Get Sentence of Twenty Years

AMHERST, Oct. 22.—Lloyd King, of Tignish, N.S., who killed Lewis Crossman, in a quarrel and open handed fist fight at Tignish, N.S. and who was charged at the inquest as a murderer was tried in the Supreme Court here this week the jury bringing in a verdict of manslaughter was sentenced at this morning's session by Mr. Justice Harris that the prisoner be confined to the Penitentiary at Dorchester for a period of 20 years.

In passing sentence his Lordship said: "You have been found guilty of manslaughter by a jury of your countrymen, you might have been standing here facing a sentence for murder, you brutally kicked an old man and your crime is one which must receive adequate punishment. Crimes of this kind must not be tolerated and while I have sympathy for your father and mother and also your young wife, I do not think this is a case for leniency and clemency." Apparently moved by the sentence the convicted man was immediately taken from the court room by the sheriff.

The case of James Tom, Chinaman was then dealt with.

His Lordship stated that this case had given him a lot of trouble and while he was inclined to think the verdict of the jury was right at bringing in a charge of attempt of murder he must confess the case was a Chinese puzzle to him. The prisoner was sentenced to be confined to the penitentiary at Dorchester for the term of four years subjected to the rules and regulations of that institution.

Salts is Fine For Kidneys, Quit Meat

FLUSH THE KIDNEYS AT ONCE WHEN BACK HURTS OR BLADDER BOTHERS

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

At one time snail-racing was a great fad in Austria. Vienna had a fashionable snail-racing club, where fortunes were frequently wagered on the ridiculous contest. Careful records of the time taken by the winning snail crawl around the miniature race-course were kept, in order that contestants might be properly handicapped in subsequent matches.

Popularity of New Dictionary Grows

Lawyer Praises Book — Money Well Spent He Declares.

Appreciation of the offer of The New Universities Dictionary being shown by this paper to its readers is the distribution. The popularity of the book has become more widespread, as those who were among the first to secure a copy have told their friends about the dictionary or have shown it to them. Each day the distributing clerks have been besieged by crowds of coupon-holders.

Many comment on the work in terms of highest praise. "I never spent ninety-eight cents to better purpose in my life," a well-known lawyer declared. "I have long been wanting just such a dictionary. It is thoroughly up to date, gives a simple, accurate definition of a lot of new words, and the illustrations are both interesting and instructive. Its convenient size and practical style of binding further recommend it." The New Universities Dictionary was designed to serve as a guide to the correct use of today's English. It is accurate in its definitions and contains the latest and newest words whose general usage warrants their incorporation into a dictionary designed as this one was, primarily for everyday folks who want to speak and write the English language correctly and well. Cannot Wait For United States

PARIS, Oct. 21.—It is considered clearly impossible to wait for the United States to ratify the Peace Treaty before the formal announcement of ratification is issued because of the unsettled conditions in German territory. The council has drafted a form of call for the Council of the League which is being submitted to the various powers and will be issued by President Wilson after the date has been agreed upon.

Evidently the Council of the League at its first meeting will dispose only of the Sarre Valley question and other matters which cannot be postponed. There is a general disposition to create only a temporary organization to meet emergencies which will be replaced by a permanent organization when the five principal allied and associated powers have ratified the treaty.

On the same day that the formal ratification is accomplished, notices will be issued to the five great powers and to Brazil, Spain, Belgium, and Greece, which together make up the first membership of the Council of the League, that council is to meet.

WASHINGTON, D.C., Oct. 21.—Taking notice of reports that the United States might aid in carrying out the provisions of the Peace Treaty in addition to the administration announced today that American diplomatic and military participation in certain of these provisions must wait until the Senate has acted. At the State Department it was declared this government would not accept the invitation of the Supreme Council at Versailles to take a place immediately on the international com-

missions set up by the treaty, and that the war department it was made clear that no American troops would be used without Senate sanction to police districts where the treaty provided for plebiscites under the military supervision of the Great Powers.

Real progress toward Senate action on the treaty was made today when the leaders put an effectual damper on the debate and permitted the Senate clerks to finish the tedious work of reading the treaty text. Just before adjournment the Johnson amendment to equalize voting powers in the League assembly was formally brought up for action and it will have the floor, except for the privileged "morning hour" each day, until it is disposed of. It is the last but one of the committee amendments. Some of the more optimistic thought a vote on the Johnson measure might be possible to-morrow, but the general prediction was that a roll would not be reached before Wednesday at the earliest.

What little debate there was today was confined to the Irish question, which may get before the Senate again during the morning hour tomorrow.
