT. CLARENCE McKINNON BACK—The Halifax Chronicle says: One of the many outstanding features at the regular weekly luncheon of the Commercial Club, held yesterday at the Green Lantern, was the speaker of the day, Capt. (Rev.) Clarence MacKinnon, who recently returned from overseas. Captain MacKinnon spoke principally of the work with which he is now connected. In opening, he thanked the Club for the warm reception given him and he was given three hearty cheers and a tiger. In taking up his subject Captain MacKinnon said the soldiers who went overseas had made many sacrifices. They had given up their homes, and many young men in the critical moment of life had sacrificed their business and profession, and when they come back all is lost. There are college professors, professors of agriculture and many high school teachers, so there were organized classes, embracing business courses, agricultural and similar training. This began in Whitney Camp, and the support given it by the people of Canada and the Government of Canada has been wonderful. The Y.M.C.A. has also greatly helped in this work. In the evening the boys come in to study, and there are always a large number in the agricultural classes. There are also many interested in gas engines and electrical engines. Then there are a number of men who have taken up a general educational study. This work is also carried on in France, and only recently thirty college libraries were sent there, which makes a total of sixty-five. Many of those are near the range of the German guns, and often are under fire. The men from the front go in, take a book and study it. In this connection, Captain MacKinnon paid a high tribute to the work of the Y.M.C.A. Languages are also taught Italian for those going to Italy, as well as French and Spanish. In conclusion, Captain MacKinnon spoke of the splendid work of surgeons and doctors in looking after the wounded.

I consider MINARD'S LINIMENT the BEST Liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly

ITCHY SALT RHEUM

Sometimes Called Eczema—Removed by Hood's Sarsaparilla

Salt rheum is one of the worst and unfortunately one of the most common of all diseases. How it reddens the skin, itches, oozes, dries and scales and then does this all over again! Sometimes it covers the whole body with inflamed, burning patches and causes intense suffering, which is commonly worse at night.

Local applications may do some good, but they cannot permanently relieve. The disease will continue to annoy, pain and perhaps agonize, until the blood has been purified and the general health improved.

Ask your druggist for Hood's Sarsaparilla, the good old reliable family remedy. It has given perfect satisfaction in thousands of cases. Insist on having Hood's Sarsaparilla, for no substitute acts like it. Get it today.

Sketch of Life of Lieut. Nicholson

The subject of this sketch, Lieut. Angus Nicholson, son of Capt. J. A. Nicholson was born at Orwell Cove, Feb. 23rd, 1895 made the supreme sacrifice in France on March 6th, 1918. Lieut. Nicholson had a brilliant career, and it only illumines the horrors of war that he in common with thousands of men his type, have given their lives to stay the onslaught of Prussian militarism, which means heathen barbarism.

Angus, as he was best known to his friends graduated from Prince of Wales College in 1914, where he won the Governor-General's Silver medal. He taught a year in Wilcox, Sask. and entered the university of Sask. from which he obtained his B. A. Degree in 1915.

On Feb. 1916, he enlisted in the 196th Western University Battalion, trained at Camp Hughes, Man., and qualified as a Sergeant. On his way to embark for England in October 1916, he spent a night at his old home. In England he took a Lieutenant's course at Bexhill on Sea, joined the 16th Canadian Scottish Batt. crossed to France in May, 1917. Since that time he has been at the front off and on till killed in action.

YOU'RE BILIOUS! LET "CASCARETS" LIVEN LIVER AND BOWELS

Don't stay headachy, constipated, sick, with breath bad and stomach sour

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

"The Silent Man"

By Charles Kenyon

An Artcraft Quality Picture

NEW YORK CRITICS PRAISE "THE SILENT MAN"

A splendid example of the silent drama. There is a pretty romantic view throughout the vigorous article.—New York Herald.

The outdoor scenes are magnificent, the whole picture is wonderfully well produced, but the sub-titles deserve special comment. They stand out as an example of what titles should be. They are virile, forceful, and concise.—New York Tribune.

Hart, rides, shoots and throws the lariat with all the convincing assurance which makes him so popular as a type of the old frontier man.—New York Globe.
