Rosy Cheeks

The Ambition of Every Woman.

Hollow cheeks with dark lines, sallow complexion—how a woman hates them. But rosy cheeks, clear skin, bright eyes—give them to a woman and she is happy. In the blood is found the first sign of trouble.

It grows thin and watery, its color fades, and increasing pallor and sallowness give the outward evidence of the change within.

Soon the nerves weaken, the heart beats, the liver and gallbladder, strength departs. The delicate mechanism of the womanly functions is interfered with, and pleasure, activities and even duties are hindered down with the burdens of declining health.

Why is it that women neglect the body's warnings? Usually she waits till she is ready to drop—often then it's too late.

These conditions are easily checked, easily cured at the beginning—but even when long established Ferrozone will improve the cause and cure the trouble.

Ferrozone's action aids the three principal functions of the body—digestion, assimilation, elimination.

By strengthening digestion it forms an abundance of rich, red blood—this gives good color.

By perfecting assimilation, Ferrozone supplies nutrition—this gives strength, vim, stability.

Elimination is assured because Ferrozone quickens the action of the liver, kidneys and bowels—this guarantees the exit to issue of vigorous health.

Ferrozone puts you on the right road—the one that leads to health.

Not a man, woman or child needling survives a cure because it feeds and builds up the health who won't receive immediate help from Ferrozone.

As a tonic and restorative, as a health-bringer and body-builder, Ferrozone is unrivaled. It cures because it feeds and builds up the health who won't receive immediate help from Ferrozone. Try it yourself—solve every where in 50c bottles.
