### The Penalty of Leadership

In 1914 Theodore F. MacManus wrote a masterpiece, "THE PENALTY OF LEADERSHIP."

We quote some significant extracts from it.

"In every field of human endeavor, he that is first must perpetually live in the white light of publicity."

"In art, in literature, in music, in industry, the reward and the punishment are always the same."

"THE LEADER IS ASSAILED BECAUSE HE IS A LEADER, AND THE EFFORT TO EQUAL HIM IS MERELY PROOF OF THAT LEADERSHIP."

"IF THE LEADER TRULY LEADS HE REMAINS THE LEADER."

"That which is good or great makes itself known, no matter how loud the clamor of denial."

**A Grateful Letter**  
From a Lady Made Well by Dr. Williams' Pink Pills.

"I wish from my heart I could persuade every person who is run down in health to give Dr. Williams' Pink Pills a trial." Thus writes Mrs. Louie Mitchell, Oak Point, Man., who further says:—"About a year ago I was a weak woman, suffering from a run down system and impoverished blood. Any little exertion would cause my legs to tremble and my heart to throb violently. I could not sweep a room or walk fifty feet without being exhausted. Then I began taking Dr. Williams' Pink Pills and after taking only six boxes I am as well and strong as ever. I can walk and run without stopping every few seconds gasping for breath as previously. Dr. Williams' Pink Pills will be my stand-by in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to anyone needing a tonic.

There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sole mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

**Many Mothers Recommend Them**  
Baby's Own Tablets Are Fine for Nervous, Sleepless Children.

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box. By The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet "Care of the Baby in Health and Sickness" will be sent free to any mother on request.

way as there was about his title. It is not at all an unusual thing for more than one family to have the same motto.

That which Lord Oxford has chosen is "Sin Macula Macula" which incidentally is the motto on the arms of the Clough of Llynw Ofa family.

This family was founded by Sir Richard Clough, Knight of the Holy Sepulchre, who was the fifth son of Richard Clough, commonly called "Hen" or "The Old." Sir Richard became an eminent merchant in London, and was a partner of the celebrated Sir Thomas Gresham, who at Sir Richard's suggestion, erected the Royal Exchange.

What does this motto mean? Mr. J. Gilson, Keeper of the Manuscripts Department of the British Museum when asked to translate this motto said that it would mean: "Mail-coat without stain."

"It is the word macula which might be interpreted in different ways," said Mr. Gilson. "It might mean the same as macula."

"I would interpret macula to mean firstly a spot or speck; secondly, the mesh of a net; thirdly, Holy Sepulchre, which is a heraldic son of Richard Clough, commonly called on the other surface of the mill;
