LIKE A MAGNET

THE manner in which Zam-Buk draws disease and poison out of the skin has been aptly described as "magnetic."

Even obstinate and long-standing sores yield in an astonishing way.

Draws Disease out of the Skin.

The marvellous success of Zam-Buk is due to its rare herbal origin and the scientific methods employed in its blending.

Dr. Patterson Shibley, of 1868 Wyomine Avenue, Washington, D. C. writes: "For sixteen years I have used Zam-Buk in my practice, and know nothing to compare it with in skin trouble, from roughness and irritation to chronic skin disease."

Minard's Liniment Cures Distemper

HELP THE CHILDREN

"His ailment beaucoup les enfants" (They love the children very much) was a remark frequently made by the people of France, among whom the soldiers of the Canadian Corps were billeted for, hard hitters though they were in the firing line, they liked nothing better when in their "rest billets" than to play with and amuse the children. It was a very usual sight in the Canadian areas to see a heavy gunner with "Canada" on his shoulder straps, or a sturdy sapper of the engineers, holding Madame's tiny "bebe" while she improved the time at her multifarious household duties or perhaps at making "une tasse de cafe pour soldats."

"Nor do we think that the soldiers—big hearted and fair minded as they were—could have withheld their tenderness even had the tiny baby been the little Hun. However that may be, the soldier of Canada in his kindness and care for the weak and helpless, and sometimes suffering children, only typified the character of the nation to which he belongs. There are now millions of children of Europe who have been made fatherless and destitute by the war. Their case is pitiful beyond description. Ill nourished and languishing, they need condensed milk, fats and sugar to recover into normal conditions of growth and health. Several millions of them can not get those foods only as they are provided by other nations—chiefly the British Empire and the United States of America. The Canadian Red Cross is making an appeal on their behalf during Armistice Week, and it will ask for contributions to the British Empire Relief Fund. This appeal for that Fund is being made throughout the whole Empire. Canadian contributions to the Fund will be forwarded through the Canadian Red Cross, and the British Red Cross, in co-operation with the League of Red Cross Societies, will direct their expenditure where most needed. All who are interested—who is not?—should get immediately into touch with their local branch of the Canadian Red Cross, or if no such exists with the Headquarters of their respective Provincial Divisions. 3350-10-29-spncec.

Eats Candy but Loses Her Fat

Here's joyful news for every fleshy person who loves good things to eat, especially those who are denying themselves the things they like most because of their desire to keep down their weight or to reduce the fat with which they are already burdened.

There is no further necessity to diet in order to keep your weight down or reduce the fat you have already acquired.

The famous Marmol's Prescription has been put up in tablet form, and is now sold by all druggists at one dollar for a good size box. To get rid of fat at the rate of two, three or four pounds a week, just take one of these little tablets after each meal and at bedtime until you have reduced your weight to where you want it. No wrinkles or flabbiness will remain. Use Marmol's Prescription Tablets according to directions a few weeks and get results without going through long sieges of tiresome exercise and starvation diet. Get them at any drug store or send the price to the Marmol Co., 93 Garfield Building, Detroit, Mich., and receive them by mail, prepaid, in plain, sealed cover.

MONCTON, Oct. 22.—A most distressing accident occurred Wednesday morning at 5.30 at Tide Head, near Campbellton, in which Mr. J. P. Fournier, of Val Brilliant, was the victim.

Mr. Fournier was brakeman on Extra No. 2346 going north and as the train was pulling into Tide Head going at the rate of four miles an hour, got off upon the platform and slipped under the train. Both legs were cut off, the right between ankle and knee and the left between knee and thigh. He was immediately taken to Campbellton and removed to the Hotel Dieu Hospital where everything possible was done for him, but without avail. He passed away at 3.30, some three hours after the accident.

SYDNEY, Oct. 19.—Stellar horse racing marked the closing meet of the season here this afternoon which was witnessed by 2,500 people. The official dope was upset in several of the classes. Prince Rupert took three straight heats in the \$500 Free-For-All. Mother's Boy, a Truro horse, took first money in the 2.20 mixed class after five heats.

War Veterans Column

ADDRESS CORRESPONDENCE TO WAR VETERANS COLUMN, P.O. BOX 385, CHARLOTTETOWN

MAC TO THE RESCUE. In a little examination on the borders of Belgium a British soldier was having an argument with the French girl behind the bar on the question of change. His vocabulary was limited to about six words, and even these the girl didn't understand. Just when there seemed to be no possible chance of clearing up the matter, a Scotsman came to the rescue. "Parlez vous Francaise?" he asked. "Oui, monsieur," said the girl eagerly. "Then why the hell didn't you speak the mon his change!" said Joe wrathfully.

TWO QUESTIONS. The right Hon. Joseph Chamberlain once asked the following questions, and then answered them as follows: "What is the greatest of our common obligations? It is defence!" "What is the greatest of our common interests? It is Imperial trade!" If correct as we believe they are, why is it the great man, who ought to have for many years neither thought nor even cared anything of our naval or military defence systems. Our military system is broken down on the outbreak of the Great War. Are we going to continue the same old system, or will we demand a system which has proven much better in Australia and some Countries of Europe. Canada is now to enter upon a new scheme. Is it to be a farce, or our trust in Canada, nor upon the officers and men, nor upon the politicians, but upon every individual who is a citizen of Canada if the naval or military systems of "Canada are to be something real, and something to be proud of, the people of Canada will wake up and take an interest in them, otherwise they will become as in the past party tools for our politicians. The Navy League have done nobly in training boys for the sea, but why any private concern do this? It is the duty of the Government to provide training for every boy in our land, but they will never do it until the people wake up and demand it. In the meantime it will be necessary for the "Navy League" and other "Defence Leagues" to carry on the good work they are now doing, and so try to awaken the public interest.

FOOD FOR THOUGHT. There is no more effectual way to destroy a great and mighty nation than to give its young men all the money they want, provide them with plays and festivities and amusements and dances and wine, and leave them to sweat the life and manhood out of body and soul in the hotbed of pleasure and self-indulgence. That is the way Babylon was ruined. That is the way Imperial Rome became an easy prey to northern barbarians. That is the way Christian Constantinople came under the de-
